

California State Parks  
Oceano Dunes SVRA and Pismo State Beach  
Public Works Plan

Listening Session

on

Thursday, November 30, 2017

6:30 p.m. to 9:00 p.m.

at

Ventana Grill  
2575 Price Street,  
Pismo Beach, California, 93449

IN ATTENDANCE

State Parks Staff:

Lisa Mangat, State Parks Director  
Matt Fuzie, OHMVR Deputy Director  
Katie Metraux, Facilitator Acting Chief  
Tara E. Lynch, Chief Counsel  
Deborah Burgeson, Specialist (Audiovisual)

OTHER OHV DIVISION STAFF AND REGISTERED VISITORS

Reported by CHERYL L. KYLE, CSR No. 7014

Listening Session

1           FACILITATOR METRAUX: Good morning. My name  
2 is Katie Metraux, and I'm a facilitator with  
3 California State Parks. And I want to welcome you  
4 tonight to our listening session for the Pismo State  
5 Beach and Oceano Dunes Public Works Planning  
6 Listening Session.

7           And we have a couple of things to cover just  
8 before we get started. We have media coverage. We  
9 have live streaming of the mike here. So you have  
10 several opportunities to be recorded. We have a  
11 transcriber. We have a court reporter, and we'll  
12 provide a transcript on a website in the future, and  
13 we also have media coverage here. So in order to  
14 make sure we have everyone have the opportunity to  
15 present their comments, we're going to give everyone  
16 three minutes to speak. So we're very excited about  
17 getting started.

18           So I'm just going to say a few things, and  
19 then we are going to have Lisa Mangat, our State  
20 Parks director, have opening remarks, and we're going  
21 to have a presentation from State Parks staff about  
22 the history of the Pismo State Beach and Oceano Dunes  
23 State Beach Vehicular Recreation Area, and then we'll  
24 open it up to public comment.

25           So this is the first of many community and

Listening Session

1 stakeholder engagement meetings California State  
2 Parks will hold during the process of developing a  
3 public works plan. This plan will include projects  
4 and programs to enhance visitor experience, improve  
5 park operation and support environmental protection  
6 programs.

7           The goals of tonight's meeting are to  
8 facilitate an ongoing conversation between State  
9 Parks, visitors, stakeholders and the community about  
10 this public works plan. So we want to learn about  
11 your desired visitor experience. We want to hear  
12 tonight from you about: What do you enjoy doing at  
13 the state beach and the state vehicular recreation  
14 area? What facilities and programs do you enjoy?  
15 Was there a type of recreation or experience that  
16 you'd like to see in the future? And, in addition,  
17 we also want to know about current issues.

18           So tonight we're going to have a lot of  
19 opportunity to hear from you. So we're going to  
20 be -- we can answer some questions, but we're also  
21 going to be preparing a frequently asked questions  
22 document that will be a living document that will be  
23 provided on a future project website. And so if  
24 there is something that we cannot answer for you  
25 tonight, we will be including that in the frequently

Listening Session

1 asked questions and putting that up on the website  
2 too.

3           And also we have a sign-in sheet in the back.  
4 And if you are interested in receiving information  
5 about meetings like this, please make sure you write  
6 your name and your contact information so that we can  
7 either send you a letter or e-mail you updates. And  
8 that's in the back where you first came in.

9           If you'd like to have a couple of minutes to  
10 speak tonight, we have a speaker card. Deb, do you  
11 want to hold up a speaker card? It's yellow. If you  
12 could please fill one of those out, write your name  
13 legibly so I can say your name without too much  
14 hesitation on my part, and we will call your name up,  
15 and you'll have a chance to speak.

16           And also we have an e-mail address, and in the  
17 e-mail address you can submit any comments or  
18 questions, and that's going to be opened the length  
19 of the project, and that e-mail address is on the  
20 public notice, which is also in the back. So please  
21 take one of those public notices.

22           And also please help yourself to beverages,  
23 and we are going to be taking one break at eight  
24 o'clock. Restrooms are in the back. So if you go  
25 straight back here and to your right, you'll find the

Listening Session

1 restrooms.

2           And so I wanted to -- this meeting was -- it's  
3 been a long time coming. There's been a lot of help  
4 putting it together. I'd like to acknowledge State  
5 Parks staff. If you could stand up? Thank you very  
6 much for all of your help in putting this meeting  
7 together, and we're also going to be seeing them a  
8 lot in the future. And also I wanted to acknowledge  
9 the elected officials. Thank you very much for  
10 attending tonight.

11           Without further ado, we'd like to get started.  
12 State Parks Director Lisa Mangat.

13           DIRECTOR MANGAT: Thank you. So I'm Lisa  
14 Mangat. I'm the director for the Department of Parks  
15 and Recreation for the State of California.

16           Before we begin, there were a few empty chairs  
17 up here -- we're a very friendly group -- so if you'd  
18 be more comfortable sitting. We also are trying to  
19 find more chairs for those of you that are standing  
20 in the back. So it's going to be a long evening of  
21 conversation, so we'll see what we can do to make you  
22 more comfortable.

23           First of all, I just want to say thank you so  
24 very much for coming. Whenever we have any sort of  
25 public engagement meeting, I worry that no one is

Listening Session

1 going to show up. It goes back to all of my high  
2 school insecurities from the '80s. So just thank you  
3 very much. We know that your time is very important.  
4 You have other things -- and some of you have  
5 travelled from some long distances, so just know we  
6 appreciate it. I'm encouraged because the fact you  
7 made it a priority to be here tells me that maybe  
8 we've been successful in reaching out and convincing  
9 you that you have a very important seat at the table  
10 as we think about the future of these parks.

11           The Department of Parks and Recreation for the  
12 State of California, I'm assuming that you've been  
13 out here living your life, so you haven't been  
14 tracking very closely what we've been up to. But  
15 since I have got you for a moment, I want to share  
16 with you.

17           The Blue Ribbon Commission was established  
18 several years. It was called the Parks Forward  
19 Commission. They did a top-down review of our  
20 organization. They also made many, many  
21 recommendations about how to improve California's  
22 parks system and the organization overall.

23           They released a report in the winter of 2015  
24 that made many high-level recommendations, and we  
25 have taken them very, very seriously. The governor

Listening Session

1 established a transformation team, and this was a  
2 team of people that were directed to really design  
3 some specific initiatives that were able to achieve a  
4 lot of these priorities that were established through  
5 this Parks Forward report.

6 One of them was modernizing our organization,  
7 so a re-org of a very large governmental entity,  
8 which is not easy, but our charge was also to not do  
9 it by white boarding it in a stuffy building in  
10 Sacramento. But our charge was to actually engage  
11 with the public and also have engagement meetings  
12 internally.

13 We learned a lot through that process. Not  
14 only did it inform and really change some of our  
15 thinking about our organization -- and I think a lot  
16 of the people in this room actually participated in  
17 some of those meetings, and they know by talking to  
18 us that they actually changed a lot about how we hold  
19 these public engagement meetings. We learned it's  
20 very important to get out in front of you before we  
21 get wedded to any one particular path.

22 So if you are here expecting us to sunshine a  
23 very detailed public works plan, you're going to be  
24 disappointed, but I know that you know that it's a  
25 very high priority for us. I've learned that it's

Listening Session

1 human nature that if we go off -- especially a large  
2 organization -- and put a lot of time in going down a  
3 particular path, we start to hear all of your  
4 feedback through that lens and through that prism of  
5 how does it impact the plan that we've already  
6 developed. So it's very important to us that we get  
7 out in front of you early.

8 Do not feel that this is your last time to  
9 talk to us. We view this as very much the initiation  
10 of a dialogue with all of you. I know that there  
11 have been lots of conversations that have happened at  
12 the local level, but it is very important that we've  
13 got so many people from Sacramento.

14 I think the issues that are here are very  
15 sensitive. People are very passionate about the  
16 recreation here. It is part of a long legacy of many  
17 families. We recognize that we are a very important  
18 part of the air quality out in this community. We  
19 also recognize that we are a very important part of  
20 the economic landscape of this community. We also  
21 know that we have a very, very successful program  
22 when it comes to protecting endangered species such  
23 as snowy plover.

24 So all of these dynamic things that have been  
25 happening here, we've found -- I've been with Parks

Listening Session

1 for about four years. And when Oceano Dunes comes  
2 up, we talk about them in isolation about each  
3 individual topic, but we have not yet for decades --  
4 we've not for decades really had a comprehensive  
5 conversation in the way that we're planning to do  
6 here today and initiate today.

7           You may not know this, but both Pismo Beach  
8 State Parks and Oceano Dunes SVRA operate under a  
9 general plan that was put in place in the mid 1970s.  
10 Now, a general plan for us is very important. That  
11 is really kind of -- we had a public engagement  
12 meeting, and we all kind of collectively agreed on  
13 how these parks are going to be used, what types of  
14 recreation, whether we're going to have camping,  
15 where we are going to have camping and all these  
16 decades later we still look to that document as a  
17 guiding document.

18           We also are operating under a coastal  
19 development permit that we've marked out through --  
20 with the Coastal Commission, and that was established  
21 in 1982, and that was also decades old. And so given  
22 all of the time that's passed, it seemed like a  
23 perfect time for us to really sit down and kind of  
24 reset and have this comprehensive conversation.

25           The public works plan -- we envision that

Listening Session

1 these two parks will still operate under the general  
2 plan, but this public works plan will be an  
3 additional plan that gets far more specific, and we  
4 can talk a little later about what that means. The  
5 public works plan that we're going to develop, it  
6 will take about a year and a half to two years.  
7 We'll have several meetings with you. It will  
8 require the approval of the California Coastal  
9 Commission, and that will involve, I'm sure, a public  
10 meeting.

11 We also -- no plans get implemented without  
12 the required environmental reviews, and so that will  
13 also be a public meeting. So this is going to be --  
14 this is not a one-time meeting with you. This is  
15 very much going to be a dialogue, an ongoing  
16 conversation, and a journey for all of us.

17 It's not typical that a director of the  
18 department would come out here to one of these  
19 meetings, but I really thought that it was important  
20 for me to be here in person on the very front end on  
21 this so I could hear you personally, rather than  
22 having things kind of filtered up through the chain  
23 of command of ten layers between me and you.

24 The governor just appointed our deputy  
25 director of off-highway vehicle recreation. He's

Listening Session

1 Matt Fuzie, who is down at the end here. Matt brings  
2 over 30 years of experience in our organization.  
3 Most recently, he was -- I think you've served in an  
4 acting capacity for a little over a year now, Matt.  
5 So he operates the -- he is deputy director of the  
6 Off-Highway Vehicle Recreation Division. Prior to  
7 that, he was the district superintendent, a little  
8 north of here, of the Monterey district.

