April 5, 2009

Thank you for allowing me to comment on the 2008-2009 Preliminary Grant proposals.

I have reviewed the grant submitted by the Desert Daises MC, Inc. While I find that and informational brochure may be helpful as an educational tool I can not support the funding of this project through the use of green sticker funds. The amount of funding requested could be better utilized in ground operations support. I ask that the division deny this request. Please note I was unable to find a contact address to of this applicant to submit my comments to.

Sincerely

Steve Cowdrey
