## WHPP/HMP Instructions (OHV Form F, Part 2)

### **OHV Form F, Part 2: Risk analysis, management program, and reporting**

OHV Form F, Part 2 is required for Applicants who are unable to sign the certification on Part 1.

***For all Applicants having previously submitted a WHPP/HMP Part 2 that is currently in use in the proposed Project area: Submit only Tables 5-7. If this Application describes changes to the WHPP/HMP on Table 5, then the Applicant must submit a complete new OHV Form F, Part 2, including all Tables 1-7.***

OHV Form F, Part 2 must contain three sections:

- Section I: Table of all special-status species and any other species of local concern that were reviewed for inclusion in the WHPP/HMP (Refer to Table 1).
- Section II: Map(s) of Project area with species and/or habitat addressed by the WHPP/HMP.
- Section III: Protection/Management Program by species and sensitive habitat (Refer to Tables 2-5).
- If a WHPP/HMP is currently being implemented in the Project area, then Section IV must also be submitted (Refer to Tables 6-8).

Whenever the WHPP/HMP relies on a regional or other study, the WHPP/HMP must clearly explain how that study applies to the specific Project Area.

### **Part 2, Section I**

#### **Table 1: Table of All Special-Status Species and Any Other Species of Local Concern That Were Considered for Inclusion in the WHPP/HMP.**

Complete the table of all reviewed special-status species and any other species of local concern. Add additional rows and pages as needed. Complete OHV Form F Table 1 and continue to Part 2, Section II.

**Species:** List all Special-Status Species that could occur within the Project Area of applicable proposed Projects. Special-Status Species are:

- Federally Endangered (FE)
- Federally Threatened (FT)
- Federal Candidate (FC)
- United States Forest Service Sensitive Species (FSS)
- Bureau of Land Management Sensitive Species (BLMSS)
- State Endangered (SE)
- State Threatened (ST)
- California Species of Special Concern (CSSC)
- State Fully Protected (SP)
- California Native Plant Society 1B – Plants rare, threatened, or endangered in California and elsewhere (CNPS 1B)
- California Native Plant Society 2 – Plants that are rare, threatened, or endangered in California, but more common elsewhere (CNPS 2).

- ❑ United States Forest Service Management Indicator Species “MIS” (FSMIS).
- ❑ Bureau of Land Management “MIS” (BLMMIS).
- ❑ Species of local concern and any other that the Grant or Cooperative Agreement Applicant has determined shall be included in the WHPP/HMP (SLC).

**Listing Status** – Identify the list(s) that contain the identified species utilizing the acronym codes in parentheses above.

**Habitat** – Describe the listed species’ habitats.

**Potential for Occurrence** – Identify whether there is potential for the listed species to occur within the Project Area of applicable proposed Projects.

**Addressed by WHPP/HMP?** – Indicate whether the species or habitat is addressed in the WHPP/HMP. If not, explain why. If the species could potentially be affected by any Project activities, state “yes” and be sure to address the species in subsequent WHPP/HMP sections. If the species could not be affected by Project activities, state “No.” Include a brief explanation of the rationale for not including a particular species when the answer in the column box is “No.” For example, if activities are limited to routine trail maintenance involving trail brushing, minor grading, and reinstallation of erosion control structures, those activities probably would not affect foraging special-status migratory birds.

**Note:** The Wildlife and Habitat Data Analysis Branch of the California Department of Fish and Game (CDFG) produces complete lists of “special” plants and animals, which are updated twice a year as part of the California Natural Diversity Data Base (CNDDDB). Subscribers to CNDDDB receive the lists as part of their subscription. The lists can also be obtained from the CDFG website at:

<sup>1</sup>Listing Status Key:

FE	Federally Endangered	CSSC	California Species of Special Concern
FT	Federally Threatened	SP	State Fully Protected
FC	Federal Candidate	CNPS 1B	Plants rare, threatened, or endangered in California and elsewhere.
FSS	USFS Sensitive Species	CNPS 2	Plants rare, threatened, or endangered in California, but more common elsewhere.
BLMSS	BLM Sensitive Species	FSMIS	USFS Management Indicator Species
SE	State Endangered	BLMMIS	SLM Management Indicator Species
ST	State Threatened	SLC	Species of Local Concern and any other the Applicant has determined shall be included in the WHPP/HMP

<sup>2</sup>Potential for occurrence could be based upon presence or absence of suitable habitat, incidental observations, and/or survey results.