9 For how many years?

10 OHV DEPUTY DIR. FUZIE: Eleven years.

11 DIRECTOR MANGAT: Eleven years. And he worked  
12 his way up through the organization.

13 You were a lifeguard back in the day?

14 OHV DEPUTY DIR. FUZIE: Yes.

15 DIRECTOR MANGAT: So Matt brings a lot of  
16 expertise.

17 Tara Lynch, the smart person on my left, Tara  
18 is our chief counsel, and she often sits next to me  
19 so she can kick me so to make sure to keep me out of  
20 trouble. So with that, I think I'll speak a little  
21 more, but I really want to save as much time as  
22 possible for all of you folks.

23 You may have heard Katie talk about  
24 frequently -- an FAQ. Let me tell you why we do  
25 that. We found a lot of times some of you may have

Listening Session

1 questions, some of you just may have comments. But  
2 we're going to learn from you, and it will make us go  
3 back and think about the information that we need to  
4 provide you. That will be -- we have found that it's  
5 best to really kind of break that out, and we put  
6 frequently asked questions areas together on our  
7 website. That seems to have been very effective.

8         Also, we will hand out a website or an e-mail  
9 address for you. Just know that that does not go  
10 into the ether. We actually go through all of those,  
11 and we read them, and we talk about them. So for any  
12 of you that are either too shy to speak today or  
13 maybe tonight you wake up in the middle of the night  
14 with a thought you wished you had shared, know that  
15 this is not your last chance to do so.

16         So thank you so much for coming. Everything  
17 is on the table that we'd like to hear from you, and  
18 we look forward to the conversation, and this won't  
19 be the last time that you see me, so. And thanks so  
20 much for the staff that pulled all of this together,  
21 and thank you for the local staff who've been  
22 working, you know, tirelessly to make sure that these  
23 forms of recreation are available to everyone. And  
24 I'm sorry it's taken us so long kind of at the top  
25 levels of the department to really kind of come out

Listening Session

1 here and spend time with all of you, so thank you.

2 FACILITATOR METRAUX: We'd like to introduce  
3 Danielle Bronson.

4 DANIELLE BRONSON: Good evening. Tonight I  
5 get to present to you the Dynamic History of Oceano  
6 Dunes.

7 (PowerPoint presentation.)

8 FACILITATOR METRAUX: Thank you, Danielle.

9 So next I thought I'd just give a brief  
10 overview of what a public works plan is to help maybe  
11 answer some of the questions you may have before we  
12 get started with the public comment period.

13 So the public works plan is not a general  
14 plan. It is a plan that will work in conjunction  
15 with the general plan. And it is similar -- the  
16 planning process is similar to a general plan. It  
17 includes several public meetings, just like this one,  
18 engagement meetings. We'll have a project website  
19 that's interactive that we put all of our documents  
20 on that website for you to look at. There may be  
21 surveys, things like that, on the website.

22 There's also participation from regulatory  
23 agencies and local governments. The Coastal  
24 Commission is especially involved. There is also  
25 environment assessment of proposed development of

Listening Session

1 activities.

2           So we're looking at projects, potential  
3 projects, and programs that will give opportunities  
4 to enhance visitor experience and to help us meet our  
5 environmental compliance and improve visitor  
6 experience.

7           So what I'd like to ask you to do is, in  
8 addition to letting us know what your desired  
9 recreation experience and your desired experience and  
10 the future experience at these two park units, I'd  
11 also like to know how you would like us to contact  
12 you to get involved. I had a couple of people call  
13 me and asked for a different date and time. We'd  
14 like to -- since we are really interested in keeping  
15 in close contact and an ongoing engagement process,  
16 if you could just let me know afterwards what's the  
17 best way for us to communicate with you. We have  
18 thought of something already.

19           So that's essentially the public works plan.  
20 It will take a year and a half to two years. It will  
21 go in front of the Coastal Commission. There will be  
22 a public hearing at the Coastal Commission, yet  
23 another opportunity for you to speak on it, and it  
24 will be reviewed by the Coastal Commission.

25           So next we'd like to open up the floor for

Listening Session

1 public comments.

2           DIRECTOR MANGAT: Kate, perhaps I can add one  
3 thing, which I possibly should have made clear in my  
4 opening comments.

5           While we're developing a public works plan and  
6 everything will operate under the original general  
7 plan from the 1970s, many of you might know that we  
8 put a lot of work in developing a dust mitigation  
9 plan. That plan was heard before the Coastal  
10 Commission in September. They took an action that  
11 approved it, but then I think put some conditions and  
12 wanted us to come back and discuss it again with  
13 them. I believe it's in a February -- either a  
14 December or February meeting.

15           Just know that we're working very closely with  
16 their staff right now to find out if there are  
17 components of that plan that we can move forward with  
18 in advance of that February meeting. So we're having  
19 kind of real-time conversations with them.

20           So during this process of developing a public  
21 works plan, it's still very much our intent to move  
22 forward with the dust mitigation plan that's been  
23 developed. We'll be working very closely with the  
24 local dust mitigation experts along with California  
25 Air Resources Board. We continue to work very

Listening Session

1 closely with them too.

2 Is there anything else that you would add?

3 OHV DEPUTY DIR. FUZIE: No, that's right.

4 FACILITATOR METRAUX: Thank you.

5 I also wanted to include the habitat  
6 conservation plan that's been in the works for the  
7 last 17 years. That is a document that is a  
8 multiagency document that is also in the draft format  
9 too. So all of these planning documents will be  
10 working together in coordination.

11 So what I'd like to do -- so what I'd like you  
12 to do is I want to call out the first three names  
13 and -- so we can keep the process going. Everybody  
14 has three minutes. And if I can ask you to speak  
15 clearly, state your name when you come up to the  
16 podium. We have a court reporter who greatly  
17 appreciates being able to accurately record what  
18 you're saying.

19 And I also want to have one ground rule for  
20 you to consider. Please keep your comments to the  
21 allotted time. I just want to make sure that  
22 everyone has an opportunity to speak.

23 So the first three people in order will be  
24 Michael Bishop, Karen M. White and Peter Keith.

25 And before you get started, I want to let

Listening Session

1 everyone know who is coming up to speak, around 30  
2 seconds before you start, you'll see -- before the  
3 time is up, you'll see a yellow light blinking, and  
4 then the red light shows that your time is up.

5           MICHAEL BISHOP: My name is Michael Bishop. I  
6 represent the California Off-Road Vehicle Association  
7 and Santa Barbara 4-Wheel Drive Association and the  
8 thousands of families that come to Pismo every year.

9           My history with Pismo started 50 years ago  
10 in '67. I showed up at the dunes with a motorcycle,  
11 and I rode around in the dunes and really fell in  
12 love with the place. My wife went into labor, and I  
13 had to get her to Arroyo Hospital where my  
14 six-year-old daughter was born. So it's been a part  
15 of our family for a long time.

16           She was my only child, but I had several  
17 foster kids. I raised the foster kids in the dunes.  
18 I taught them how to fix their vehicles. I taught  
19 them responsibility. This is way before video games.  
20 We had a really strong family unit, and that's  
21 what -- that's what the dunes is all about right now.  
22 If you drive down there on a big weekend, there are  
23 thousands of families all together just enjoying each  
24 other's company.

25           In '82 when the Coastal Commission decided to

Listening Session

1 do the closure -- I had started the Santa Barbara ATV  
2 Club, and we had a hundred members. I got all of our  
3 members to volunteer to start the Pismo State Beach  
4 Dune Patrol, and we've been out and put signs and  
5 fencing. We help the rangers. We did all -- all  
6 non-law enforcement work, search and rescue, a lot of  
7 that, to alleviate some of the pressure on the  
8 rangers. The Coastal Commission gave us a six-month  
9 trial, and it worked, and there were no deaths in  
10 that six months for the first time in many, many  
11 years.

12 So they realized what I knew what my  
13 capabilities were. So when the Off-Highway Vehicle  
14 Commission was formed in '82, I was one of the first  
15 members of that, and I became the chairman of that  
16 for five years. I know both sides of that, the whole  
17 issue. It's just a really good family recreation.

18 And what's going on now is there's a lot of  
19 things that can be changed to make it a lot better  
20 and more smooth, and a lot of people that follow me  
21 will be giving you ideas for that. Even today, I'm  
22 on the board of my Boys and Girls Club in San  
23 Barbara, and I bring kids up that don't have fathers,  
24 and I show them -- you know, teach them how to ride,  
25 take them around, and they really have a great time.

Listening Session

1 And I give them a positive male influence that they  
2 don't normally get, and the dunes offer me that.

3 So I'll just yield my time to a lot of people  
4 that want to speak after me. Thank you.

5 KAREN WHITE: I am Karen White. My  
6 grandfather came to Oceano in 1900 as a clam digger.  
7 I've been at the beach all my life. I'm also a  
8 resident of Halcyon, which is a federally-recognized  
9 intentionally-formed religious community. I'm also  
10 president of the Oceano Community Services, the board  
11 of directors and through that also president of the  
12 Tri-City Fire Association. Tonight I'm speaking for  
13 myself, not those boards.

14 When I became politically active about eight  
15 years ago, I was told by others in Oceano Dunes that  
16 beaches and parks was a lousy neighbor. I didn't  
17 understand then, but I do now.

18 Oceano is the gateway to the dunes. It's got  
19 noise, traffic congestion, garbage, blowing sands on  
20 the beach and dunes. Even in Halcyon, on the edge of  
21 the OCSD, the sounds of the gasoline combustible  
22 engines roaring over the sands disturbs the peace.

23 What we in Halcyon don't get is any financial  
24 benefit in exchange for the upheaval in our lives.  
25 Unlike Pismo and Grover, Oceano is not a city. The

Listening Session

1 sales, transient and other taxes generated by tourism  
2 goes to the San Luis County, not us. Oceano also is  
3 recognized as a disadvantaged community, so our tax  
4 base does not generate overwhelming funds.

5 That leaves Oceano with unmet needs,  
6 underfunded needs mostly involving fire protection.  
7 All Oceano's available tax money barely pays for its  
8 share of protection throughout the Tri-Cities fire.

9 Wouldn't to be wonderful if Oceano Service  
10 District could get 50 cents a year from each of the  
11 2.17 million visitors to our beaches to balance the  
12 dirt, car fumes and garbage these people generate?  
13 Oh, yes, I know there was no mechanism to allow the  
14 State Parks agency to aid its neighbors, but I also  
15 know that it's just a matter of political will. A  
16 half-million dollars a year -- hell, any amount of  
17 extra revenue would make a big difference for Oceano.

