March 11, 2013

Folks,

This year our organization once again is pleased to support the grant application submitted by Friends of Jawbone. Ed Waldheim has been working diligently to promote responsible recreation by educating OHV riders and restoring trails. Specifically:

- The addition of 25 million acres to Owlshead GPS is an excellent tool designed to keep riders on course.
- Funds to support fencing projects, site restoration, and monitoring of restored sites are necessary for sustainable recreation.
- Education is vital and we endorse a project to teach youngsters appreciation and respect for desert landscapes, animals, and cultural sites.

OHV users need to comply with the law, and these projects move us another step closer toward reaching that goal.

Sincerely,  
ORV WATCH KERN COUNTY