<sup>3</sup>Examples of reasons to exclude species from the WHPP/HMP include:

- surveys have shown that the species' habitat does not occur in or near any OHV Recreation area
- potential habitat exists, but surveys to protocol have not detected the species
- there is no overlap in time between OHV Recreation and species occurrence (or sensitivity such as nesting)
- risk factors—there are no known risk factors for the species that are related to OHV Recreation (examples of risk factors for species include turbidity, sedimentation of spawning gravels for fish, increase in water temperature [for fish and amphibians], loss of snags [for cavity nesters], elimination/disturbance of hollow logs as denning sites [for fur bearers])
- the species has not been seen in the area in a long time (e.g., since 1952)

## Part 2, Section II

### Map(s) of Project area with species and/or habitat addressed by the WHPP/HMP

Applicants must include maps for all species and/or habitats addressed in the WHPP/HMP (i.e., where “Yes” is the answer to the question in the fifth column of WHPP/HMP Table 1, “Addressed by the WHPP/HMP?”). The map(s) should illustrate the spatial relationship between special-status species and OHV Recreation. If the Applicant does not include a map showing each species and/or habitat as described above, provide an explanation for the omission (e.g., lack of funds, mapping next year). Maps must include the following:

1. Identification of OHV Recreation within the Application Project Area (e.g., Roads, trails, and areas open for OHV Recreation) and the location of special-status species and/or their habitats. If specific features (e.g., streams, specific campgrounds) are discussed in the WHPP/HMP, they shall be shown on the maps. *Detailed location information that might jeopardize special-status species does not need to be included. The Applicant may use circles or other symbols to indicate relative locations.*
2. Include a north arrow and scale. Reference all maps to a vicinity map of the OHV area or otherwise clearly indicate the location of the area mapped.
3. Format maps as a JPEG file. The Division accepts foldout maps if they are folded to 8 1/2 x 11 inches or put into a pocket to fit this format.
4. Use the same common/scientific names on the map as are used in WHPP/HMP Table 1.

Continue on to Part 2, Section III.

## Part 2, Section III

### Management/Monitoring Program by Species and Sensitive Habitat

Complete WHPP/HMP Tables 2, 3 and 4 to provide a description of the data, management program, monitoring program, and management review and response process for the species/habitats marked “Yes” in WHPP/HMP Table 1. Address the information in all three tables for each species, related group of species, or habitat. Terms followed by an asterisk (\*) are defined at the end of the instructions for Section III.

**WHPP/HMP Table 2: Data (Including Baseline Data) and Management Program for Species and/or Sensitive Habitats** – In WHPP/HMP Table 2, address each species and habitat marked “Yes” in Table 1. Each column must be filled out for each species/habitat.

**Species/Habitat** – List all species/habitats marked “Yes” in Table 1. Similar species/habitats may be grouped, but all species/habitats marked “Yes” in Table 1 must be clearly addressed.

**Known Information** – Summarize relevant information known about each species and/or sensitive habitat (e.g., general location, population size, and use of the area as breeding and foraging).

**Methodology** – Summarize methodology used to obtain data, including protocols and frequency/intensity of effort.

**Concerns/Risks/Uncertainties** – Explain how OHV Recreation may be affecting the species or habitat. Describe the concerns and risks (e.g., loss of salmon spawning habitat and riparian vegetation at stream crossings) related to OHV management and describe any uncertainties about potential effects (e.g., dust from OHV Recreation may negatively affect the spawning habitat but the impact, if any is unknown). The concerns/risks drive the management program.

**Management Objective** – List all management objectives(s) (e.g., keep sediment out of the stream; maintain riparian vegetation at stream crossings) that have been developed to address the identified concern/risk(s) and any identified uncertainties.

**Management Action(s)** – List all proposed or ongoing management actions (e.g., harden stream crossings; install fence to keep OHVs on designated trails) to meet the objective(s).

**Success Criteria** – List the success criteria (e.g., no additional sediment in the spawning gravels; no loss of riparian vegetation at stream crossings) that will be used to gauge the effectiveness of each management action.

