OFF-HIGHWAY VEHICLE LAW ENFORCEMENT INFORMATION
This publication was developed by the California Department of Parks and Recreation, Off-Highway Motor Vehicle Recreation Division, in cooperation with the United States Forest Service and the Bureau of Land Management in an effort to promote consistent application of Off-Highway Vehicle laws throughout the State of California. The contents of this booklet are summaries of law and are not intended to be construed as complete or precise interpretations. For complete definitions, refer to the abridged or unabridged codes.

* The CA Exempt decal produced by the OHMVR Division is intended for use on OHVs owned by governmental agencies in California. The decal is not a form of identification, is not numbered, and cannot be traced or tied to a specific OHV VIN. It carries no monetary value.
§38001 - Division 16.5 – OFF-HIGHWAY VEHICLES (OHV)

- Upon lands other than a highway that are open and accessible to the public.

Except:

stå Privately-owned and maintained parking facilities (unless by ordinance), or
stå Private lands under the immediate control of the owner of his or her agent, where permission is required and has been granted to operate a motor vehicle.

- For purposes of Division 16.5, the term “highway” does not include fire trails, logging roads, service roads regardless of surface composition, or other roughly graded trails and roads upon which vehicular travel by the public is permitted.

§38006(b) A motor vehicle registered under §4000, when operated on land to which Division 16.5 has application, is an "off-highway motor vehicle." See OHV Equipment Requirements.

**CA Green Sticker:** Unrestricted OHV identification plate issued by DMV to all pre-2003 model year, and 2003 model-year and later OHVs with “50 state” CARB certification for New Off-Highway Recreational Vehicle Engine Emissions Standards (T13 CCR §2412), first adopted for 1997 and later models.
**CA Red Sticker:** Restricted OHV identification plate issued to 2003 and later model-year off-highway motorcycles and ATVs that do not meet CARB emissions standards. Red Sticker identification is not issued to UTVs, ROVs, buggies, carts, or specially constructed vehicles. (Riding Season information on page 28)

- “3” or “C” in the 8th digit of the VIN confirms **noncompliant status.** Model-year = 10th
- “U.S. EPA” only on Emissions Information Label confirms “49 state” California "non-compliance"
- Vehicles manufactured for competition use are generally exempted from emissions labeling, so the absence of emissions information can also indicate compliance status

**I 38020** Operate 2003 or later **Red Sticker** motorcycle or ATV outside of open season (Violation of T13 CCR §2412(f) and §2415). See Emissions Violations on page 27.

**Special Antitheft Laws**

**M 10750(a)** Alter, deface or replace vehicle identification number (VIN)

**M 10751(a)** Knowingly possess, sell or offer vehicle/parts with altered VIN

**F 10802** Alter, obliterate, deface, or forge VIN
Dealer Demo Permits

I 38020 OHV ID required for each OHV (dealer permit exempt to Red Sticker)
R 38021 (a) Dealer Special Permit – one per vehicle (b) dealer plate may be used for OHV
R 38087 DMV authorized to issue OHV Dealer Demo permits/plates
I 38390 Dealer demo NOT exempt from Green Sticker emissions regulations
I 38391 Dealer sell or offer for sale OHV emissions tampering equipment

Dealer Special Plates

M 11713(j) Misuse of dealer special plates – not permitted in §11715
R 11715(a) One vehicle per special plate issued; may be used for OHV (§38021)
M 11715(f) Registration card or copy for special plates must be kept with vehicle

Passenger Vehicle ID Manual from NICB (www.nicb.org/vinmanuals)
Nonresident OHV Registration

Visitors from out-of-state may comply with CVC §38020 for all vehicles in their immediate possession with valid identification or registration permits from their state of residence. (§38010(b)(10))

The Arizona “RV” Title Plate is evidence of a title of ownership for vehicles manufactured for off-highway use. This plate is NOT registration or a street license. (Not okay in California without Decal.)

The Arizona State Parks’ OHV Decal is valid evidence of OHV Identification, when displayed on the “RV” title plate. This decal is issued to off-highway vehicles and should not be confused with highway license/registration. (Okay in California.)

