§ 5001. State Park System

The Department of Parks and Recreation has control of the state park system.

§ 5001.1. “Department” and “Director”

As used in this division, “department” means the Department of Parks and Recreation and “director” means the Director of Parks and Recreation.

§ 5001.5. Reference to State Park System Deemed to be Reference to State Vehicular Recreation Area and Trail System

Whenever any reference is made to the state park system with respect to a duty, power, purpose, responsibility, or jurisdiction that can be exercised or carried out within the state vehicular recreation areas, it shall be deemed to be also a reference to, and to mean, the state vehicular recreation areas.

§ 5001.6. State seashore

(a) Notwithstanding Section 5001.95, units of the state park system may be located within, and be a part of, a state seashore. However, the unit shall be managed in accordance with its classification as provided in Section 5019.62.

(b) The following state seashores are hereby established consisting of appropriate coastal lands described in this subdivision together with any other lands that may, from time to time, be acquired by the state as an addition to these state seashores:

…

(7) San Luis Obispo State Seashore, consisting of lands extending from Cayucos to Lion's Head and including Cayucos State Beach, Morro Strand State Beach, Atascadero State Beach, Morro Bay State Park, Montana de Oro State Park, Avila State Beach, Pismo State Beach, Pismo Dunes State Vehicular Recreation Area and Point Sal State Beach, all within San Luis Obispo and Santa Barbara Counties.
§ 5001.65. Taking of Mineral Specimens for Recreational Purposes

Commercial exploitation of resources in units of the state park system is prohibited. However, slant or directional drilling for oil or gas with the intent of extracting deposits underlying the Tule Elk State Reserve in Kern County is permissible in accordance with Section 6854. Commercial fishing is permissible, unless otherwise restricted, in state marine conservation areas, state marine cultural preservation areas, and state marine recreational management areas.

Qualified institutions and individuals shall be encouraged to conduct nondestructive forms of scientific investigation within state park system units, upon receiving prior approval of the director.

The taking of mineral specimens for recreational purposes from state beaches, state recreation areas, or state vehicular recreation areas is permitted upon receiving prior approval of the director.

§ 5001.8. Use of Motor Vehicles in Units of the State Park System

(a) The use of motor vehicles in units of the state park system is subject to the following limitations:

   (1) In state wildernesses, natural preserves, and cultural preserves, use is prohibited.

   (2) In state parks, state reserves, state beaches, wayside campgrounds, and historical units, use is confined to paved areas and other areas specifically designated and maintained for normal ingress, egress, and parking.

   (3) In state recreation areas, use is confined to specifically designated and maintained roads and trails.

(b) The use of motor vehicles on lands in the state vehicular recreation areas is confined to areas and routes designated for that purpose.

§ 5001.96. Attendance limits

Attendance at state park system units shall be held within limits established by carrying capacity determined in accordance with Section 5019.5.

§ 5002.1. State Park System Unit Inventory

Prior to the classification or reclassification of a unit of the state park system into any of the categories specified in Article 1.7 (commencing with Section 5019.50) of this chapter, the department shall prepare an inventory of the unit’s scenic, natural, and cultural features,
including, but not limited to, ecological, archaeological, historical, and geological features. The inventory shall be submitted by the department to the State Park and Recreation Commission for its consideration when classifying or reclassifying a unit.

§ 5002.2. General Plan Preparation or Revision

(a) Following classification or reclassification of a unit by the State Park and Recreation Commission, and prior to the development of any new facilities in any previously classified unit, the department shall prepare a general plan or revise any existing plan, as the case may be, for the unit. The general plan shall consist of elements that will evaluate and define the proposed land uses, facilities, concessions, operation of the unit, any environmental impacts, and the management of resources, and shall serve as a guide for the future development, management, and operation of the unit.

The general plan constitutes a report on a project for the purposes of Section 21100. The general plan for a unit shall be submitted by the department to the State Park and Recreation Commission for approval.