*“Implementation Monitoring:”* Determines if management actions were actually accomplished.

*“Change Detection Monitoring:”* Qualitative monitoring to detect change caused by OHV Recreation.

*“Effectiveness Monitoring:”* Uses the success criteria to determine if the management actions achieved the desired management objectives; appropriate effectiveness monitoring may ultimately be based on larger-scale monitoring efforts.

*“Validation Monitoring:”* Scientific studies that determine whether the underlying management assumptions are correct (e.g., “Have the appropriate concerns and risks been identified? Does meeting the management objectives ensure that OHV activities are not adversely affecting populations of species x?”).

## Project Costs/Deliverables Instructions (OHV Form J)

### General Instructions

The Project Costs/Deliverables (PC/D) form identifies the Project “Deliverables” and links them to the estimated Project costs.

For Applications with multiple Projects, **each Project** must have a separate PC/D. The Applicant shall complete all fields on the PC/D including Quantity, Unit, and Unit Cost.

A Project that covers more than one geographic area requires only one PC/D.

The Division may use the PC/D to evaluate Projects and determine cost effectiveness and appropriate use of funds. Before submitting the Application, **CONFIRM ALL OF THE APPLICANT’S CALCULATIONS.**

Cost estimates should be provided with sufficient detail to support all Deliverables and should clearly indicate specific quantities and units needed to accomplish the Deliverables. However, costs should be general enough in nature so as not to limit the Applicant’s ability to substitute quantities and units when necessary (e.g.: use “2 Officers” rather than “Lieutenants Smith and Jones” or use “4X4 Pick-up truck” rather than “2007 Ford Ranger”).

### PC/D OHV Form J, Part 1, Deliverables, Instructions

**Deliverables are specific tangible outcomes or work products. Examples include the purchase of specified property, installation of erosion control features, construction of a restroom, OHV patrol, construction of barriers, production of a specified number of maps, purchase of specified Equipment, Restoration of a specific area, planning that results in specified documents, completion of research resulting in a written report, and Maintenance of specified trails or trail segments.**

**Estimated expenditures must be linked to a specific Deliverable. When the Project is audited, the auditor will determine if these Deliverables were actually achieved. Any variation from the final approved Deliverables must be authorized in writing from the Division or the related items of expense may not be authorized for payment. See Grants Program Manual, Chapter 3, Section 3.2, Amendments and Section 3.9, Audits.**

**Applicant** – Enter the Applicant name as shown on the Application Face Sheet (OHV Form A).

**Project Title** – Enter the Project Title, using the name as listed on the Application Summary Sheet, OHV Form C.

**Project Type** – Mark **only one** box to indicate the appropriate Project Type.

**Synopsis** – Describe the **general** activities that the Applicant will accomplish with this proposed Project. Examples include acquisition of a specific property, conservation measures on specific trails, development of a specific facility, maintenance of OHV staging areas, OHV law enforcement, providing spark arrester inspection stations, conducting education programs, preparation of planning documents for a proposed acquisition, restoration of specified areas, and Maintenance of specified trails. This Project synopsis may not exceed fifty (50) words.

**Deliverable(s)** – Describe each **specific** tangible outcome to be achieved through this Project.

**Estimated Completion Date** – List the approximate date that each Deliverable would be completed if the Project is funded. This will help the Applicant and the Division monitor progress.

**Page of** – The Applicant shall place the page number and number of pages required for each Project at the top right hand corner of the page (e.g., Page 1 of 3). Only one OHV Form J Part 1 is submitted for each Project, but lines may be added to the form as needed.

(OHV Form J, Part 2, Project Cost Estimates)**

**Applicant** – Enter the Applicant name as shown on the Application Face Sheet (OHV Form A).

**Project Title** – Enter the **Project Title**, using the same name as listed on the Application Summary Sheet, OHV Form C.

