

Proposed Policies, Procedures and Format for Meetings of The Off-Highway Motor Vehicle Recreation Commission

In light of the passage of SB 742 in 2008 and the recent appointment of five new Commissioners, the Off-Highway Motor Vehicle Recreation (OHMVR) Commission (Commission) has the responsibility and opportunity to create a framework within which it will play a positive and influential role in the implementation, improvement, and management of the State's OHMVR Program (Program).

The Commission has well-defined responsibilities to review and comment on plans and expenditures for the Program, provide a report on the status of the program, approve general plans and amendments for State Vehicular Recreation Areas, and provide advisory recommendations for program improvements and specific project needs to the OHMVR Division (Division) as it implements and administers the Program and system of OHV opportunities in the State. Within this framework of responsibilities, the Commission assumes an active advocacy role in improving the Program to further the mission.

This document sets forth policies and procedures that will guide the Commission in fulfilling its duties and responsibilities identified in the statute. This document will also provide methods for the Commission to actively advocate for the Program in its entirety. Both objectives of the Program: to provide opportunities for OHV recreation and to safeguard that OHV use does not negatively impact the environment—will be pursued. The Commission will work as a partner with the Division to manage the Program.