(b) The resource element of the general plan shall evaluate the unit as a constituent of an ecological region and as a distinct ecological entity, based upon historical and ecological research of plant-animal and soil-geological relationships and shall contain a declaration of purpose, setting forth specific long-range management objectives for the unit consistent with the unit’s classification pursuant to Article 1.7 (commencing with Section 5019.50), and a declaration of resource management policy, setting forth the precise actions and limitations required for the achievement of the objectives established in the declaration of purpose.

(c) Notwithstanding the requirements of subdivision (a), the department is not required to prepare a general plan for a unit that has no general plan or to revise an existing plan, as the case may be, if the only development contemplated by the department consists of the repair, replacement, or rehabilitation of an existing facility; the construction of a temporary facility, so long as such construction does not result in the permanent commitment of a resource of the unit; any undertaking necessary for the protection of public health or safety; or any emergency measure necessary for the immediate protection of natural or cultural resources; or any combination thereof at a single unit. Any development is subject to the requirements of the California Environmental Quality Act (Division 13 (commencing with Section 21000)).

(d) Any general plan approved prior to July 1, 1972, may be used as the basis for development if the director finds that there has been no significant change in the resources of the unit since approval of the plan and that the plan is compatible with current policies governing development of the unit and the classification of the unit.
(e) Consistent with good planning and sound resource management, the department shall, in discharging its responsibilities under this section, attempt to make units of the state park system accessible and usable by the general public at the earliest opportunity.

(f) The department may prepare a general plan which includes more than one unit of the state park system for units which are in close proximity to one another and which have similar resources and recreational opportunities if that action will facilitate the protection of public resources and public access to units of the state park system.

§ 5002.3. Public Hearing Required

A public hearing shall be scheduled by the State Park and Recreation Commission to consider each matter of classification or reclassification of a unit and of approval of the department’s general plan for a unit. Notice of the hearing shall be posted in plain sight at one or more places within the affected unit, published in one or more newspapers of general circulation in each county within which the affected unit is located, and mailed to every person who has filed a request for notice of the hearing with the commission. If the notice of hearing is published in a weekly newspaper, it shall appear therein on at least two different days of publication; and if in a newspaper published more often, there shall be at least five days from the first to the last day of publication, both days included. The content of the notice of hearing shall substantially comply with the requirements of Section 11346.5 of the Government Code.

Copies of the department’s inventory of features, in the case of a hearing on classification or reclassification, or copies of the department’s general plan, in the case of a hearing on approval of the plans, shall be made available to the public at the department’s appropriate regional and district offices on the last date of publication of the notice.

The hearing shall be held by the commission in, or within a radius of 100 miles of, the City of San Diego, Los Angeles, San Francisco, San Bernardino, Eureka, Redding, Fresno, Ukiah, Monterey, San Luis Obispo, Santa Barbara, or Sacramento, whichever is closest to the unit affected, not less than 30 days, nor more than 60 days, after the last date of publication of the notice. The hearing shall be conducted in the manner specified in Section 11346.8 of the Government Code. The vote of each individual member of the commission on each matter of classification or reclassification and of approval of the department’s general plan shall be recorded when the final decision of the commission is announced.

§ 5002.4. Legislative Requests

The department shall furnish a copy of the general plan for any unit of the state park system for which a plan has been prepared to any Member of the Legislature, upon request.
§ 5003.02.1. Pismo Beach State Park; Grover Beach Lodge

(a) The Legislature hereby finds and declares that the department and the City of Grover Beach, in a joint project, are in the process of entering into an operating agreement for the purpose of negotiating a concession contract for the development of extensive new facilities at Pismo Beach State Park, and that the standard, 20-year term is insufficient to enable the concessionaire to amortize the type and scale of improvements that the department and the city will require the concessionaire to make.

