

STAFF REPORT

AGENDA ITEM: V. B. – 2011 OHMVR Program Report
STAFF: Connie Latham, OHMVR Division HQ

Discussion: Staff will present an update and receive any comments on the status of and procedure for preparing the OHV Program Report due to the Governor and the Assembly Water, Parks, and Wildlife Committee, the Senate Committee on Natural Resources and Water, and the Committee on Appropriations, on January 2011 as required by Public Resources Code section 5090.24 (h), Duties and Responsibilities of the Commission.

Issue/Background: Acting as staff to the Commission, the Division has assembled a core project team and is working on a proposed outline and timeline for the report. The team is currently working with the SVRAs, Division-wide program managers, and recipients of OHMVR Trust Fund grants preparing summary status reports.

Although the report is not due to the Governor and various Legislative Committees until January 2011, it must be adopted by the Commission after two or more public meetings; and approved by Administration prior to release of the report.

Options: The following options are suggested:

- 1) Adopt the contents of report and timelines proposed.
- 2) Suggest revision of contents and timelines proposed.

Proposal: The outcome of the discussion will provide staff with concurrence and clear direction to proceed with preparation of the report in a timely manner.