18 Like I say, I understand why almost everybody  
19 I know feels that beaches and parks is such a lousy  
20 neighbor -- no, just a lousy portion of Oceano, after  
21 all it was Oceano Beach first. And I believe more  
22 and more local residents will urge closure of the  
23 beach to traffic because they don't receive anything  
24 but sand in their faces from beaches and parks.  
25 Thank you for listening.

Listening Session

1           PETER KEITH: Good evening. My name is Peter  
2 Keith, former council member, a mayor of Grover Beach  
3 and the planning commission chair. I've been a  
4 member of the TRT, which is the Technical Review  
5 Team, for 17 years, a founding member, addressing the  
6 issue of habitat conservation, et cetera.

7           So I've heard a lot of debate, a lot of  
8 argument, a lot of ideas and a lot of disappointment.  
9 It's been a long, long time since we've been able to  
10 put -- since we started talking about habitat  
11 conservation.

12           I want to talk about something that's a little  
13 different this evening. I have what I consider a  
14 unique idea for mitigating airborne sand particles.

15           As we all know, we have Phillips 66 refinery  
16 in the south area of San Luis Obispo County. Now  
17 Phillips 66 discharges approximately one million  
18 gallons of treated water per day. That water is  
19 treated as an industrial water source, and it's  
20 dumped into the ocean directly off of the dune area.  
21 And I'd like to remind you that there is also the  
22 South County Sanitation District that also flushes, I  
23 think far more treated water into the ocean that's a  
24 bit closer to the sand dunes -- and by "sand dunes,"  
25 I mean the recreational area -- and that effluent is

Listening Session

1 treated to a higher EPA standard.

2           So in brief, my proposal is to mitigate the  
3 difficulties, the problems, the health concerns of  
4 people downwind by treating the sand with that  
5 effluent, that water that's being wasted. The water  
6 that's flowing out to sea from these entities can be  
7 used as irrigation, and that irrigation water will do  
8 the same thing that rainwater does. It creates a  
9 heavy particulate and a heavy sand. And if some of  
10 that sand is kicked up into the air either by strong  
11 winds or by recreational activity, then it shortly  
12 falls to earth right back where it came from, not in  
13 the wind, not in residential neighborhoods and not in  
14 people's lungs.

15           So I would propose that the State of  
16 California Parks and Recreation perhaps take a look  
17 at that kind of irrigation. I'm not proposing a  
18 specific kind of irrigation. What I am proposing is  
19 that there certainly is ample fluid that could be  
20 treated to a higher level if necessary to reduce or  
21 eliminate flying, airborne particulate matter. Thank  
22 you.

23           FACILITATOR METRAUX: Thank you.

24           Can I ask everyone in fairness to time to hold  
25 your applause to the end.

Listening Session

1           JEFF BLEWOTT: Good afternoon, good night or  
2 whatever we are here tonight. My name is Jeff  
3 Blewott with California Four-Wheel Drive Association.  
4 We have a long history of keeping the dunes --  
5 working to keep the dunes open. Over decades we've  
6 had issues here at Oceano, and they seem to just keep  
7 getting bigger and bigger as we move along.

8           Our membership has a lot of people, especially  
9 from the Central Valley, that come into Oceano Dunes  
10 and come to play in the sand dunes.

11           Talking to my membership, two big things come  
12 up. One, that meetings like this come up and they're  
13 way over here on the coast after work, and it's hard  
14 for them to get here. Maybe have a meeting in the  
15 Fresno area or somewhere more in that area to get the  
16 people to actually show up and come to the meetings.

17           The other one is we just keep seeing an ever  
18 reduced size of the park. And that's the biggest  
19 thing they want to keep down, is the loss of more  
20 acreage. And if we have to close an area for  
21 specific -- for a specific issue, maybe we open so  
22 there is really no net loss of usage at the dunes.

23           Cal Four-Wheel looks forward to working with  
24 this process. And personally I've been using the  
25 dunes since the early '80s. My first trip was before

Listening Session

1 the closure. My second trip was after, huge  
2 difference. My kids, we would come out here five,  
3 six times a year. My kids loved coming to the beach.

4 The gentleman who talked about family -- you  
5 know, off-roaders get accused of being a lot of  
6 things, but if you really take a look at who they  
7 are, go to all of the SVRAs and look, it's all  
8 families, families spending their weekends together  
9 not watching TV, not playing video games. They're  
10 out in nature. So that's all I have to say tonight.  
11 Thank you.

12 PATRICIA DURÓN: Hi, my name is Patricia  
13 Durón, and I live in Nipomo.

14 Now, I've heard these stories, and it's a  
15 family place, you know, we can all enjoy recreation  
16 more if we can bring our dune buggies and all of  
17 that.

18 But it could be a recreational place without  
19 the dunes buggies. Men can have male -- like he  
20 said, foster kids by showing them to go fishing,  
21 showing them surfing. There's many recreations that  
22 can be done without the dune buggies.

23 I have friends and neighbors, some that have  
24 whole houses of HEPA filters to block out this dust  
25 problem that we have. Others have moved to Los Osos

Listening Session

1 because their respiratory problems are so  
2 compromised. You know, I moved up to this beautiful  
3 area about 30 years ago to enjoy clean air to get  
4 away from L.A. And here we have -- we've violated  
5 the state standards, the federal standards -- you've  
6 seen how many times. You know, why is money a  
7 precedent over our health? You see these people from  
8 Santa Barbara, the Central Valley, they don't live --  
9 they don't have to breathe what they're doing. You  
10 know, they're playing in the sand, and we're  
11 breathing it. And I know State Parks has beautiful  
12 parks all over California. Why is it that they allow  
13 this to happen here?

14 So basically that's -- you talked about you  
15 have a permit. That permit was temporary, a long  
16 time ago. It was supposed to be expired. The  
17 easement to come through Pier Avenue, that was all to  
18 contain the nuisance. That was a temporary permit.  
19 So you're going through a natural preserve. You're  
20 going through a creek. When is that allowed anywhere  
21 in California, where cars even get stuck in the  
22 creeks? So I'm just asking you to please consider  
23 our health over finances. Thank you.

24 MICHAEL DAHNA: Thank you. I'm Michael Dahna,  
25 and I live in Oceano. I've been going to the dunes

Listening Session

1 and the beach since the early '70s. Back in  
2 the '70s, everybody wanted to close the refinery down  
3 in Nipomo. They tried for years to shut that place  
4 down. I worked there for ten years.

5 Now it's the dunes. They want to close the  
6 beach down. I play on it every day. I'm out there  
7 every day. I try to help as many people as we can.  
8 My family plays out there all the time every day.  
9 It's a joy just to be out there. We're here to help.  
10 We want to pick up garbage. We want to help keep the  
11 beach clean for everybody to enjoy. We've got a lot  
12 of ideas about adding garbage cans, stuff like that,  
13 but we don't want to lose any more area.

14 Since the '70s we've lost over half of what we  
15 used to have, and you separate people out and you  
16 have less problems when there's more area. And now  
17 it's just all congested, where we need to get more  
18 area to spread everybody out.

19 But we that live here try to take care of the  
20 dunes. We try to pick up the garbage. We are out  
21 there every weekend trying to pick up after some  
22 people that do abuse it. They do leave their garbage  
23 out there, but we like to work with State Parks and  
24 how can we prevent it? How do we make it easier on  
25 us that do go out all of the weekends and pick it up?

Listening Session

1 So that's it. That's all I wanted to say. I've  
2 lived here a long time. I enjoy the beach, and I'd  
3 hate to see it go away. Okay. Thank you.

4 GINGER SCHENK: Hi, my name is Ginger Schenk.  
5 I own two businesses in Grover Beach. I live in  
6 Arroyo Grande. I've lived in Oceano right off of  
7 Strand Way. I lived there about three years.

8 I love the OHV park. It's one of my favorite  
9 things about living here. I've lived here for 30  
10 years. I volunteered for State Parks. I go out and  
11 pull weeds south of the OHV area to help promote  
12 nesting for snowy plover. My friend Mark is here who  
13 helped teach me how to drive my Jeep out in the dunes  
14 and how to shoot bowls and drag race. I can't tell  
15 you how much the dunes -- it's my absolute number one  
16 favorite thing in the world to do.

17 Jerry Miller that you were talking about on  
18 the video is a dear friend of mine. He also helped  
19 teach me how to drive out in the dunes. We had a  
20 conversation last week at the beach. He just had his  
21 89th birthday two days ago, and we got him a cake.  
22 And he said, "You know, it's funny to hear -- I  
23 bought my property 60 years ago on the Mesa. I  
24 bought 20 acres." He said, "All of my friends said,  
25 'Why are you buying that crap land up there?'" This

Listening Session

1 is his word, "'that crap land up there. Nobody wants  
2 to buy land up there. It's windy. It's dirty. It's  
3 sandy.' You couldn't give property away up there 60  
4 years ago because it's a bad area."

5 Well, it still is, but they've decided --  
6 these developers -- to put in these beautiful homes  
7 and developments and golf courses. The atmosphere  
8 hasn't changed. It's still windy and dirty and  
9 sandy. It's still not a desirable area.

10 Another girl, a good friend, Natasha Hunt, her  
11 family goes back to the early 1800s here, last week  
12 she was going through family journals from 1836. Her  
13 family described it as barren waste, had never been  
14 met with anything so dreary and windy on the sand  
15 hills between Oso Flaco and San Luis Bay. This is  
16 1836. It's always been dreary and sandy. It's  
17 nothing new.

18 I would be curious to know what the actual  
19 medical hospital statistics are for people sick up  
20 there with respiration versus other areas. I don't  
21 see the statistics.

22 So I beg, if you take any land, please open  
23 more back up. We want equal land. When I go out  
24 there, the family recreation is unbelievable. This  
25 Thanksgiving -- there is a group who's just some of

Listening Session

1 my best friends in the world, three generations out  
2 there. They got their kids, dad and granddad.  
3 They've been going to the beach for 38 years for  
4 Thanksgiving, and it's phenomenal. You don't get  
5 recreation like that where the kids enjoy doing  
6 something this much with their grandparents.

7           Going hiking and fishing is not nearly going  
8 to get the attention out of these kids as that park  
9 does. That park is absolutely phenomenal. Please,  
10 if you take anything, give us some area back.