Nevada OHV Registration includes a title of ownership which can be verified by VIN through CLETS. (Okay in California for OHV use.)
The **Oregon ATV Permit** is an operating permit and is not a title of ownership or registration. It does not represent evidence of residency or ownership. Residency of the owner/operator can be verified by a valid driver’s license. (Okay in California for OHV use.)

A current California Nonresident OHV Use Permit is valid **ONLY** for a vehicle which is not identified or registered, that is owned or operated by a nonresident. A person who holds a valid driver’s license issued by a foreign jurisdiction is presumed to be a nonresident. (§38010(b)(6))

Registration in a foreign jurisdiction by a California resident or a California-based vehicle is not valid, nor eligible for reciprocity. (§38013, §4000.4)
OHV On Highway

R 38025  A properly identified OHV may cross two-lane highway at 90 degree angle where it is safe

I 38026.5(b) **Combined Use Highway Restrictions** (can be referenced or cited)
   (1) During hours of darkness
   (2) Without functioning stoplight (24603)
   (3) Rubber tires required (27501(b), T13 CCR 1082)
   (4) Valid license of the appropriate class for vehicle (12500(a) and (b))
   (5) Proof of financial responsibility required in possession (16028(a))

I 4000(a)(1) OHV using highway – NOT correctable; cannot comply §40610(b)(3)

R Except, identified OHV may be driven, moved, or left standing in public off-street parking

I 24002(b) Operate vehicle upon a highway not equipped as required in the CVC

R 12501(d) Drivers license exempt for OHV legally crossing highway (§38025)
Driver's License

R 12500  Driver's license required ONLY upon highway (suspensions applicable to OHV on public lands)

**BLM Wilderness Restriction**

6302.20(d) Using a motor vehicle without authorization
Definitions (Definitions are for general reference only & are not legal definitions.)

ATV – “All-Terrain Vehicle” (CVC §111) is an OHV suspended on three or more low pressure tires, up to 50” wide, up to 900 pounds, with a single straddle style seat (saddle) and handle bar steering control.

Closed Course – is a defined route of travel on or off a highway that is closed to all motor vehicles other than those of participants. A closed course is one which is not available at any time for vehicular access by the general public. (CVC §38314)

Closed course competition event means any organized competition event covering an enclosed, repeated or confined route intended for easy viewing of the entire route by all spectators. (CFR 40 §205.151(11))

Combined Use Highway – CVC §38026 authorizes a process for local land management authorities to designate portions of highway under their jurisdiction as open to limited use by off-highway motor vehicles in order to provide a “connecting link between” OHV facilities. Official designation involves CHP review for safety, the posting of DOT signs and is generally limited to segments no more than three miles. This process does not
preclude locally maintained non-arterial, primitive, unmaintained “roads” from being designated “other than a highway” by ordinance as “open to OHV use.”

CVC — California Vehicle Code

**Dual Registration** — California residents have the option of maintaining both highway registration and off-highway identification for a single vehicle. Identification is not required for properly registered vehicles (CVC §38010), and issued plates must be displayed at all times (CVC §5200, §38170).

**Dual Sport** — A category of motorcycle which is designed for off-highway use and is intended to be “street legal”. Licensing for highway use in California requires manufacturer certification of equipment standards, including 50 State emissions.

**Electric Bicycle** — An “electric bicycle” is a bicycle equipped with fully operable pedals and an electric motor of less than 750 watts.
- A “class 1 electric bicycle,” or “low-speed pedal-assisted electric bicycle,” is equipped with a motor that provides assistance only when the rider is pedaling, and ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.
- A “class 2 electric bicycle,” or “low-speed throttle-assisted” electric bicycle, is equipped with a motor that may be used exclusively to propel the bicycle, and is not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour.
DEFINITIONS

- A “class 3 electric bicycle,” or “speed pedal-assisted electric bicycle,” is equipped with a motor that provides assistance only when the rider is pedaling, and ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour, and equipped with a speedometer.
- Electric bicycles manufactured after January 1, 2017, shall have labels permanently affixed containing the classification, top assisted speed, and motor wattage of the electric bicycle. (CVC §312.5(a) and (c))

Golf car – Not to be confused with “golf cart”, see LSV.

Golf Cart – A “golf cart” is a motor vehicle having not less than three wheels in contact with the ground, having an unladen weight less than 1,300 pounds, which is designed to be and is operated at not more than 15 miles per hour and designed to carry golf equipment and not more than two persons, including the driver (CVC §345). A golf cart is a vehicle used to play the game of golf in an area designated as a golf course, and is not used for grounds keeping and maintenance purposes (T13 CCR §2411).