**Project Type** – Mark **only one** box to indicate the appropriate Project Type.

**Item of Expense** – List each expenditure in the appropriate category.

- **Staff** – Indicate any and all staff expected to perform duties/work for the Project, by job title or classification (e.g., patrol deputy, OHV technician, FPO, OHV manager, biologist, volunteer).
- **Contracts** – Indicate any and all contracts for services (e.g., toilet pumping, portable toilets, or research). **Specify what service the contract is for.**
- **Materials/Supplies** – Indicate the types of materials/supplies to be purchased and used on the Project, (e.g., costs for fuel, fencing, lumber, personal safety items, first aid kit refill supplies, or toilet paper).
- **Equipment Use Expenses** – Costs associated with Equipment used for an OHV Project must be charged on a use basis in accordance with the Caltrans Division of Equipment, Equipment Rental Rates (<http://www.caltrans.ca.gov/hq/eqsc/rentalrates/RentalRate.htm>), but must never exceed the Grantee's actual cost. The Grantee may not charge a use fee for Equipment purchased with OHV Trust Funds, except for fuel and minor maintenance costs.
- **Equipment Purchase** – Indicate the Equipment and tools the Applicant requests to be purchased with Grant or Cooperative Agreement Funds. Examples may include motorcycles, all-terrain vehicles, 4WD pickup trucks, trailers, chainsaws, shovels, rakes, first aid kits, GPS units, or sound meters. Equipment does not include expendable items such as first aid kit refill supplies, personal safety items, or tires.

Identify as a line item any single piece of Equipment or tool with a purchase price, excluding tax, in excess of \$1,000.

Identify as a line item all electronics, regardless of cost.

- **Other** – List items that do not fit into the previously mentioned categories, such as training or volunteer management.

**Deliverable Number** – Enter the Deliverable number from PC/D OHV Form J, Part 1 that indicates the Deliverable that the expense relates to.

**Quantity (Qty\*)** – Enter the specific number of items needed, or proposed for purchase (e.g., 1, 10, or 100).

**Unit** – Enter the appropriate unit of measure for each item (e.g., year=yr, month=mo, week=wk, day, hour=hr, each=ea, dozen=doz, foot=ft, package=pkg, box=bx, etc.).

**Unit Cost** – Enter the specific cost per item (e.g., \$5.00, \$50.00, or \$100.00).

**Subtotal** – Enter the **total cost** for each line item; calculate by using the formula: (Quantity) x (Unit Cost). Do not round.

**Match or Agency Contribution** – Cities, counties, Appropriate Districts, Nonprofit organizations, and Educational Institutions must identify their matching funds, or the equivalent value of services, materials, or property used, in an amount **not less than 25% of the total Project cost**. See CCR, Title 14, 4970.66 for specific match requirements and exceptions.

Use the following formula to calculate the 25% match:

**Formula A** (Total Project Cost) x (.25) = (Total Match Required)

Using **Formula A** above:

County X determines its total Project cost for its law enforcement Project is \$100,000. By statute, County X must provide a 25% match toward the total Project cost.

The match amount necessary is calculated by multiplying \$100,000 by (.25), which equals \$25,000. County X must show its match as \$25,000 toward its law enforcement Project, and may apply for \$75,000 from the Grants and Cooperative Agreements program.

Total Project Cost	=	\$100,000
<u>25% Match</u>	=	<u>\$ 25,000</u>
Total Grant Request	=	\$ 75,000

Federal agencies and Federally Recognized Native American Tribes are not required by statute to provide a 25% match; however, if the agency wishes to voluntarily contribute, it may do so by entering the contributed amount.

Any agency contribution or Matching Funds in excess of the required 25% match will be considered in the evaluation process.

**Grant Request** – Enter the Grant amount requested by the Applicant, per line item. Calculate the Grant request by taking the total Project costs (Subtotal) and subtracting the match or agency contribution (Subtotal – Match/Agency Contribution = Grant Request).

**Category Total** – Add up the totals from each category.

**Subtotal** – Add the category totals for each column.

**Administrative Costs** – Applicants may request actual Administrative Costs, not to exceed 10% of the total Grant request. If Administrative Costs are requested, identify them here. Enter the Project amount, the match or agency contribution amount, and the Grant request amount. Administrative Costs must be documented in the same manner as other expenses.

**Total** – Add the Subtotal and the Administrative Costs for each column.

**Rounded Total** – Round the **total** to the nearest \$1,000. \$1 - \$499 is rounded down; \$500 - \$999 is rounded up. This number must match the Project total on the Application Summary Sheet, OHV Form C.

**Page of** – The Applicant shall place the page number and number of pages required for each Project at the top right hand corner of the page (e.g., Page 1 of 3). Only one PC/D, OHV Form J, Part 2 is submitted for each Project, but rows may be added as needed.