11           And I appreciate State Parks. I think you  
12 guys have done a phenomenal job with the park. I  
13 just love it. I can't tell you -- it's one of my  
14 favorite places in the world, so that's it.

15           WENDY RAGAN: Hi, my name is Wendy Ragan.  
16 First off, I'd like to say I appreciate you all  
17 coming here and taking comments from us. I've lived  
18 in this area most of my life. My husband and I have  
19 lived in the Callender area of the Nipomo Mesa for 30  
20 years, which if you're not familiar with that, it's  
21 the most polluted area just off the ORV area. I also  
22 think it's a beautiful area. I think we all have to  
23 respect each other.

24           And I understand that there are many people  
25 that like to come to the Central Coast and drive on

Listening Session

1 the dunes. My family, my friends, we do not use that  
2 area. We hike. We bring our dogs to the beach. We  
3 play on the beach and go in the areas where there are  
4 no vehicles.

5 I would just ask that, you know, you listen to  
6 the scientific studies that have been made, that you  
7 think about more re-vegetation in the areas that the  
8 dust is blowing in or that it's blowing from.

9 I do support closing some of the area that's  
10 causing the most damage to our neighborhoods. It's  
11 gotten worse over the last years because I think with  
12 the amount of off-road vehicles that are down there,  
13 the trees that are being cut down and the drought  
14 probably has affected it too.

15 But we do -- there are people that love living  
16 up on the Mesa, and we don't all have big fancy  
17 houses. We've lived there for 30 years. We've  
18 raised our family, and so I'd like to be able to live  
19 there for another, you know, 30 years and let my  
20 children enjoy the dunes without quite so much sand  
21 blowing. Thank you.

22 CHRIS JAUREGU: My name is Chris Jauregu. I'm  
23 a resident of Nipomo for the last 28 years.

24 And, first of all, I just want to say thank  
25 you to State Parks for all of the hard work that you

Listening Session

1 do, enforcing the laws, the balancing act between the  
2 environment and the dunes itself.

3 But I am a supporter for all access for  
4 everybody. I want access for all. I want access for  
5 horses, hiking, for kites and for off-roading.

6 I want to support no compromise, where if  
7 we're going to build a restroom out there and give an  
8 acre, we should get an acre back somewhere else. If  
9 that restroom is not built, we should get that acre  
10 back.

11 For wind fencing, again, I've seen the clear  
12 cutting on Nipomo. I've seen the eucalyptus groves  
13 disappear, the Monarch butterfly habitat disappear  
14 out there for homes. I've seen it. Whatever wind  
15 fencing or whatever improvements you do to mitigate  
16 the dust, keep it off the area that we're riding at.  
17 Outside the boundaries plant whatever you need to  
18 plant to keep down the dust, just keep all of the  
19 riding areas, please.

20 For my family, it's been a great place. My  
21 nephew is come back from his leave for the Marines  
22 towards Christmas. He asked my brother, "Hey, can we  
23 have Uncle CJ take me out to the dunes?" And in  
24 return, I'm also putting money back into the Oceano.  
25 I bought him tickets for the Melodrama. So it's

Listening Session

1 going to be a great event for him. He enjoys the  
2 dunes. He enjoys the Melodrama when he comes to  
3 visit.

4 Oso Flaco, you guys are doing a great job at  
5 Oso Flaco. The lake is tremendous. When I go out  
6 there, my family comes to visit from outside the  
7 area, that's another area I take them.

8 Another thing I want to see out there, I know  
9 you guys were -- type of tsunami warnings you had for  
10 the campers. I know you had that before, several  
11 years ago. It was quite chaotic. What kind of plan  
12 do you have for tsunami warnings?

13 Other than that, again, thank you for your job  
14 and everybody -- the rangers keeping everybody safe.  
15 And no more compromise.

16 NANCY BULL: I'm Nancy Bull. I have a nice  
17 easy name so you can pronounce that. Wasn't that  
18 good of me?

19 I've been coming to the dunes for 50 years and  
20 living -- I live on Oceano. I live in Oceano on  
21 Strand Way for the last 25 year or so. And the sand  
22 and dust is dreadful. The noise is incredible, and  
23 people who say, oh, it's been that way forever, it  
24 hasn't. I'm sorry, 50 years ago there was not that  
25 kind of traffic. There weren't thousands of vehicles

Listening Session

1 going back and forth. There weren't people all over  
2 at all times of the day and night when there is no  
3 one else around. There wasn't that kind of traffic.  
4 There weren't vehicles and trash everywhere. It  
5 wasn't that way. And that development where I am has  
6 been there since 1906, so that's not a new  
7 understanding.

8           It has become so much worse. It's become a  
9 giant trash heap basically with no one taking any  
10 care or concern about it. And the idea that, oh, we  
11 have to have these ATVs roaring back and forth and  
12 digging up the sand because it makes so much money  
13 for the community is nonsense.

14           Look at all of the other beach-front  
15 communities up and down this state, none of the rest  
16 of them need to have ATVs roaring back and forth and  
17 they all seem to manage to do quite well from  
18 La Jolla to Santa Cruz and on to Carmel.

19           So I think we could do very well economically  
20 without the noise and trash that the ATV groups have  
21 brought. Indeed, considering the environment, it  
22 should be one of the first things the State should  
23 do, it seems to me. And what kind of environmental  
24 consideration are you giving to the dunes, to the  
25 people, the animals, anyone there when you're

Listening Session

1 allowing it to be destroyed by this kind of  
2 utilization?

3 One of the first things that was up on your  
4 list of things for this State Parks to consider is  
5 the health of the people, and certainly the first --  
6 the health is not being considered by allowing the  
7 kind of dust and debris to be thrown into the air and  
8 into the community by that utilization.

9 So I certainly urge you to consider some other  
10 avenues for recreation on the part of this absolutely  
11 wonderful dune area, very unique and an opportunity  
12 for all kinds of recreational use without having it  
13 be motorized. Thank you.

14 LARRY BROSS: I'm Larry Bross, resident of  
15 Oceano. I've lived on the Strand over 60 years, I  
16 guess. This is what I'd like to say.

17 If you look back at the history of the place,  
18 when I first came in '65, I was teaching in Palo Alto  
19 and bought a small cabin on the dunes. Pismo Beach,  
20 you could get on and ride from Pismo Beach to my  
21 cabin in Oceano. And then Pismo shut down the riding  
22 and look at Pismo Beach today and look at Oceano.  
23 Oceano is the forgotten wrecked place. The community  
24 has all of the potential in the world. There are  
25 enough dunes out there for everybody. What Pismo did

Listening Session

1 is they put up poles, and you could no longer drive  
2 into Pismo.

3 Now, I suggest that -- that Oceano, the Oceano  
4 community has no sovereignty. It doesn't have a  
5 beach. It has a road, Minus 1. You have 101 and  
6 then you have 1, and that beach rode is Minus 1.

7 Where is the southern access? It hasn't  
8 rained yet this year. Wait until the rains come, it  
9 will close you down like last year for maybe a month  
10 or so. There should be no creek crossings. There  
11 should be a beach for the community of Oceano like  
12 every other community in the world, and it can be  
13 done. It can be done.

14 We have a new freeway exit that would take you  
15 right down to the refinery. You can -- we've studied  
16 this. We've spent -- we've spent \$250,000 for  
17 studying the southern accesses. Where are they?

18 The future of this community -- the future of  
19 driving on the beach, if you want to drive on the  
20 beach with global warming. You have to stop creek  
21 crossings.

22 And I think you're doing a pretty good job of  
23 preserving our estuary at this point. You can do a  
24 better job of creating a southern access so that all  
25 of us -- finally creating an access. You know, what

Listening Session

1 you have here in Oceano is a temporary permit for 35  
2 years, temporary.

3 FACILITATOR METRAUX: Thank you, Mr. Bross.

4 MS. LYNCH: Thank you, sir. Your time is up.

5 LARRY BROSS: Thank you.

6 DUSTIN HANING: Hello. I'm Dustin Haning.

7 I'm a resident of the Nipomo Mesa. I moved to Nipomo  
8 Mesa for the dunes. My family and friends are users  
9 of the dunes.

10 I am all for figuring out dust mitigation, but  
11 not only -- dust is not only coming from the dunes.  
12 The ag that is along Highway 1 is also a big producer  
13 of dust. And then the nature of the dunes is to be  
14 dusty in general. You can tell from the first  
15 closure of the park, if you go down to Guadalupe or  
16 any of that area, that the winds are not affected  
17 from the OHV area. It's extremely dusty, dirty, such  
18 is the nature of the dunes.

19 As far as changes in the parks, I would like  
20 to have a faster access for people that have yearly  
21 passes or that already have the passes sold, so we  
22 wouldn't have to wait in lines to get back into the  
23 park, come in and out.

24 I would like there to be better signage at  
25 Pole 2. There's no riding past Pole 2 towards the

Listening Session

1 entrance.

2           And then as far as the bird mitigation goes,  
3 you guys do a great job of that, but I'm curious as  
4 to the two markers you guys closed, if it really  
5 makes that big of a difference when there is a snowy  
6 plover population, extreme population all the way  
7 down to Lone Poch. I do a lot of work down there.  
8 The snowy plover down there is overrunning the beach.

9           That's all I have to say today.

10           PATRICK FITZGERALD: My name is Patrick  
11 Fitzgerald. I'm a resident of the Strand area close  
12 to Pier.

13           And basically I'd like to thank the State  
14 Parks for the work they've been doing, and I  
15 appreciate the dust mitigation program that we've  
16 established, and hopefully it will go on and work  
17 even better than it has.

18           And I think our main concern in my area is the  
19 access to the beach, and access to the dune area  
20 comes through Pier Avenue and Grand Avenue, and I  
21 feel that we have to do something about a southern  
22 access to be able to get into the dune area.

23           The people that use that as a recreation area,  
24 I understand that the families -- it's a very good  
25 family enterprise and all of that, but the people

Listening Session

1 that live here 12 months out of the year have to put  
2 up with the vehicles that come to the dunes from Pier  
3 Avenue and Grand Avenue.

4 And I think that's the most important thing we  
5 have to work on, at least in our area. Thank you.

6 NICK LALANNE: My name is Nick Lalanne, and I  
7 represent the Pismo Dunes Riders. We have 17,000  
8 members. They mainly consist of off-road  
9 enthusiasts, but there's also people that windsurf,  
10 jet ski, surf and fish in our group, a very large  
11 number of them.