Green/Red Sticker – Term for CA DMV issued OHV Identification Plates for vehicles that are not registered because they are to be used exclusively off the highways. Also referred to as “identification”, stickers are individually numbered, featuring tamper resistant adhesive backing which indicates “VOID” if removed. A title of ownership is issued and provisions of registration fraud apply (see 38100).
Highway – is a way or place of whatever nature, publicly maintained and open to the use of the public for purposes of vehicular travel. Highway includes street (CVC §360). “Highway” also includes bike paths (CVC §231.5), sidewalks (CVC §555), shoulders and other portions of the public “right-of-way” outside of the “roadway.”

LSV – A “low-speed vehicle” is a motor vehicle that has four wheels, capable of 20 to 25 mph, has a gross vehicle weight rating of less than 3,000 pounds. AKA, “neighborhood electric vehicle.” A LSV is a highway vehicle which must conform to specified lighting and equipment requirements, and is restricted to roadways up to 35 mph posted speed limit. LSV may also be referred to as a “golf car”.

Motorcycle – is a motor vehicle with a saddle and not more than three wheels in contact with the ground (CVC §400). “Motorcycle” includes “motor-driven cycle”, “motor scooter” and “off-highway motorcycle”, but excludes low-speed parking enforcement vehicles.

Motor-driven Cycle – is any motorcycle with a motor displacing less than 150cc (CVC §405). A motor-driven cycle does not include a motorized bicycle, as defined by CVC §406.

Motorized scooter – is any two-wheeled device that has handlebars, a floorboard designed to be stood upon while riding, and is powered by an electric motor or other source of propulsion, and is not a motorcycle or moped (CVC §407.5). A motorized scooter is not a motor vehicle for the purposes of registration and insurance, but a valid driver’s license is required and operation is restricted (CVC §21235).
**DEFINITIONS**

**Motor Scooter** — means a motorcycle that has a step-through architecture lower in height than the operator’s seat (49 CFR §571.123 S4).

**Moped** — A “motorized bicycle” is a motor vehicle having fully operative pedals for human propulsion and an automatic transmission and motor that produces less than 4 gross brake horsepower and a maximum speed not more than 30 mph on level ground (CVC §406). A motorized bicycle operated upon a highway is exempt from registration (CVC §4020), but must be identified by and display a special plate (CVC §5030).

**Motor vehicle** — is a vehicle that is self-propelled (CVC §415). The following are NOT motor vehicles: motorized personal assistive devices used by disabled persons, bicycles (CVC §231), and unmodified pedal-assist electric bicycles (CVC §312.5, §24016(b)).

**Muffler** — is a device designed for the purpose to receive exhaust gas from an internal combustion engine, and effective in reducing noise (CVC §425).

**MVUM** — Motor Vehicle Use Map (published by USFS specific to National Forests)

**NEV** — “neighborhood electric vehicle” see LSV.

**OHM** — Off-Highway Motorcycle

**OHV** — “off-highway motor vehicle” is a motor vehicle designed primarily for off-highway use. OHV includes highway registered vehicles when operated on lands subject to CVC §38001.
ORV – “off-road vehicle” is a term used by other states to refer to OHV

OSV – “over snow vehicle”, see “snowmobile.”

Passenger vehicle – is any motor vehicle, other than a motortruck, truck tractor, or a bus, as defined in Section 233, and used or maintained for the transportation of persons. The term “passenger vehicle” shall include a housecar (CVC §465).

Public lands – include lands held in the public trust.

Quad – slang term for ATV.

Resident – means any person who manifests an intent to live or be located in this state on more than a temporary or transient basis. Presence in the state for six months or more in any 12-month period gives rise to a rebuttable presumption of residency. The following are evidence of residency for purposes of vehicle registration: (a) Address where registered to vote. (b) Location of employment or place of business. (c) Payment of resident tuition at a public institution of higher education. (d) Attendance of dependents at a primary or secondary school. (e) Filing a homeowner’s property tax exemption. (f) Renting or leasing a home for use as a residence. (g) Declaration of residency to obtain a license or any other privilege or benefit not ordinarily extended to a nonresident. (h) Possession of a California driver’s license. (i) Other acts, occurrences, or events that indicate presence in the state is more than temporary or transient (CVC §516).
For the purposes of OHV identification, a person who holds a valid driver’s license issued by a foreign jurisdiction is presumed to be a nonresident (CVC §38010(b)(6).

