Subject: Sierra National Forest 2012/2013 Education and Safety grant application G12-02-17-S01

The Stewards of the Sierra National Forest and its many members are submitting supporting comments toward the Education Grant request submitted by the Sierra National Forest in this year's grant cycle.

We believe it is vitally important to educate current and future OHV user in proper use and activities related to OHV recreation. There are very few educational programs that take steps to reach out to the recreating public by going to venues that attract potential recreating users. This project is designed to attract the public at a young age and instill proper OHV use and activities associated with OHV recreation. We request that the Division please give this proposal high consideration for approval.

Sincerely,

Mike Wubbels