12 The off-road area is primarily used on the  
13 weekends. But Monday through Friday, you have people  
14 that fish out there and surf out there. So it's very  
15 important to keep Pier or Grand Avenue open so the  
16 people that live in those communities can still  
17 access the beach and ocean and use it the way that  
18 they do.

19 The other problem that I really have is one of  
20 the ways that the Parks is operating -- use the word  
21 re-vegetation. These are dunes. Show me a dune  
22 that's vegetated. It doesn't exist. If it was  
23 vegetated, it wouldn't be a dune.

24 So you're going through and you're planting  
25 plants to take away dunes. You aren't re-vegetating.

Listening Session

1 Vegetation was not originally in open dunes areas.  
2 So you need to change you policy when it comes to  
3 vegetating the dunes for mitigation because you are  
4 changing the ecosystem of that area.

5         The park usage is going up, and you're taking  
6 away more and more area. I can show you picture  
7 after picture of where you've moved the fences in,  
8 you know, 20, 30 feet at a time and nobody ever  
9 notices. So that's a big problem. If a fence every  
10 gets moved in, you really need to move another one  
11 back in another spot. Those are some of the issues  
12 that I have.

13         Ways that you can make the park better and  
14 safer is there's mile marker poles going down the  
15 beach. There are eight of them, I believe. Over  
16 times, those have dropped down because we're getting  
17 more and more sand. They used to be really tall, and  
18 Pole 1 and 2 is really tall, but all of the other  
19 ones are 15 feet off the ground maybe. You can't see  
20 them with people camped around them.

21         So you need to come up with a policy to check  
22 them year after year, and when they're too low, be  
23 able to raise them back up so they can see it. This  
24 is a safety issue because your ambulance, your  
25 rangers, that's how they get around.

Listening Session

1           The same thing with your mile marker poles on  
2 Sand Highway, these are the only landmarks we have  
3 going through the dunes. So when we try and guide a  
4 ranger to an injured person out there, that's all we  
5 have is those mile marker poles. They need to be a  
6 lot more visible than what they are.

7           The other thing is my group, about 50 percent  
8 of the people of the 17,000 members, are from the  
9 Central Valley area, so we have a very large base in  
10 the Central Valley. So you really -- if you want to  
11 know how people are using the dunes, have a meeting  
12 in Central Valley. It would be critical. These are  
13 people that pay taxes and live in California just  
14 like everybody else sitting here. Their opinion is  
15 as important as anybody else's. Thank you.

16           BILL SCHLECNT: Hi, my name is Bill Schlecnt.  
17 I was lucky enough to come through here in 2011. I  
18 was unlucky enough to pull up to the end of Grand. I  
19 thought, man, this is beautiful. So I walked down  
20 there, and I looked at the beach. And then I  
21 remembered, because it was 5:50, I came back to my  
22 truck and I had a ticket because parking didn't start  
23 until six o'clock in the morning. So I missed it by  
24 about 10 minutes. I thought: You're not going to  
25 get rid of me that easy. I bought a home off of Elm

Listening Session

1 and have enjoyed living here ever since. Part of the  
2 community, I'm on the dunes nearly every day.

3 I really think that, you know, what people are  
4 saying as far as southern access, that would  
5 eliminate a whole lot of pressure off of Pier,  
6 pressure off of Grand.

7 The dunes are the dunes, and as Nick said, you  
8 know, to plant them and grass them means that it  
9 isn't a dune; it's a field. So by nature of what it  
10 is, I think it is there for us to enjoy.

11 My health actually has improved from coming  
12 here, beautiful weather, beautiful sun. I, you know,  
13 don't take away from anybody who has an issue, but  
14 for reasons of my health, I would appreciate that you  
15 leave them open and you give us as much room as  
16 possible.

17 The more room actually is going to be better  
18 as it spreads people out. So we're operating on a  
19 plan. There's the same amount of people who are  
20 allowed on the beach; they're just allowed in a much  
21 smaller area. So thank you very much.

22 CHRIS SING: Hi, my name is Chris Sing. I  
23 work at the Clark Center, the performing arts center  
24 here in Arroyo Grande. I'm also an ambassador for  
25 the Arroyo Grande Grover Beach Chamber of Commerce.

Listening Session

1 And back last spring I was fortunate enough to go to  
2 a meeting at the chamber where Matt was a speaker  
3 there, so it was very nice hearing what he had to  
4 say.

5 I live in Nipomo. I've lived there for 22  
6 years, raised my family there, and I'm really just  
7 here to talk about what the dunes are to our family.

8 My father-in-law grew up fishing there with  
9 his father. He raised his kids going out there in  
10 the '50 and '60, built dune buggies with his brother.  
11 My family is here, my two sons, my cousin, his son,  
12 some of my kids' friends are here.

13 The dunes is just such an important place to  
14 us. We spend a lot of time out there. We have  
15 raised our kids to be good stewards, to haul out what  
16 you haul in, to treat it with care, be safe, be  
17 smart, and just be mindful of other people out there.

18 We really want to take care of it and see it  
19 for our future generations, and it's a challenge. We  
20 know there's different opposing views, but we really  
21 want to work with our community and see it there for  
22 the future. Thank you.

23 LUCIA CASALINUOVO: My name is Lucia  
24 CasalINUOVO, and I've been a resident of Oceano for  
25 30 years.

Listening Session

1 First of all, I want to uncover your initial  
2 lie. You haven't done anything to mitigate the dust  
3 problem on the Mesa. Parks and off vehicle division  
4 have delayed and delayed and delayed for years. The  
5 few bales that you put on the sand haven't done  
6 nothing to protect the health of the people on the  
7 Mesa.

8 Now, even if you close down a little bit of  
9 the dunes, that wouldn't help half the residents on  
10 Oceano Beach and on Pier Avenue. We also breathe  
11 PM10. Thousands of cars go in and out and drive on  
12 the beach, and they bring back tons of sand.  
13 Sometimes I can't get out of my driveway because it's  
14 completely covered with sand that the off-roader and  
15 the cars and the ambulance and the fire truck and all  
16 of the dune buggies bring on Pier Avenue.

17 You need a different entrance. You are guilty  
18 of environmental injustice against Oceano, a poor  
19 community, 40 percent Hispanic, uneducated. Don't  
20 have a meeting in Ventana. Have a meeting in Oceano.  
21 Have a meeting in Oceano, that's where you're going  
22 to hear the people. They don't come over here  
23 because they don't speak much Spanish. They're  
24 uneducated. They don't have the strength and the  
25 knowledge to really say what's going on. So you're

Listening Session

1 guilty of environmental un-justice. We have not been  
2 part of any process. That's baloney that you are  
3 involving the community. Look at where you are  
4 having the meeting, in Pismo. And yet you have been  
5 using Pier Avenue, the part of our community where we  
6 could have coffee shops, ice cream parlors, aisles  
7 for pedestrians to walk on the beach. We deserve a  
8 safe beach, and that means a beach without cars.

9 Pedestrians and cars are not compatible. It's  
10 baloney that you can drive -- you can drive  
11 million -- thousands of cars on the beach. You can't  
12 run. You can't lie down and read your book. You  
13 can't sunbathe. You can't have your kids -- I want  
14 to build sandcastles with my kids on the beach.

15 But you treat our beach as a highway. There  
16 is a speed limit. There are sheriffs going up and  
17 down. There are ambulances, fire trucks. It's a  
18 highway. And never nowhere in the world, pedestrians  
19 and cars are compatible on the highway. So that's  
20 baloney.

21 You're going to surf, you walk on the beach.  
22 You want to fish, you walk on the beach. You want to  
23 camp, you carry your gear and you walk. Just like  
24 when I go to Yosemite and I want to camp in the  
25 wilderness, I carry my pack in and out. I don't

Listening Session

1 drive there. So I don't understand why all these  
2 people they have to come here and drive on a beach.

3 So -- thank you.

4 FRED COLLINS: Fred Collins, tribal  
5 administrator for the Northern Chumash Tribal  
6 Council. I and my family have been walking this land  
7 for 18,000 years continuously. The dunes have been  
8 an amazing place for the Chumash nation. From Morro  
9 Bay all the way down to Carpenteria was one  
10 continuous village. We have over several hundred  
11 village sites within the dune area.

12 As I was a young man, my family would harvest  
13 clams down there. When we were kids, we'd go up into  
14 the dunes and play and enjoy them without any danger.  
15 This has changed.

16 In 1975, you folks opened up an amusement park  
17 on our sacred land, and the product of this amusement  
18 park is garbage, death and more than one. I mean  
19 we've had a lot of deaths on this unbelievable sacred  
20 nation land, and we have to pray for these people.  
21 Every time I see somebody die, we pray for them.  
22 This is horrible.

23 You can go on the Internet and look at the  
24 doctors at the hospitals around here when they talk  
25 about the trauma cases that are coming in from these

Listening Session

1 dunes. Kids unbelievably maimed, unbelievably broken  
2 bones -- unbelievable. And this is in addition to  
3 the folks that live down there that have horrible  
4 issues with the dust.

5           Since 1975, you folks have been a part of the  
6 agencies of this United States government that have  
7 continued the cultural genocide of the indigenous  
8 people of this land. You have utterly failed in your  
9 mission to protect the environmental issues along  
10 this coastline and along this park. We have for  
11 years been talking to you folks about how we can  
12 change this, how we can come up with solutions to  
13 make it better for everybody. We can't go back.

14           But that park, you missed -- you have missed  
15 the issue. That is a diamond. The dunes are a  
16 diamond in the rough down there, and you've missed  
17 it. You put vehicles on it rather than souls and  
18 people and walking and enjoying it. You don't have  
19 to ride in a vehicle to have your families enjoy that  
20 place.

21           It is a sacred land. Do your job and do it  
22 right. You have all of the laws and regulations,  
23 some of the best regulations on the books, but you  
24 don't follow them. Do a better job.

25           BRUCE VAN VOIT: Good evening. My name is

Listening Session

1 Bruce. My business is Fins Seafood Restaurant in  
2 Pismo State Beach Golf Course.

3 I have a lot of expertise in these fields  
4 since I've managed many national parks, the last park  
5 before moving here was Mount Rushmore. I've managed  
6 Yellowstone and Grand Canyon. In every park there  
7 are a lot of people who want to shut down the parks.  
8 Even in Yellowstone we used to have people say:  
9 Let's just shut it back -- turn it back to nature.

10 I've heard a lot of people today talk about  
11 walking on the beach. What happens if you can't walk  
12 on the beach? What happens if you're too old to walk  
13 on the beach? Do we just say it's for the healthy,  
14 for the people who can walk in, for the people who  
15 don't need wheelchairs, for the people who don't need  
16 vehicles? We shouldn't let the ones with no legs,  
17 with no arms recreate, right? So it's only the ones  
18 who can walk on the beach; that's the ones we should  
19 allow.