## **Evaluation Criteria Instructions (OHV Form K)**

Each Project is scored based on the responses to these evaluation criteria and other Application pages referenced within the response to these criteria. The shaded portions of the form are for information or for Division use. The applicant completes the other portions.

With the exception of Applications solely for Law Enforcement and/or OHV Safety and/or Education Program Projects, each Project Application will include two types of criteria, general and Project specific. Applications solely for Law Enforcement and/or OHV Safety and/or Education Program Projects will only include Project specific criteria.

It is extremely important for Applicants to supply factual documentation to support the responses in the Application. Points will be awarded only for responses that are supported by published information, facts, statistics, or other published factual documentation with citations referenced to the supporting information in the Application. Whenever a criteria form requires a narrative explaining the Applicant's response, reference the appropriate supporting documents as needed in the narrative.

**General Criteria:** With the exception of Applicants applying solely for Law Enforcement and/or OHV Safety and/or Education Program Projects, each Applicant will fill out one set of general criteria. These criteria are designed to measure the quality of the Applicant's overall program in providing OHV Opportunity and related facilities and services. These questions are to be answered with respect to the entirety of an Applicant's OHV operation, including all trails and areas available for OHV Recreation.

General Criteria measure such things as:

- Opportunity and services provided;
- Value returned for funds spent (Visitors per mile of trail or acre of open area);
- Agency Contribution to the overall cost of managing and delivering the OHV Opportunity;
- Management of natural and cultural resources;
- Effective enforcement of rules/regulations; and
- Past performance in completing and administering Grant funded Projects

**Project Specific Criteria:** Each Project within the Application will also be given a score based on the specific benefits of the individual Project.

Project Specific criteria measure such things as:

- Agency Contribution to the specific Project cost;
- Benefit to opportunity;
- Benefit to natural resources;
- Increased public understanding of appropriate recreational practices; and
- Increased compliance with applicable laws

**Final Scores:** Scores for each Project will be determined as described in Chapter 2.

Use this table to determine the correct parts of OHV Form K to be completed. Part 1 is only completed once for each Application. Parts 2 through 10 are completed for each appropriate Project.

Project Type	Complete these parts of Evaluation Criteria, OHV Form K

*NOTE: Items 1 through 8 below are to be answered for the **entire area** managed by the Applicant on which OHV Recreation is allowed.*

It is extremely important for Applicants to supply factual documentation to support the responses in the Application. Points will be awarded only for responses that are supported by published information, facts, statistics, or other published factual documentation with citations referenced to the supporting information in the Application. Whenever a criteria form requires a narrative explaining the Applicant's response, reference the appropriate supporting documents as needed in the narrative.

<b>1. Ratio of Visitation to OHV Opportunity</b>

### B. Project Execution

Subject to the appropriation and availability of Grant funds in the state budget, the State hereby awards to the Grantee the sum of money (Grant money) stated on page 1 of the Project Agreement in consideration of and on condition that the sum be expended in carrying out the purposes as set forth in the Description of the Project on page 1 of the Project agreement and the terms and conditions set forth in this agreement.

The Grantee assumes the obligation to furnish any additional funds that may be necessary to complete or carry out the Project as described. Any modification or alteration in the Project as set forth in the Application on file with the State must be submitted to the State for approval. State's obligation to make Grant payments is limited to the Project as provided for herein, or as modified with the approval of the State.

2. The Grantee agrees to complete the Project in accordance with the Project performance period set forth on page 1 of the Project Agreement, and under the terms and conditions of this agreement.
3. If the Project includes development, the development plans, specifications and estimates or Force Account Schedule shall be reviewed and approved by the State prior to Grantee proceeding with the Project. Unless the development plans, specifications and estimates are approved by the State, the State shall have no obligation to make Grant payments for the work.

The Grantee, shall comply with all applicable current laws and regulations affecting Development Projects, including, but not limited to, legal requirements for construction contracts, building codes, health and safety codes, and laws and codes pertaining to individuals with disabilities. In addition, the Grantee shall complete the development work in accordance with the State approved development plans, specifications and estimates or Force Account Schedule. The Grantee shall make property or facilities acquired and/or developed pursuant to this agreement available for inspection upon request by the State to determine if development work is in accordance with the approved plans, specifications and estimates or Force Account Schedule, including a final inspection upon Project completion.