(b) The Legislature further finds and declares that approval of commercial development at Pismo Beach State Park does not provide precedent for commercial development in other units of the state park system and is a one-time exception to Sections 5019.53 and 5080.03 by reason of the following circumstances:

1. The general plan for the state park provides for the project.
2. The site is located on the perimeter of the state park and adjacent to State Route 1.
3. The development will not impact the resources or the public's use of the state park.
4. The land proposed to be developed is suitable for commercial development.

(c) Pursuant to subdivision (a) of Section 5080.18, the term of the concession contract entered into by the department and the City of Grover Beach with a concessionaire for the development of new facilities at Pismo Beach State Park may be for a period not to exceed 50 years if the contract also provides that the rent be reviewed and adjusted at least every five years to reflect market rates and economic conditions prevailing in the area in which the concession is located.

(d) No contract subject to this section may be advertised for bid, negotiated, renegotiated, or amended in any material respect unless the Legislature reviews and approves the proposed contract in the annual Budget Act.

§ 5003.15. Disposition of Proceeds of Sale of Property Originally Acquired for State Park Purposes

The net proceeds of any sale made on behalf of the department pursuant to Section 11011 of the Government Code of any real property originally acquired for state park purposes, regardless of whether that real property is under the jurisdiction of the department, shall be deposited in the fund which was the original source for the acquisition of the property and shall be available for appropriation for the further extension, improvement, or development of the state park system in accordance with the law governing that fund. If the fund of origin is not in existence, or if the original source for the acquisition was funds from the federal government for park purposes or a donation of real property, the net
proceeds shall be deposited in the State Parks and Recreation Fund and shall be available for appropriation for the further extension, improvement, or development of the state park system. If the real property was originally acquired with moneys appropriated from the General Fund, the net proceeds shall be deposited in the unappropriated surplus of the General Fund.

This section does not apply to the sale of any real property in the state vehicular recreation areas.

§ 5003.4. Parking Facilities for Recreational Vehicles and Installation of Camping Cabins

There shall be provided in each state park in which camping is permitted those parking facilities for recreational vehicles, as defined by Section 18010 of the Health and Safety Code, that can be accommodated within the park consistent with the objective of providing camping facilities for the public in these parks. In addition, the Department of Parks and Recreation may install or permit the installation of camping cabins, as defined by Section 18862.5 of the Health and Safety Code, within the units of the state park system if installation of camping cabins is consistent with the general plan of the unit.

§ 5006. Acquisition of Real Property

(a) The department, with the consent of the Department of Finance, and subject to Section 15853 of the Government Code, may acquire title to or any interest in real property, including personal property incidental to the purchase of real property and options to purchase property, which the department deems necessary or proper for the extension, improvement, or development of the state park system. All real and personal property acquired by the department for the state park system shall be under the jurisdiction of the department immediately upon transfer of title to the state.

(b) (1) The department, pursuant to paragraph (1) of subdivision (d) of Section 15853 of the Government Code, may appraise and select real property for the purpose of acquiring an option to purchase the real property for the state park system. The department may utilize the services of the Real Estate Services Division of the Department of General Services or may contract with independent appraisers appropriately certified by the Office of Real Estate Appraisers, to assist in appraising property.

(2) The department, pursuant to paragraph (1) of subdivision (d) of Section 15853 of the Government Code, may appraise and select real property for potential acquisition of, and addition to, the state park system. The department may utilize the services of the Real Estate Services Division of the Department of General Services or may contract with independent appraisers appropriately certified by the Office of Real Estate Appraisers, to assist in appraising the property. Prior to appraising the property, the Department of Parks and...
Recreation shall notify the owners of the real property that the department is considering the real property for acquisition, and may have it appraised. The department shall determine the form and manner of giving the notice.

(3) The department, pursuant to paragraph (1) of subdivision (d) of Section 15853 of the Government Code, may select real property it has appraised and submit purchase offers and negotiate a purchase agreement with the owner or owners of the property. The department shall be responsible for implementing and processing the purchase agreement and conveyance of title to the state. The department may utilize the services of the Real Estate Services Division of the Department of General Services, or may contract with other state agencies with real estate and right-of-way acquisition programs, to assist in negotiating purchase agreements and conveyance of title.