20 That's why there has got to be a balance.  
21 There are little children out there every day. There  
22 are families out there every day. And everybody  
23 talks about the deaths on the beach. Yes, there are  
24 deaths on the beach, and I can promise you, if you  
25 close the dunes, if you put it where there are no

Listening Session

1 dune buggies, people will find a way to dune buggy,  
2 and you will have five times as many deaths. Because  
3 they will find it in the creeks and beds in which  
4 they live, and it will be unregulated.

5 As far as the State of California and the  
6 Parks Department, they do an incredible job. If you  
7 call them and there's an accident, they're there  
8 immediately. I had a son of mine break his back in  
9 the middle of this summer doing what he loves to do,  
10 dune buggy. He won't be able to do it again, but at  
11 least he'll be able to go out on the dunes and  
12 recreate and go fish and surf. Because just like  
13 Yellowstone, the healthy shouldn't be the only ones  
14 who are allowed to go on the dunes.

15 So, yeah, I like to walk on the dunes. People  
16 I know can't walk on the dunes. I really would like  
17 to say that the local State Parks does an exceptional  
18 job, and I've seen them all. Thank you very much.

19 FACILITATOR METRAUX: We are at eight o'clock.  
20 I'd like to take a ten-minute break.

21 (Break taken in proceedings.)

22 DAN HENSLEY: My name is Danny Hensley. I've  
23 lived in Oceano for 48 years, born and raised here.  
24 My dad started coming here in the '50s with his dad.  
25 He moved over here. My first memories are of playing

Listening Session

1 down on the beach going down to Devil's Slide and  
2 people getting stuck. And when people would get  
3 stuck, everybody rushed out to help dig them out and  
4 push them out. That's just because that's what they  
5 did. They didn't have: What race are you? What's  
6 your religious background? Where are you from? You  
7 just helped people. That's one thing that's stayed  
8 true until today. You go down there on any week,  
9 nobody cares what race you are. Nobody hates people  
10 just based on anything. Everybody has a good time.  
11 If somebody is in trouble, you help them.

12 I've been helped by people from Dubai that  
13 came out in their full-on garb and, I'm, wow, these  
14 people didn't know me. They came down, and they  
15 helped us until we got all way from the back of the  
16 dunes to the beach. It's like that every week.  
17 There's Asians, family of blacks, hey, we ended up  
18 hanging out with them on the weekend. Our kids  
19 played together. We spent a couple hours helping get  
20 them unstuck. You make friends.

21 The world is full of hate right now and hate  
22 of race and religion, anything you can think of. But  
23 you go down there on any week, any weekend, and you  
24 don't see none of that. You see Mexican flags. You  
25 see flags from everywhere, and people are getting

Listening Session

1 along, having a good time.

2           What you don't see also is kids sitting down  
3 there with their iPhones. The only time you see a  
4 phone down there is because nobody is videotaping  
5 something cool that they want to go home and show.  
6 Our world is becoming a very sad place where life is  
7 lived through a little square thing that you sit and  
8 watch something, and it's pretty sickening and it's  
9 sad. You go down there, and you don't see none of  
10 that.

11           Families are together. They're outside.  
12 They're enjoying things together. They're helping  
13 each other, not hating each other.

14           In all this time that I've lived here, there  
15 is a lot of things that have grown, a lot of the  
16 houses that have grown around Pier Street. That  
17 place has been open since I can remember. And you  
18 see pictures back into the '60s, the beach is packed.  
19 So there has been large draws of people coming there  
20 through the '50s all the way into it.

21           Now, the railroad came through in -- what did  
22 you say, '20s or '30s -- the railroad came through.  
23 So right around when they started planning things,  
24 every day, the wind would blow the sand over the  
25 railroad tracks. They had to have crews that would

Listening Session

1 come out ahead of the railroads, and they would  
2 shovel the sand off the tracks because it covered  
3 them over. This was back in the horse-and-buggy  
4 days. There were no motorcycles, no four-by-fours,  
5 no nothing. The problem on the beach with the sand  
6 is the wind. The wind blows; it blows the sand.  
7 It's got nothing to do with the four-by-fours. Thank  
8 you.

9 BOB CARDONA: Thank you very much. I'm Bob  
10 Cardona. I live in Santa Maria presently and -- so I  
11 think that's pretty much it.

12 Thank you for coming. Thank you for your  
13 efforts. I know you're getting mixed emotions as far  
14 as from each individual's own personal desires on  
15 what they would like to see the beach like.

16 First of all, let me thank Parks and  
17 Recreation for doing a great job. You know, I've  
18 lived in Santa Maria since 1947. Actually, my mom  
19 picked up from Grand Junction, Colorado, and came to  
20 Santa Maria, and I haven't left since. Why leave  
21 when you've got the beach to the west and, of course,  
22 snow up in the mountains to the east of us so enjoy  
23 both.

24 And, yes, the wind blows, and that's what kind  
25 of keeps things shifting when you're on the beach. I

Listening Session

1 want to try to bring things back into a little  
2 perspective, please. I don't know what you people  
3 have been able to get out and look at the dunes on  
4 off weekends, big weekends, no weekends. You being a  
5 swimmer, I guess, a lifeguard or whatever, it would  
6 have been good because we didn't have a lot of those  
7 lifeguard stands out on the beach then, and I'm  
8 talking about in the '50s and '60s when, of course,  
9 that's when probably they were needed.

10 My main point here is just to hit a couple of  
11 highlights. A question that I have, and I know I  
12 raised my hand on you: Are you allowed to work with  
13 Santa Barbara County people at all? This is my  
14 question to you. Do you work with Santa Barbara for  
15 the southern -- true southern access?

16 Because originally I used to drive out of  
17 Santa Maria on Main Street, drive right on to the  
18 Guadalupe Beach, and sometimes we didn't make it onto  
19 the hard beach. We drove straight on out, and we'd  
20 get stuck in my mom's car, then we'd have to push our  
21 way out of the sand, drive all the way up to Pismo  
22 and go in and go to the Rose Garden, at that time in  
23 Pismo, and then dance, and I met my wife there. So  
24 when you're dancing --

25 And so one gentleman mentioned Devil's Slide.

Listening Session

1 That's true. The very south end of our beach is  
2 Devil's Slide because we did have a lot of people get  
3 stuck, but it wasn't on the way down. It was trying  
4 to climb going up. And my brother took his truck out  
5 there, a brand-new truck for him. It was a 1973  
6 Chevy truck with a big 350, and he couldn't get to  
7 the dune. I said, "Ray, did you take the air out of  
8 the tires?" He goes, "Well, I didn't think about  
9 that." You can't be driving hard tires on the beach,  
10 but he had taken some out but not enough.

11 So I think -- a couple of things, and my  
12 question to you, and I will hopefully get an e-mail  
13 from you: Are you attempting to work what I consider  
14 a true southern access.

15 And I know we've had problems, because once  
16 the oil companies were shut down on that beach area,  
17 then they didn't want anybody out there. So are you  
18 pursuing the southern access into Santa Barbara -- in  
19 the Santa Barbara County area?

20 Number two, our club, the Santa Maria Four  
21 Wheelers have worked with a number of handicapped  
22 people in the past, especially in the '60s, '70s --  
23 (Three-Minute digital tone warning.) Sorry.

24 NICK HARIS: Good evening, Director Mangat,  
25 Deputy Director Fuzie and Parks staff. My name is

Listening Session

1 Nick Haris. I'm the western state representative for  
2 the American Motorcyclist Association.

3 And we've heard a lot of good comments  
4 tonight. I wanted to focus a little more on the  
5 public works plan aspect and just reminding folks,  
6 this is an OHV area, the SVRA, at least the part that  
7 I'm commenting on. And I have been lucky enough to  
8 tour it with staff a couple of times.

9 And I really do want to see a no net loss of  
10 any recreational opportunities. I think it's  
11 critical especially at this point that we really look  
12 to keep what we have, if not expand what's available.

13 And I really want to talk also -- when I was  
14 down there on one of the tours, it became apparent,  
15 not only do we have less recreation area than we are  
16 used to, but they have a whole section that's  
17 assigned for green sticker vehicles. So you have to  
18 go part way down the beach before you can even start  
19 using the green and red sticker vehicles. So I would  
20 like to figure out how to better address that so  
21 people don't necessarily have to trailer down half  
22 way or a third of the way.

23 We've heard a lot of people talk tonight about  
24 a second access or an additional access, a southern  
25 access, and I think that would be a really important

Listening Session

1 thing to bring on or to look into adding.

2           The other thing I want to talk about, if you  
3 were at the OHV Commission meeting -- two weeks ago,  
4 was it -- and we see a lot about electric vehicles.  
5 So as we are talking about facilities and the future,  
6 I think it's important that we start talking about  
7 we're going to see more and more electric vehicles.  
8 We don't necessarily even know what configuration.  
9 People are going to have to charge those, so I would  
10 like to see an opportunity for people to be able to  
11 use those vehicles and then service them, so to  
12 speak, but, of course, the way they service those is  
13 by charging them.

14           Additionally, I just wanted to mention that  
15 I've been down here but not enough, but I like the  
16 comments we've heard in the past commission meetings  
17 from some of the people who do rentals. I know  
18 there's been some issues with some of the training.  
19 I wanted to make sure people had the proper  
20 opportunities for training, so I just wanted to  
21 recommend that we look into doing the public training  
22 days or ways to introduce youth to the proper way to  
23 recreate at the dunes. Thank you for your time.

24           RENEE MARTINEZ: Hello, my name is Renee  
25 Martinez, and my heart is beating out of my chest.

Listening Session

1           So I'm coming to you as a local. I'm coming  
2 to you as someone to lives here. I live two blocks  
3 away from the beach. I live upwind. My house is  
4 covered in sand. Imagine that, the wind blows.

5           I work here. I work at Sun Buggy Rentals. I  
6 work on the beach. I've witnessed firsthand the  
7 accidents, accidents because of the closures, because  
8 you are pushing more and more people into areas that  
9 aren't big enough to hold all of them. You've taken  
10 so much away.

11           Thirdly, I play out there. I've had two back  
12 surgeries. I can't hike anywhere. I do drive out to  
13 the dunes. I sit and watch the sunset from the top  
14 hill out there. To lose all of that is not going to  
15 be healthy for any of us. It's a stress reliever.  
16 People take their families out there to play, to  
17 unplug, to surf. People on the beach, I drive by  
18 them every day with their kids building sandcastles.  
19 I've ran over sandcastles in the middle of the night  
20 where they've dug huge gutters out because they were  
21 playing.

