RE: File Code - 2353
Application # G15-02-19-PO1
Slick Rock -Re-Route

Attn: Grants Manager

Slick Rock Jeep Trail is an extremely valuable recreational venue in our community. It brings hundreds of people to our area each week in the Summer and Fall. This same route is used by OSV users during the winter months to access the trails in the Spicer Reservoir area.

The Re-Route is necessary to remove a portion of the trail on private property and to put it on USFS land where it belongs.

I am in total support of this Re-Route and I encourage you to approve this grant to keep this project moving forward.

Best Regards,

John T. Watts
