Tom Quinn, Supervisor  
Tahoe National Forest  
631 Coyote Street  
Nevada City, CA 95959

Dear Mr. Quinn:

This letter of support for Grants # G14-02-20-D01, G14-02-20-G01, G14-02-20-P01, and G14-02-20-P02 is being submitted on behalf of the BlueRibbon Coalition, a national non-profit trail-based recreation group.

BRC has reviewed these proposals and believes they appropriate given the quality and quantity of the Forest's higher elevation "wooded" or "alpine-type" OHV opportunities. The Forest should be commended for its efforts to provide both destination and dispersed motorized recreational opportunities. These grants including the easement proposal will enhance OHV opportunities and protect resources.

BRC also commends the Forest for its ongoing participation in the Region 5 Wet Weather/Soil Study. BRC is hopeful this study will produce real-time wet weather-based management prescriptions that might allow for OHV use during dry winters.

BRC looks forward to working with you and other stakeholders in support of managed OHV recreation on the Tahoe National Forest.

Best regards,

*Don*