(c) Upon acquisition of real property for the state park system, the department shall be responsible for providing relocation assistance to displaced persons as provided under Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code. The department may utilize the services of the Real Estate Services Division of the Department of General Services, or may contract with other state agencies or private consultants with real estate and right-of-way acquisition programs, to assist in relocation planning and implementation.

(d) (1) Requests for funding to administer the department’s acquisition program shall be submitted by the department for inclusion in the Governor’s Budget for each fiscal year.

(2) Requests for funding to acquire options to purchase real and personal property for the state park system shall be submitted by the department for inclusion in the Governor’s Budget for each fiscal year based upon its estimate of the amount needed for that purpose. If an option to purchase real property for the state park system has been acquired, the funding proposed by the department shall be the appraised value of the property less the sum expended for the purchase of the option. The expenditure of the moneys shall be subject to the limitation specified in paragraph (1) of subdivision (d) of Section 15853 of the Government Code unless otherwise provided by the Legislature.

(3) Requests for funding to acquire real property or any interest in real property shall be submitted by the department for inclusion in the Governor’s Budget for each fiscal year. The projects shall have been selected and appraised by the department pursuant to subdivision (b) prior to inclusion. The Governor’s Budget shall contain a separate description of each project, or acquisition program and its appraised value, or funding allocation.

(e) The requirements imposed by subdivision (d) are in addition to any other provisions of law requiring the inclusion of state park system acquisition projects in the Governor’s Budget.
(f) The department shall not enter into any purchase agreements for the acquisition of real property if the consideration to be paid by the department is in excess of five hundred thousand dollars ($500,000), unless Section 5006.1 has been complied with.

(g) Notwithstanding any other provision of law, all appraisals conducted by the department pursuant to this section shall be reviewed and approved by the Department of General Services or, at the discretion of the Department of General Services, a competent professional appraiser approved by the Department of General Services. Real property shall be appraised and appraisal review completed before commencement of purchasing negotiations. All contracts related to the acquisition of real property shall be reviewed and approved by the Department of General Services pursuant to Section 11005 of the Government Code.

§ 5006.1. Acquisition of Real Property in Excess of $5 Million

(a) (1) Prior to submitting a proposal pursuant to subdivision (f) of Section 5006, for an appropriation for the acquisition of real property in excess of five million dollars ($5,000,000) in value for any state park system project, the department shall hold a public hearing within the county in which the proposed project is located at which interested members of the public may comment on the proposed project. Notice of the hearing shall be published at least twice in a newspaper of general circulation within that county.

(2) (A) The department shall provide written notice of its intent to acquire the real property to the city or county, or both, having jurisdiction over the property, to the members of the Legislature who are the chair and vice chair of the joint legislative budget committee, the chair of the budget subcommittee in each house having jurisdiction over resources, the chair in each house of the appropriate legislative policy committee, and the legislators within whose district the property proposed for acquisition is located, as early as possible in the acquisition process, but not less than 90 days from the date of acquisition. Within 30 days of receiving written notice of the proposed acquisition, a member of the city council or board of supervisors of the respective city or county, or a Member of the Legislature who has been notified pursuant to this subparagraph, may request that the department hold a public hearing regarding the acquisition of the property, if the acquisition is between five hundred thousand dollars ($500,000) and five million dollars ($5,000,000).

(b) With respect to real property in excess of five million dollars ($5,000,000) that is not proposed to be acquired pursuant to subdivision (f) of Section 5006, the department
shall hold a public hearing within the county in which the real property is located, at which interested members of the public may comment on the proposed acquisition. Notice of the hearing shall be published at least twice in a newspaper of general circulation within the county. The department shall provide written notice of its intent to acquire the real property to the city or county, or both, having jurisdiction over the property, as early as possible in the acquisition process.

(c) This section does not apply to any real property to be acquired by grant, gift, devise, or bequest.