4. If the Project includes acquisition of real property, and the cost of which is to be reimbursed with Grant moneys under this agreement, shall as required thereby, comply with Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code and any other applicable federal, state, or local laws or ordinances. Documentation of such compliance will be made available for review by the State upon request. Eminent domain may not be used to acquire property using the Grant funds provided by this agreement.
5. If the Project includes acquisition of real property, the purchase price shall be the fair market value of such property as established by an appraisal completed according to established current appraisal practices and methods as approved by both the Grantee and the State. Grantee agrees to furnish the State additional supportive appraisal material or justification as may be requested by the State to complete its review and approval of the fair market value.

Grantee agrees to furnish the State with preliminary title reports respecting such real property or such other evidence of title which is determined to be sufficient by the State. Grantee agrees to correct prior to or at the close of escrow any defects of title which in the opinion of State might interfere with the operation of the Project.

#### C. Project Costs

The Grant moneys to be provided to the Grantee under this agreement shall be disbursed as follows, but not to exceed in any event one-hundred (100) percent of the allowable Project costs or the State Grant amount as set forth on page 1 of this agreement whichever is less:

1. If the Project includes acquisition of real property, the State shall disburse to Grantee the Grant moneys as follows, but not to exceed in any event the State Grant amount set forth on page 1 of this agreement.

State will disburse the amount of the State approved purchase price together with State approved costs of acquisition. The State may elect to make disbursement for deposit into escrow.

2. If the Project includes development, after approval by State of Grantee's plans, specifications and estimates or Force Account Schedule and after completion of the Project or any phase or unit thereof, State shall disburse to Grantee upon receipt and approval by State of a statement of incurred costs from Grantee, the amount of such approved incurred costs shown on such statement, not to exceed the State Grant amount set forth on page 1 of this agreement, or any remaining portion of such Grant amount to the extent of such statement. Grantee, upon a showing that the Project may not proceed without advance funding, may request advance payment of those funds needed up to a maximum of ninety (90) percent of the State Grant amount allocated for development upon receipt and approval by State of Grantee plans, specifications and estimates or Force Account Schedule.

The statements to be submitted by Grantee shall set forth in detail the incurred or estimated cost of work performed or to be performed on development of the Project and whether performance will be by construction contract or by Force Account. Statements shall not be submitted, nor shall State make payments, more frequently than for work performed during ninety (90) day periods unless otherwise requested by State.

#### D. Project Administration

1. The Grantee shall promptly submit such progress, performance or other reports concerning the status of work performed on the Project as the State may request. In any event, the Grantee shall provide the State a report showing total final Project expenditures including State and all other moneys expended within ninety (90) days after completion of Project.
2. The Grantee shall make property and facilities maintained, operated, acquired or developed pursuant to this agreement available for inspection by the State upon request.
3. The Grantee shall use any moneys advanced by the State under the terms of this agreement solely for the Project herein described.
4. The Grantee may be provided advanced payments for Grants but only for those that are for Planning, Acquisition, and Facility Operation and Maintenance. The Grantee shall place such moneys in a separate interest bearing account, setting up and identifying such account prior to the advance, interest earned on Grant moneys shall be used on the Project or paid to the State. If Grant moneys are advanced and not expended, the unused portion of the Grant (plus interest) shall be returned to the State within sixty (90) days of completion of the Project or end of the Project performance period, whichever is earlier.

Income, after deduction for reasonable expenses associated with that income, that is earned by the Grantee from a State approved non-recreational use on an acquisition Project, subsequent to taking title by the Grantee, but before use for OHV Recreation, must be used by the Grantee for recreational purposes at the Project.

5. Equipment must be used solely for OHV related purposes unless the Applicant is funding the portion of the purchase price not dedicated to OHV purposes

#### E. Project Termination

1. The Grantee may unilaterally rescind this agreement at any time prior to the commencement of the Project. After Project commencement this agreement may be rescinded, modified or amended by mutual agreement in writing.
2. Failure by the Grantee to comply with the terms of this agreement or any other agreement under the Act may be cause for suspension of all obligations of the State hereunder.
3. Failure of the Grantee to comply with the terms of this agreement or contract under the enabling legislation may be cause for suspension of all obligations of the State hereunder. However, such failure shall not be cause for the

GRANTS AND COOPERATIVE AGREEMENTS  
APPLICATION FORMS (APPENDIX)**

suspension of all obligations of the State hereunder if in the judgment of the State such failure was due to no fault and beyond the control of the Grantee to prevent, mitigate, or remedy.

