Re: Support for CA OHMVR Grant application for signage on County Roads where OHV vehicles are also legal

Dear Ms. Loflin:

The Lassen Motorcycle Club would like to commend the Lassen County Public Works Department for being proactive and allowing off-highway vehicle (OHV) use on certain County roads where needed.

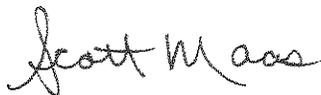

During OHV use, there are times when a County road provides the best or only solution for an OHV user to get to or from his or her vehicle or staging area. Particularly at the BLM Fort Sage OHV area, the County Road, Fort Sage Road, is often used by an OHV to get to a destination.

The Lassen MC strongly supports the County's effort to properly sign these special OHV use County roads that will notify both the OHV user and other motorists that OHV vehicles are legal on that particular County road. Our organization works closely with the BLM Eagle Lake Field Office and supports the coordinated effort between the County Public Works Department and the BLM Eagle Lake Field Office on best placement of the signs.

The Lassen MC also recommends the California Off-Highway Motor Vehicle Recreation (OHMVR) Commission support funding the Lassen County Public Works Department grant application for signage. The OHMVR funding is critical for this important project to move forward.

The Lassen MC would like to thank the OHMVR Commission and staff for considering to provide OHMVR funding for this important Lassen County Public Works project.

Sincerely,

Scott Maas
Legislative Officer