§ 5006.4. Hollister; Acquisition for OHV Recreation

(a) The department may acquire, on behalf of the state, a fee or lesser interest in real and personal property located near Hollister in San Benito County for the state park system. If the property is leased, the lease shall be for such term and for such consideration as is mutually agreed upon by and between the director and the lessor, and with the rental to be paid by the department. Any interest acquired pursuant to this section shall be subject to the provisions of the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code). With respect to lands subject to the grantor's reservation of oil and gas and mineral rights, the proviso contained in Section 5019 shall not apply.

Areas for the recreational use of off-highway vehicles shall be administered pursuant to Chapter 1.25 (commencing with Section 5090.01).

Areas for the recreational use of off-highway vehicles shall be administered pursuant to Chapter 1.25 (commencing with Section 5090.01).

Any fees, rentals, or other returns collected by the department in its administration of the unit shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund.
§ 5006.45. Ocotillo Wells; Acquisition; Oil and Mineral Rights; Administration

If the property is leased, the lease shall be for such term and for such consideration as is mutually agreed upon by and between the Director of General Services and the lessor, and with the rental to be paid by the Department of Parks and Recreation.

(b) Prior to making any acquisition:

(1) The Director of Parks and Recreation shall recommend to the State Park and Recreation Commission his designation of lands presently owned by the department to be included in the vehicular recreation area provided in subdivision (d), and no acquisition may be made unless and until the commission has concurred in that designation.

(2) The director shall conduct at least one public hearing in San Diego County regarding the designation of lands presently owned by the department to be included in the vehicular recreation area. The director shall consider and be guided by testimony presented at the hearing.

(c) Any interest acquired pursuant to this section shall be subject to the provisions of the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code). (e) Any fees, rentals, or other returns collected by the department in its administration of the unit shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund.

(f) The Director of Parks and Recreation shall review, and report annually to the State Park and Recreation Commission regarding, the development, maintenance, administration, and public usage of the vehicular recreation area and its success, effects on the environment, and appropriateness as a unit of the state park system.

At any time after the option expires, the Director of General Services may offer, under competitive bidding procedures, all or part of the property for lease if the Director of Parks and Recreation determines at that time it is not then needed for the purposes of the state park system and will not be needed for the term of the lease to be offered. Any lease entered into pursuant to this section shall be subject to Section 15862 of the Government Code. Notwithstanding the provisions of Section 15863 of the Government Code, all rent accruing from any such lease after jurisdiction over the property is transferred to the Department of Parks and Recreation pursuant to subdivision (c) shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 5090.61.

(b) Any interest in property acquired pursuant to this section shall be subject to the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code).

(c) Upon acquisition of the property, the Director of General Services shall transfer jurisdiction over the property to the Department of Parks and Recreation, which shall administer the property as a unit of the state park system. The Department of Parks and Recreation shall carry out a program in that unit of planning, development, construction, maintenance, administration, and conservation of trails and areas for the
recreational use of off-highway vehicles and for other related purposes of the state park system. Areas for the recreational use of off-highway vehicles shall be administered pursuant to Chapter 1.25 (commencing with Section 5090.01).

(d) The Director of General Services may offer, under competitive bidding procedures, all or part of the property for lease if the Director of Parks and Recreation determines at that time it is not then needed for the purposes of the state park system and will not be needed for the term of the lease to be offered. Any lease entered into pursuant to this section shall be subject to Section 15862 of the Government Code. Notwithstanding Section 15863 of the Government Code, all rent accruing from that lease after jurisdiction over the property is transferred to the Department of Parks and Recreation pursuant to subdivision (c) shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 5090.61.

(e) Any fees or other returns collected by the Department of Parks and Recreation in its administration of the unit referred to in subdivision (c) shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 5090.61.