22           Taking away the dunes not only from the  
23 community has an economical would disastrous, but  
24 taking away the community, bringing other communities  
25 here -- I have an entire family that I've met here at

Listening Session

1 the beach. I don't go to the bars. I go to the  
2 beach. I have met people from Fresno, L.A., Las  
3 Vegas, Hanford, Rancho Cucamonga. I'm streaming  
4 live, and I've got people all over California begging  
5 for this place to stay open.

6 So my biggest confirmed fear here is if you  
7 take anything away, give something back. The smaller  
8 you bring it, the more people are going to get hurt.  
9 I'm here as someone who works on the beach and rents  
10 these buggies to people, we don't want to see that.

11 We also don't want to see our jobs gone. This  
12 is our livelihood. I moved to the beach. I know  
13 there is sand here. I live with it. I was a  
14 hairdresser. I got out of the business because if  
15 you open up a hairdresser's lungs after they've died,  
16 it's full of hair. You don't like the sand, don't  
17 live near the beach. Thank you.

18 RACHELLE TOTI: Hi, Rachelle Toti. I'm a  
19 Nipomo Mesa resident.

20 And I have a letter here, Ms. Mangat, that I  
21 sent to you in October of 2015, and what it says in  
22 the letter is that this park should be operating  
23 under the Public Resources Code, the OHMVR Act, 2008  
24 Soil Conservation Standards. There are lots of rules  
25 on how to operate OHV parks, the OHV Best Management

Listening Session

1 Practices Manual and so forth. And what they say is  
2 when an area is eroding, that it be closed and  
3 restored. And that is something that's not  
4 apparently happening here.

5 California Geologic Survey did a report in  
6 2007 for California State Parks. And in that, their  
7 recommendations were to restore the fore dunes and to  
8 rotate riding areas. So I think that you need to  
9 look into some of these documents and whether they're  
10 being followed.

11 You're not hearing a lot about visitor  
12 experience and recreational opportunities, so I want  
13 to make sure a few comments on that.

14 I think that it would be great if you got more  
15 rangers, because the number of people out there,  
16 you've got alcohol, you've got riding at night,  
17 riding 24 hours a day, 365 days a year, and sometimes  
18 50 to 60,000 people on a busy weekend. So 19 rangers  
19 I don't think is enough.

20 I think it would be a good idea to have a  
21 children's riding area. And the La Grande track, as  
22 you're aware, is not owned by State Parks, so your  
23 actual OHV parks is 810 acres. But the La Grande  
24 track, which is where the mitigation is needed, could  
25 have a children's riding area.

Listening Session

1           It could have perhaps a water feature. I  
2 think a water feature -- since the water is so cold  
3 here, plus you have Great Whites out there -- a wave  
4 machine or a pool or something like that would be  
5 another form of entertainment.

6           I think you should look into some of the  
7 illegal things that are happening out there such as  
8 drag racing, which the vehicles come way too close to  
9 people. And, Director Mangat, I do have an envelope  
10 of some things to give you after the meeting.

11           Fireworks, November 18th, we had fireworks,  
12 the type that are set off on the 4th of July by  
13 professionals, shot off in the dunes, but you could  
14 see them -- I live probably two miles away from the  
15 beach. You could see them going up in the air.

16           There were reports that this parks has the  
17 most crime of all of the parks in California. We had  
18 a situation where camping was reserved for three  
19 days -- (three-minute digital tone warning.) -- and  
20 those \$10 tickets were sold in at \$100 a piece.

21           I have a lot more to tell you.

22           FACILITATOR METRAUX: Thank you. I look  
23 forward to hearing from everybody in the future, too.

24           DON PREBLE: Good evening. My name is Don  
25 Preble. I am the chairman of Friends of Oceano

Listening Session

1 Dunes, the 501(c)(3) nonprofit that is working to  
2 make sure that the park that we all love and enjoy  
3 stays open for everybody, for access for the  
4 equestrians, the surfers and, of course, the  
5 off-roaders.

6 I kind of want to just maybe take a step back  
7 with everybody and kind of put the whole thing in  
8 perspective for everyone. I think the general goal  
9 for all of us in this room should be looking for a  
10 solution that is globally accepted by everybody.

11 I think there's opportunity for us to take  
12 away some of the stresses from the folks that live on  
13 the Strand and the folks that live in Oceano. I  
14 think there's opportunities for us to grow the park  
15 in areas where there's natural dunes that we can  
16 participate on and enjoy and off-road on, and maybe  
17 take some of the stress off some of the other parts  
18 of the parks. There are a lot of people who are  
19 having dust issues up at the Mesa, and there's a dust  
20 mitigation program that's in play.

21 It's very important for us to make sure  
22 that -- a lot of people have voiced this opinion --  
23 is that if you are going to take some parts of the  
24 park away for dust mitigation, we are encouraging  
25 that. We want to help those folks up on the Mesa,

Listening Session

1 but not at the cost of taking away riding area and  
2 taking away the resources that were given to us.

3 If you look back from -- even going back to  
4 the early years in the '70s, there are -- there is  
5 photographic evidence of thousands and thousands of  
6 people on this park enjoying the riding area, but  
7 there was a southern access and there was a southern  
8 entrance, and we didn't have such an impact on the  
9 northern side of the park.

10 If you look at the town of Guadalupe, the town  
11 of Guadalupe dried up after that southern access was  
12 taken away, and there are folks who are here that  
13 have family that grew up in Guadalupe, and that whole  
14 town went away as soon as the southern access was  
15 taken away. A lot of the problems were created by  
16 when the Coastal Commission came in and took the park  
17 away from us, from all of the riding that we had  
18 going back years and years and years. The park is  
19 what it is now. There is nothing that we can do to  
20 get back some of those dunes that go all the way down  
21 to Devil's Slide.

22 I think what we need to all focus on as a  
23 group is looking for a global solution that will help  
24 mitigate the dust, help the folks who live on the  
25 Strand and the local residents who see such an impact

Listening Session

1 on their daily lives, while still enhancing the  
2 riding area, while still making it so all of these  
3 families can come down, the families from  
4 Bakersfield, Fresno, from all over the state.

5 I live in San Jose. I drove down here this  
6 afternoon after I got off work, and I'm going to  
7 drive right back home. Thanksgiving, I had four  
8 generations of my family on this beach enjoying  
9 Thanksgiving dinner with 35 other family members and  
10 friends. That's what it's all about. It's about the  
11 community and the family and equal participation by  
12 everyone. Thank you.

13 DEBBIE PETERSON: I'm Debbie Peterson. I'm a  
14 current city council member and former mayor of the  
15 City of Grover Beach, but I'm speaking today as a  
16 well-informed private citizen.

17 I have to say that for years I have loved  
18 being able to drive on the beach. When friends come  
19 to town from international areas, it's just a blast  
20 to be able to take them. And they can see the snowy  
21 plover. They can see the whole thing, that whole 18  
22 miles.

23 I don't go anywhere near the beach on a windy  
24 day. I have asthma, and so I concur with the Chumash  
25 who called the Santa Maria valley, the valley of

1 death -- the valley of sickness.

2           And the other thing that I would like to say,  
3 I live and have my business on 3rd and Grand, so it's  
4 very close to the beach. Fortunately, I'm in the  
5 wind shadow of the Irish Hills, so I don't get the  
6 same particulate blowing across that comes from the  
7 areas that are further away from the Irish Hills.

8           And Parks have been wonderful neighbors and  
9 wonderful role models, and I'm extremely thankful to  
10 you for all kinds of things, for teaching me about  
11 watershed and how that plays into where we are, for  
12 helping me understand about native plants.

13           And I do have one suggestion on that, I have  
14 to go to Los Pilitas Nursery in Atascadero to get  
15 native dune plants to plant from my yard, and I want  
16 native birds and butterflies in my yard. So if you  
17 could sell some of those seeds or sell some of those  
18 plants, I think that would be a great bonus for  
19 locals.

20           And, also, I have loved having the kind of  
21 access that allows my elderly mother and my elderly  
22 stepfather to actually be down on the beach when they  
23 couldn't have otherwise, which allows for family  
24 members of all generations to come and have a  
25 birthday party on ATVs, which I hate.

Listening Session

1           But what I have to commend you for also  
2 being -- is being able to manage 18 -- an  
3 18-mile-long city with just a very few people. You  
4 manage the sewers. You manage the water. You manage  
5 the policing, and you allow all of us to recreate in  
6 a way that works for us. And it's a miraculous thing  
7 that you manage, and I'm very grateful.

8           I'm also grateful for the security that you  
9 offer to me living so close to the beach and working  
10 so well with our fire departments and with our  
11 various policing agencies in the area.

12           I want to thank you too for protecting the  
13 little snowy plovers -- they're wonderful to watch;  
14 for teaching -- for having geologists that teach us  
15 about the sand and to stay off of that. There is  
16 really nobody who knows more about dunes than State  
17 Parks. You've got more dune control than anybody.

18           And, finally, one last suggestion, if you  
19 could work with your near neighbors to plant trees.  
20 Trees have been shown more than anything else to  
21 protect us from particulate. Plant trees on  
22 neighboring properties.

23           ARLENE VERSAW: Good evening. Arlene Versaw,  
24 Nipomo Mesa. And before I lived on the Mesa, I lived  
25 19 years in Grover Beach. My husband was a mayor of

Listening Session

1 Grover Beach, and I was on the planning commission.

2 And I'm aware of the benefits of the OHV park.

3 I've never advocated personally for the closing of  
4 the park, nor do I really want to see that and feel  
5 that's necessary in order to protect the residents of  
6 the Nipomo residents.

7 I've heard so much misinformation here  
8 tonight, misconceptions, and it's -- I know that  
9 there can be a win/win. I heard the gentleman from  
10 Friends of the Oceano Dunes. Frankly, this is the  
11 first time in seven years of trying to resolve this  
12 issue on the Mesa that I can say that I actually  
13 agree with somebody from the Friends of Oceano Dunes.  
14 There is an answer. There is an answer. There is a  
15 win/win here.

16 And I -- the silica dust that we breath is not  
17 sand, and it only exists right here. And how do I  
18 know that? Because I called every single Air  
19 Pollution Control District up and down the entire  
20 state of California from San Diego to Eureka. There  
21 is no other APCD here on the coast where there are  
22 dunes and sand everywhere that has a silica dust  
23 issue. It's also the only place coincidentally that  
24 has an Off-Highway Vehicle park, but connect the  
25 dots.