4. Because the benefit to be derived by the State, from the full compliance by the Grantee with the terms of agreement, is the, operation, development, preservation, protection and net increase in the quantity and quality of public outdoor recreation facilities available to the people of the State of California and because such benefit exceeds to an immeasurable and unascertainable extent the amount of money furnished by the State by way of Grant moneys under the terms of this agreement, the Grantee agrees that payment by the Grantee to the State of an amount equal to the amount of the Grant moneys disbursed under this agreement by the State would be inadequate compensation to the State for any breach by the Grantee of this agreement. The Grantee further agrees therefore, that the appropriate remedy in the event of a breach by the Grantee of this agreement shall be the specific performance of this agreement, unless otherwise agreed to by the State. Notwithstanding the foregoing, in the event of a breach of this agreement, or any portion thereof, which is due to no fault and beyond the control of the Grantee to prevent, mitigate, or remedy, the State's sole remedy shall be the reimbursement of any funds advanced or paid that pertain to the breached term or terms of this agreement.

F. Hold Harmless

1. Grantee hereby waives all claims and recourse against the State including the right to contribution of loss of damage to persons or property arising from, growing out of or in any way connected with or incident to this agreement except claims arising from the concurrent or sole negligence of State, its officers, agents and employees.
2. The Grantee shall protect indemnify, hold harmless and defend State, its officers, agents and employees against any and all claims, demands, damages, costs, expenses or liability costs arising out of the acquisition, development, construction, operation or maintenance of the property described as the Project which claims, demands or causes of action arise under Government code Section 895.2 or otherwise except for liability arising out of, and attributable to, the concurrent or sole negligence of State, its officers, or employees.
3. In the event State is named as codefendant under the provisions of Government Code Section 895 et seq., the Grantee shall notify the State of such fact and shall represent State in the legal action unless State undertakes to represent itself as codefendant in such legal action in which event the State shall bear its own litigation costs, expenses, and attorney's fees.
4. In the event of judgment against the State and the Grantee because of the concurrent negligence of the State and the Grantee, their officers, agents, or employees, an apportionment of liability to pay such judgment shall be made by a court of competent jurisdiction. Neither party shall request, and each party hereby waives its right to, a jury apportionment.

G. Financial Records

1. The Grantee shall retain all financial accounts, documents, and records for three (3) years from the expiration date of the Project agreement, or three (3) years from the start of an audit engagement, whichever comes first, and until an audit started during the three (3) years has been completed and a report published.
2. During regular office hours each of the parties hereto and their duly authorized representatives shall have the right to inspect and make copies of any books, records or reports of the other party pertaining to this agreement or matters related thereto.

H. Use of Facilities

1. The property acquired or developed with Grant moneys under this agreement shall be used by the Grantee only for the purpose for which the State Grant moneys were requested and no other use of the area shall be permitted except by specific act of the Legislature.
2. The Grantee shall without cost to State, except as may be otherwise provided in this or any other Grant agreement, operate and maintain the property acquired or developed pursuant to this agreement in the manner of and according to the provisions of this agreement, the Off-Highway Motor Vehicle Recreation Act and any related regulations, or any other provision of law which may be applicable to such operation and maintenance.
3. Use of the facilities shall comply with all applicable laws, including, but not limited to, the requirements for registration of all day use-vehicles with the Department of Motor Vehicles or identified under the Chappie-Z'berg Off-Highway Motor Vehicle Law of 1993.

3. All facilities shall be open to members of the public generally, except as noted under the special provisions of this Project agreement.

J. Application Incorporation

1. The Application and any subsequent change or addition approved by the State is hereby incorporated in this agreement as though set forth in full in this agreement.

1. If a provision of this agreement or the Application thereof is held invalid, that invalidity shall not affect other provisions or applications of the agreement which can be given effect without the invalid provision or Application, and to this end the provisions of this agreement are severable.