§ 5007. Park Closures

(a) It is the intent of the Legislature that the department consistently operate the state park system to preserve public access and provide protection of natural, cultural, and historic resources. If budget reductions necessitate changes to the continued operation of state park units, it is the intent of the Legislature that the department achieve any required budget reductions by implementing efficiencies and increasing revenue collection, or reducing services at selected units of the state park system, and that full park closures only be considered as a last option to address required budget reductions after all other feasible alternatives, including, but not limited to, entering into operating agreements with qualified nonprofit entities and local governments have been explored.

(b) For any park unit proposed for closure on or after July 1, 2014, the department shall document and publicly disclose the methodology, rationale, and scoring system used to evaluate and select park units proposed for closure, and shall select any units proposed to be closed based on consideration of all of the following factors:

(1) The relative statewide significance of each park unit, preserving to the extent possible, parks identified in the department’s documents including “Outstanding and Representative Parks,” the “California State History Plan,” and the “California State Parks Survey of 1928.”

(2) The rate of visitation to each unit, to minimize impacts to visitation in the state park system. Visitation shall be measured not only based on the raw
number of visitations to the unit, but also to the extent that the total capacity of the unit is used.

(3) (A) The estimated net savings from closing each unit, to maximize savings to the state park system.

(B) For purposes of this subdivision, “net savings” means the estimated costs of operation for the unit less the unit’s projected revenues and less the costs of maintaining the unit after it is closed.

(4) The feasibility of physically closing each unit.

(5) The existence of, or potential for, partnerships that can help support each unit, including public and nonprofit partners and concessions.

(6) Significant operational efficiencies to be gained by closing a unit.

(7) Significant and costly infrastructure deficiencies affecting key systems at each unit so that continued operation of the unit is less cost effective relative to other units.

(8) Recent or funded infrastructure investments at a unit.

(9) Necessary but unfunded capital investments at a unit.

(10) Deed restrictions and grant requirements applicable to each unit.

(11) The extent to which there are substantial dedicated funds for the support of the unit that are not appropriated from the General Fund.

(12) The extent to which the closure of a park unit would disproportionately impact one community or region of the state over another, based on existing information readily available to the department. Nothing in this paragraph is intended to require the department to prepare, or contract for the preparation of, new studies or research to obtain information or analysis not already readily available to the department with existing resources.

(13) The extent to which the closure of a park unit would limit availability of facilities within state parks that are compliant with the Americans with Disabilities Act of 1990 and subsequent amendments to the act.

(14) The extent to which closure of a park unit would impair firefighter access to water resources or otherwise increase fire risk.

(15) The extent to which closure of a park unit would increase public safety hazards or impair the state’s ability to protect iconic natural and historical resources.
(c) The commission shall hold a public hearing on any park unit closures that are proposed by the department on or after July 1, 2014, and information gathered at the hearing shall be considered by the department before any final decision regarding the proposed closure of a park unit.

(d) Notwithstanding Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, a public entity or a public employee is not liable for injury or damage caused by a condition of public property located in, or injury or damage otherwise occurring in, or arising out of an activity in, a state park system unit that is designated as closed by the department pursuant to subdivision (a), except for conduct that constitutes gross negligence or is wanton or reckless. This immunity shall apply notwithstanding the fact that the public has access, whether invited or uninvited, to the state park system unit, and notwithstanding that the department may take actions such as patrols, inspections, maintenance, and repairs necessary to protect the state park system unit facilities and resources from deterioration, damage, or destruction. This immunity shall apply only to units of the state park system that are designated as closed pursuant to subdivision (a) and shall not apply to units that are partially closed or subject to service reductions but not closure. The closed units shall be maintained in a list by the department and the list shall be made publicly available and posted on the department's Internet Web site. The list shall include the date the unit is considered closed. The immunity provided by this subdivision does not limit any other immunity or immunities available to a public entity or a public employee. The governmental immunity provided in this section does not apply to a third party or entity that has reopened a park listed as closed pursuant to subdivision (a). The immunity shall continue to apply to the state.

§ 5008. Protect the State Park System and the SVRA and Trail System from Damage; Preserve Peace

(a) The department shall protect the state park system and the state vehicular recreation area and trail system from damage and preserve the peace therein.

