

FRIENDS FOR MADERA OHV PARK

Madera County is in the process of developing an OHV park for motorcycles and other off highway vehicles. By signing this online petition you are showing support for a sport that involves families and fun by providing a resource to use the vehicles they purchased. For years we have faced discrimination because of the sport we have chosen. We have been paying green sticker fees and taxes with no return into our area. We now have a chance to recoup some of the money we have sent to Sacramento as well as develop a tax revenue for our county. We appreciate your support and look forward to many years of family fun and excitement.

Thank You
LETTER TO
BOB WILSON

This would be great for the area. Kids would have a safe place to go and beginners would be able to utilize it for practicing. My wife wanted a street bike to be able to ride next to me and to learn how to ride. So I bought her a dirt bike and taught her the same way I learned. We had to use a friends property just to have a place that was legal to teach her. In my opinion all beginner riders should experience dirt first, then street. Lets get this done! This is something that is needed for our community and especially for our youth. Living in the Ranchos where you are only allowed to ride your dirt bike or quad for testing and where the sheriff is called if you go any longer, our youth and those who ride need an area to ride. I like the cause! We need more places for OHV to use.

Daniel Reachert, Sunnyvale, CA

This has gone on too long. Motorcycles are sold, taxed and need a place to legally ride that's not 50+ miles away. Environmental impact? There's an impact of all the motorcycles being trailered to places to ride. There's an impact of riders on illegal trails. My dad advocated for this for more than 40 years. People are all ready riding on there property and with more and more people moving up there are less places to ride. I know people are seeing this as a negative but it will only bring more people and more business to the mountains this will be a great park for everyone! I am 100% for it.

NOLAN fitzpatrick, Squaw Valley, CA

Off road riding is a fantastic sport/hobby for children and adults.
Outdoors, LOTS of exercise, building coordination,skills,and self-confidence.
I have found the dirt-biking community to be the friendliest and most helpful out of any of the sports we participate in.My boys and I still ride together whenever we can (I'm 57 by the way), which is largely dictated by the availability of open riding areas!
Build more OHV parks and you'll be building stronger communities!
(And you won't have to worry about your kids going out at night because they'll be too tired!!!)

Dave Allen, Santa Cruz, CA

This is a place that is really needed in that area. There is a lot of open space to ride in that area, but unfortunately it is private property. If you want to ride in that area you have to break the law and no true rider wants to do that. This is being apposed by Frank and Barbara Bigelow, under the pretense of cost and increased pollution. The truth is that Frank and Barbara live near the area, and like all politicians they will support anything

just not in there backyard. Be careful the Bigelows have personal reasons to appose the OHV park, even if it would be great for the kids and family's in the area. Also the people coming from the valley would spend money in the area and help the economy in the foothill community.

Richard Patterson, Wishon, CA

I'm signing because I like to ride dirt bikes and I have always loved going to the races and watching the races.
