1. Applicant Certifications

A. General Conditions

- A. The Applicant hereby certifies, under the penalty of perjury, compliance with the following terms and conditions:
1. If the Project involves a Ground Disturbing Activity, the Applicant agrees to monitor the condition of soils and wildlife in the Project Area each year in order to determine whether the soil conservation standard adopted pursuant to Public Resource Code (PRC), Section 5090.35 and the HMP prepared pursuant to Section 5090.53(a) are being met.

 3. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the HMP prepared pursuant to PRC Section 5090.53(a) is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion until the same HMP prepared pursuant to PRC Section 5090.53(a) is met.

The El Centro Field Office meets the operation and maintenance needs of the OHV recreation facilities through a combination of volunteers, contracts, and in house labor forces. These on-going workloads are prioritized by the Field Manager and completed when funds are available. Large volunteer projects are coordinated by the United Desert Gateway, San Diego 4-Wheelers, KXO radio, Drive Racing LLC, and GlamisWeather.com, and the BLM. Volunteers also act as campground hosts, ranger station staff, and provide EMS assistance.

The BLM also contracts out many of the larger O&M tasks such as fee collection, trash collection and toilet maintenance. Law enforcement and EMS are also enhanced through cooperative agreements with other agencies during busy holiday periods.

The BLM utilizes in house labor forces for both small and large O&M projects. The BLM staff routinely maintains trash, sanitation, road maintenance, building maintenance, and facility access at OHV areas.

Both Rangers and Park Rangers coordinate and vary their schedules to provide effective and efficient coverage to meet the needs of the fluctuating OHV visitation levels. Generally speaking, patrols increase during high levels of activity during the weekends in the fall, winter, and spring, and patrol are reduced during the slower periods of summer and mid week.