(b) The director may designate any officer or employee of the department as a peace officer. The primary duties of the peace officer shall be the enforcement of this division, Sections 4442 and 4442.5, the rules and regulations of the department,
Chapter 5 (commencing with Section 650) of Division 3 of the Harbors and Navigation Code, the rules and regulations of the Department of Boating and Waterways, Chapter 2 (commencing with Section 9850) of Division 3.5 of the Vehicle Code, and Division 16.5 (commencing with Section 38000) of the Vehicle Code and to arrest persons for the commission of public offenses within the property under its jurisdiction. The authority and powers of the peace officer shall be limited to those conferred by law upon peace officers listed in Section 830.2 of the Penal Code.

(c) The department shall protect property included in the California recreational trail system and the property included in the recreational trail system under Section 6 of Chapter 1234 of the Statutes of 1980 from damage and preserve the peace therein. The primary duties of any officer or employee designated a peace officer under this section shall include enforcement of the rules and regulations established by the department under subdivision (l) of Section 6 of Chapter 1234 of the Statutes of 1980 and the arrest of persons for the commission of public offenses within the property included in the recreational trail system under Section 6 of Chapter 1234 of the Statutes of 1980.

(d) Any person who violates the rules and regulations established by the department is guilty of a misdemeanor and upon conviction shall be punished by imprisonment in the county jail not exceeding 90 days, or by a fine not exceeding one thousand dollars ($1,000), or by both that fine and imprisonment, except that at the time a particular action is commenced, the judge may, considering the recommendation of the prosecuting attorney, reduce the charged offense from a misdemeanor to an infraction. Any person convicted of the offense after such a reduction shall be punished by a fine of not less than ten dollars ($10) nor more than one thousand dollars ($1,000).

§ 5008.1. Bringing Animals to a State Park Unit

(a) When it is determined by the director to be in the public interest, and subject to the fees, rules, and regulations of the department, visitors to units of the state park system may bring animals into those units.

(b) Any animal brought into a state park system unit pursuant to subdivision (a) shall be under the immediate control of the visitor or shall be confined, and under no circumstance shall the animal be permitted to do any of the following:

(1) Pose a threat to public safety and welfare.

(2) Create a public nuisance.

(3) Pose a threat to the natural or cultural resources of the unit or to the improvements at the unit.
(c) The department may require a person bringing an animal into a state park system unit pursuant to subdivision (a) to provide proof of appropriate immunizations and valid licenses.

(d) This section does not apply to dogs used to lawfully pursue game in season at units of the state park system where hunting is allowed.

§ 5008.2. Capture of Animals Not Confined or Under Immediate Control of Person

(a) Peace officers and other designated employees of the department may capture any animal (1) which is not confined or under the immediate control of a person visiting the unit, (2) which poses a threat to public safety and welfare, to the natural or cultural resources of the unit, or to the improvements at the unit, or (3) which is a public nuisance.

(b) Peace officers may dispatch any animal which poses an immediate or continuing threat (1) to public safety and welfare or (2) to wildlife at the unit.

(c) Owners of animals with identification that have been captured or dispatched pursuant to this section shall be notified within 72 hours after capture or dispatch.

(d) This section does not apply to dogs used to lawfully pursue game in season at units of the State Park System where hunting is permitted.

(e) The authority conferred by this section on peace officers or designated employees of the department may only be exercised on or about property owned, operated, controlled, or administered by the department.

§ 5010. Collection and Disposition of Fees, Rentals, and Other Returns; Transfer of Balances to State Parks and Recreation Fund

(a) The department may collect fees, rents, and other returns for the use of any state park system area, the amounts to be determined by the department. The department may accept a credit card as a method of payment for fees collected through the department’s reservation system. Any contract executed by the department with credit card issuers or draft purchasers shall be consistent with Section 6159 of the Government Code. Notwithstanding Title 1.3 (commencing with Section 1747) of Part 4 of Division 3 of the Civil Code, the department may impose a surcharge in an amount to cover the cost of providing the reservation service, including reimbursement for any fee or discount charged by the credit card issuer.