Road – means any existing vehicle route established before January 1, 1979, with significant evidence of prior regular travel by vehicles subject to registration (§4000); provided, that “road” does not mean any route traversed exclusively by bicycles, motorcycles, motor-driven cycles, or off-highway motor vehicles (CVC §527). “Road” is not necessarily inclusive, nor exclusive of the term “highway”, but is not a “trail”. Something as primitive as a native surface road may be maintained by the local authority as a highway. At the same time, limited segments of road designated open to OHV operation (off-highway) may be paved due to specific maintenance needs. Refer to the local land management or maintenance authority for legal designation.

ROV – “recreational off-highway vehicle” means a motor vehicle meeting all of the following criteria: (a) Designed primarily for off-highway operation. (b) Has a steering wheel for steering control. (c) Has nonstraddle seating provided by the manufacturer for the operator and all passengers. (d) (1) Has a maximum speed capability of greater than 30 miles per hour, or (2) has been modified to do so. (e) Has an engine displacement equal to or less than 1,000cc (61 ci). (See ROV Operation on page 19)

Snowmobile – OHV designed for travel over ice or snow on skis, belts, or cleats, which is commonly referred to as an Over Snow Vehicle (CVC §557).
Spark arrester — is a device constructed of nonflammable materials specifically for the purpose of removing and retaining carbon and other flammable particles over 0.0232 of an inch in size from the exhaust flow of an internal combustion engine or which is qualified and rated by the United States Forest Service (CVC §38366(c)).

SPCN — A “specially constructed vehicle” is a vehicle which is built for private use, not for resale, and is not constructed by a licensed manufacturer or re-manufacturer. A specially constructed vehicle may be built from (1) a kit; (2) new or used, or a combination of new and used, parts; or (3) a vehicle reported for dismantling, as required by §5500 or §11520, which, when reconstructed, does not resemble the original make of the vehicle dismantled (CVC §580). A specially constructed vehicle is not a vehicle which has been repaired, restored, or resembles the original make.

Street legal — is a term commonly used to describe vehicles eligible for licensed highway use (CVC §4000). All vehicles operated upon a highway must also be properly equipped (CVC §24002) and conversion of OHVs for highway use is not legal in California.

Trail — is generally used to describe an established route of travel with access restrictions, either by legal ordinance, physical constraints or by primitive nature. A “trail” is a route 50 inches or less in width or a route over 50 inches wide that is identified and managed as a trail. (T36 CFR §212.1 National Forest System)
**UTV** – “utility terrain vehicle” means an OHV that is all of the following: (a) Designed for operation off of the highway. (b) Suspended on four tires. (c) Has a steering wheel for steering control. (d) Has one seat to accommodate a driver and one passenger sitting side by side (CVC §531). Commonly referred to as a “side-by-side”, this term is commonly used to describe vehicles similar to an ROV which have a maximum speed less than 30 mph. However, many UTVs are also ROVs due to a maximum speed greater than 30 mph (page 19).
California Vehicle Code – Electric Bicycles

21113(2)(g) A local authority may adopt rules or regulations to restrict, or specify conditions for, the use of bicycles, motorized bicycles, electric bicycles, skateboards, electrically motorized boards, and roller skates on public property under the jurisdiction of that agency.

21213(a) A person under 16 years of age shall not operate a class 3 electric bicycle.

21207.5(a) A class 3 electric bicycle is prohibited on public bicycle paths, trails, bikeways, bicycle lanes, equestrian trails, hiking trails, unless adjacent or within roadway or permitted by local authority.

21207.5(b) A local authority having jurisdiction over a bicycle path or trail, equestrian trail, or hiking or recreational trail, may prohibit, by ordinance, the operation of a class 1 or class 2 electric bicycle on that path or trail.

24016(b) A person operating an electric bicycle is not subject to the provisions of this code relating to financial responsibility, driver’s licenses, registration, and license plate requirements, and an electric bicycle is not a motor vehicle.
