Re: TRAL SYSTEM improvements Inyo Forest
2012/13 Grant cycle

I was a participant in the travel management plan in the Inyo Forest. My comments & those of fellow motorcyclists were not reflected in the record of decision. Marty Horng was not receptive to our view point & always said we would be heard Later in the process. It never happened. To give them more money & expect any public person to trust them again is not believable.

Horng is capable of fabricating a motorcycle public to perform this Grant work. We would need some middleman negotiator before the local users could support this.

Thanks
