

**REQUEST BY BUREAU OF LAND MANAGEMENT
FOR MINOR PROJECT SCOPE AMENDMENT**

ITEM: OR-1-CD-342 - Barstow Field Office 2006

This item is being presented to the OHMVR Commission as an information item. No action is required from the Commission.

The Bureau of Land Management, Barstow Field Office, has submitted to the Off-Highway Motor Vehicle Division a revised Project Costs/Deliverables (PC/D) sheet for grant number OR-1-CD-342. There will be no change in the project deliverables resulting from the revised PC/D. The revised PCD does reflect a redistribution of funds between various categories. More funds will be used to cover staff costs, materials/supplies, and vehicle maintenance, while less funding will be directed to contracts.