Listening Session

1           We know where it's coming from. You guys can  
2 come up with a solution. We have been begging State  
3 Parks to help find that solution for a long time.  
4 You've put in hay bales and wind fences in places  
5 that don't help.

6           I understand why the off-highway vehicle  
7 community does not want to lose any more acreage.  
8 They have lost a lot of acreage. I acknowledge that.  
9 If I were them, I would feel the same way.

10           But here is the reality, folks, 605 times --  
11 605 times between 2012 and 2017 we have violated  
12 State Air Quality standards that are put in place to  
13 protect public health. That has got to stop. And if  
14 you don't find an answer, believe me, somebody is  
15 going to stop it for you, and that is probably the  
16 biggest threat to closing down the dunes, not the  
17 residents who are trying so hard to just protect  
18 ourselves from something that is an insidious,  
19 terrible health hazard.

20           One gentleman asked about whether or not there  
21 is any death data about it. One of the worst things  
22 about silica dust is it's cumulative. I can be  
23 walking around here today and be fine, but four years  
24 from now, it's a carcinogen, and it affects cardiac  
25 and respiratory. I could get sick five years down

Listening Session

1 the road from what I'm breathing today.

2 So please find an answer and really do  
3 something besides sticking hay bales and fences where  
4 they don't do any good. Thank you.

5 SEAN HAYES: Hello there. I live over in  
6 Santa Maria. It's about 25 minutes south of here,  
7 and it's very close to Guadeloupe.

8 And I heard somebody say that all of the beach  
9 towns are thriving, but if you've ever been to  
10 Guadeloupe, it's the exact opposite of thriving.  
11 Back in the day when the beach was open all the way  
12 down to Guadeloupe, it was doing very well, and today  
13 it's just a ghost town. It's completely dead, and  
14 that's definitely due to closing the beach access  
15 down there. And "dead" is an understatement, if you  
16 guys have ever been there.

17 I'm an off-roader, and I ride dirt bikes, and  
18 there is nowhere close that you can go and recreate  
19 quite like you can at the dunes. It's 25 minutes  
20 away, and it's cheap, and it's affordable. You know,  
21 I don't have to drive, 50, 60 miles to somewhere  
22 that's out in the mountains riding a trail where if I  
23 have an accident or something and I go off a cliff,  
24 no one is going to find me. There's tons of people  
25 around at the beach, and if there is an accident --

Listening Session

1 which I mean the number of people, there's very  
2 few -- someone can help me. There can be an  
3 ambulance to come rescue me.

4 So for locals, the dunes are a close and  
5 affordable place to recreate, and there's not many  
6 places anywhere nearby to ride like that.

7 I think you guys are doing an amazing job, so  
8 I have to congratulate you on what State Parks does  
9 so far.

10 I do have a handful of things I'd like to  
11 bring up, one of them being have a designated lost  
12 and found so when you find items, you can have them  
13 returned to someone that might be looking for them,  
14 like a tailgate, for example.

15 Another thing is we need State Parks to own  
16 and run a sand cleaning machine that can pick up all  
17 of the glass and debris that's left on the beach.  
18 Ventura County has one they used to run. We have  
19 tractors; we can actually pull one.

20 Something else to do is to raise the pole  
21 markers higher so they can be seen over the large  
22 trailers and RVs on the beach.

23 It might be nice to have a solar light  
24 color-coded system for each pole so that you can  
25 distinguish the poles in the dark when it's foggy.

Listening Session

1           We should have a reform of the kiosk entrance  
2 system to have a fast lane for reentry for season  
3 pass holders to reduce congestion on busy weekends,  
4 solar lights to mark ambulance trails at nighttime  
5 and smoothing them over so that ambulances can exit  
6 easily. Solar lights in the bathroom also would be  
7 beneficial.

8           LYNDI LOVE-HANING: I wasn't going to speak  
9 today. I told myself, let me just go to the first  
10 meeting and listen, but here I am.

11           First, the first thing I really want to talk  
12 about is I'd really love the State Parks to look into  
13 is the environmental impact report that the  
14 developers and the home builders of Trilogy would  
15 have had to have paid to have done to develop that.

16           If there was truly a significant medical  
17 issue, that developer and the home builder would have  
18 had to have been stopped by CARB. They continue to  
19 build homes on the Mesa. They keep building, keep  
20 building. If there is a real problem, that EIR would  
21 have told people, sorry, we can't build here, there  
22 is a medical issue, and the developer would have been  
23 stopped.

24           If there is truly a medical issue at hand,  
25 these homeowners, why are they not suing the

Listening Session

1 developer and the home builders? Instead, they stay  
2 there, suffer, as they say, and think that the  
3 low-hanging fruit is to just get the park shut down.

4           And I'm sick of people saying that the only  
5 people -- only people who don't live here use the  
6 dunes. I moved here. I pay thousands of dollars in  
7 property taxes to live in a big house on the Mesa  
8 because of the dunes. So my income is tax dollars  
9 into this community because of the dunes.

10           One gentleman said that people who live here  
11 12 months out of the year have to deal with the  
12 destruction of those who visit occasionally. This is  
13 false. Many, many locals use the dunes, and many of  
14 the people who complain of dust issues on the Mesa,  
15 they've moved there within the last five to ten  
16 years. They spend months -- I've seen it. They  
17 vacation in Italy and Spain or they cruise the  
18 highways in their Porsches with their Porsche clubs.

19           They recreate in a different way. And that's  
20 what it boils down to. They don't understand dune  
21 riding. They don't like the demographic that's out  
22 on the dunes. They don't like us. And they don't --  
23 they don't like us, so they want it shut down. I  
24 don't like the demographic, so I'm going to use my  
25 deep pockets to shut something down. A small group

Listening Session

1 shutting down something for thousands of people, that  
2 doesn't seem quite fair, that doesn't seem very  
3 American to me.

4 And shutting the park down or losing more  
5 acreage is not the answer. And I really look forward  
6 to continued meetings and an eventual solution for  
7 all of us and to continue dune riding. Thank you.

8 FACILITATOR METRAUX: Dillon Kass is the last  
9 speaker card for the evening. I want to thank  
10 everyone for coming.

11 Director Mangat has some closing remarks, and  
12 then I'll finish up with the next steps.

13 If anyone else has comments or questions that  
14 they haven't been able to -- if they haven't thought  
15 of something until late tonight, like the director  
16 said, or well into the future -- I always wake up at  
17 2:00 a.m. with a list in my head. So we have an  
18 e-mail address; that's access before we get the  
19 website going and also after the website is going  
20 throughout the length of project. It's on the public  
21 meeting notice you can get at the very back of the  
22 room, and I will mention it here too for those who  
23 are not here. It is PWPinfo@parks.ca.gov.

24 Thank you very much.

25 OHV DEPUTY DIR. FUZIE: Hello, everybody. I'm

Listening Session

1 Matt Fuzie. I'm the deputy director for OHV.

2 I want to thank you all for coming, and I want  
3 to especially thank you for your participation. This  
4 has been an amazing year. I've learned so much about  
5 this area and the issues and met so many great people  
6 on both sides of any issue that's come up.

7 I want to let you know that I'm going to be  
8 available for direct communication, and that I really  
9 do think that we're moving towards what could be a  
10 very successful global solution. I appreciate your  
11 patience over this last year while I've been  
12 learning, and I do look forward to talking to you  
13 all.

14 DIRECTOR MANGAT: First of all, I just want to  
15 really -- we do a lot of these, but I have to tell  
16 you, you folks have really been great. You've given  
17 us a lot to think about. Not only do we have the  
18 transcriptionist here doing great work, but you saw  
19 us all taking copious notes.

20 Thank you so much. We heard everything from  
21 solar lights in the bathrooms to tsunami warnings to  
22 things I had not thought about.

23 I had heard about southern access. We've been  
24 talking a lot about the dust. We have been talking  
25 about kind of the measures that we've had in place,

Listening Session

1 and we have been talking about the fence moving.

2           So there's a lot of things that we didn't  
3 anticipate hearing, and I think afterwards when we  
4 kind of get together and talk, I think we're all kind  
5 of nodding our heads. So I thank you so much for  
6 taking us so seriously.

7           We were kind of putting our heads together  
8 thinking about when is the next time that we're  
9 probably going to have a meeting, and I'm probably --  
10 as soon as I say this, I'm going to make staff  
11 cringe, but my sense is that it's probably like in a  
12 six-month-ish period, like around that range. I'm  
13 looking at smart people to see if they -- does that  
14 sound about right? So my folks are kind of nodding  
15 their heads. Don't hold me to it just yet, but I  
16 think that's kind of our target. At least if we say  
17 that out loud, that is our goal we'll be striving  
18 towards. So please do take us seriously.

19           This e-mail address that she shared is in the  
20 back on the piece of paper, so if you're not like me  
21 and you're not an audio learner, but if you get that  
22 piece of paper, that has the e-mail address.

23           We're also going to take to heart some of the  
24 comments about maybe having meetings in other areas  
25 too to try to reach and contact with as many people

Listening Session

1 as possible.

2           And just thank you so very much and thank you  
3 for really kind of sitting down, taking this  
4 seriously. And we view this as a beginning of a very  
5 successful dialogue. I think we're very like-minded  
6 with several of you that talked about that you think  
7 there is a way to solve this and it could be a  
8 win/win solution.

9           This really is the first time in decades that  
10 you've kind of got all of us from all of the various  
11 skill sets and various policy areas within the  
12 Department of Parks and Recreation at the highest of  
13 levels to kind of put their heads together to try to  
14 solve this and get -- to be very solution-minded on a  
15 more comprehensive approach. Thank you so much and  
16 safe travels home.

17           (Meeting concluded at 8:47 p.m.)

REPORTER'S CERTIFICATE

--oOo--

STATE OF CALIFORNIA )  
                                  )ss.  
COUNTY OF SACRAMENTO )

I, CHERYL L. KYLE, a Certified Shorthand Reporter in and for the State of California, duly commissioned and a disinterested person, certify:

That the foregoing transcript was taken before me at the time and place herein set forth;

That the statements of all parties made at the time of the proceeding were recorded stenographically by me to the best of my ability and were thereafter transcribed into typewriting;

That the foregoing transcript is a record of the statements of all parties made at the time of the proceeding.

IN WITNESS WHEREOF, I subscribe my name on this 16th day of January, 2018.

Cheryl L. Kyle, CSR No. 7014  
Certified Shorthand Reporter  
In and for the  
County of Sacramento,