(b) All revenues received by the department during each fiscal year shall be paid into the State Treasury to the credit of the State Parks and Recreation Fund, which is hereby created.
(c) Notwithstanding subdivision (b), all revenues received by the department from the state vehicular recreation areas shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Trust Fund, as required by Section 38225 of the Vehicle Code.

[Subsections (d) through (i) were omitted as irrelevant to OHVs]

§ 5011.5. Veteran of a War Shall be Issued a State Park System Pass

(a) A veteran of a war in which the United States has been, or may be engaged, who is a resident of this state, upon presentation to the department of proof of disability, proof of being held captive as a prisoner of war, or proof of being a recipient of a Congressional Medal of Honor, and proof of an honorable discharge from service, upon application therefor, shall be issued a pass entitling the bearer to the use of all facilities, including boat launching facilities, in units of the state park system.

(b) As used in this section:

(1) “Veteran” means a former member of the Armed Forces of the United States who has a 50 percent or greater service-connected disability, or who was held as a prisoner of war by forces hostile to the United States, as certified by the United States Department of Veterans Affairs, and who was honorably discharged from service.

(2) “War” means that period of time commencing when Congress declares war or when the Armed Forces of the United States are engaged in active military operations against a foreign power, whether or not war has been formally declared, and ending upon the termination of hostilities as proclaimed by the President of the United States.

§ 5011.6. Reduced Fee or Free Day Use Pass at Any State Park Unit on Memorial Day and Veterans Day for Military Personnel

The department may offer a reduced fee or free day use of any unit of the state park that is operated by the state and accessible with a vehicle day use annual pass, as those parks are listed on the department’s Internet Web site, to a veteran, as defined in Section 980 of the Military and Veterans Code, or active duty or reserve military personnel for the United States Armed Forces or the National Guard of any state, on Memorial Day and Veterans Day if the veteran can provide proof of current military identification, or proof of discharge under conditions other than dishonorable or bad conduct, or the active duty or reserve military personnel of the Armed Forces or the National Guard can provide current military identification.
§ 5016.2. Ocotillo Wells North; Freeman Property Acquisition; CEQA

(a) Notwithstanding any other law, the Department of Parks and Recreation may enter into an agreement for the acquisition of the “Freeman Property,” as identified in subdivision (d). The acquisition of the “Freeman Property” pursuant to this authorization and identified in this map is exempt from the California Environmental Quality Act (CEQA) (Division 13 (commencing with Section 21000)).

(b) The exemption under subdivision (a) does not apply to any general plan that is required for the management of the “Freeman Property,” or any portion thereof, pursuant to Section 5002.2, or to any subsequent project approved for the “Freeman Property,” or any portion thereof.

(c) The acquisition of the “Freeman Property” by the department is subject to all of the following conditions:

1. The boundary between the Anza-Borrego Desert State Park and the Ocotillo Wells State Vehicular Recreation Area shall be in substantial conformance to the dividing line among Sections 8, 9, 10, 11, 19, and 20, of Township 10 South, Range 09 East, S.B.B.M., as identified on the map.

2. Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 17, 18, 19, and 20, of Township 10 South, Range 09 East, S.B.B.M., as identified on the map above the dividing line, shall be annexed to the Anza-Borrego Desert State Park upon completion of transfer of title to the department.

3. Sections 9, 10, 11, 14, 15, 16, 19, 20, 21, 22, 23, 26, 27, 28, 29, 30, 31, 32, 33, 34, and 35, of Township 10 South, Range 09 East, S.B.B.M., as identified on the map below the dividing line, shall be annexed to the Ocotillo Wells State Vehicular Recreation Area upon completion of transfer of title to the department.

(d) The following map describes the “Freeman Property.”

NOTICE OF INCOMPLETE TEXT: The Freeman Property map appears in the hard-copy publication of the chaptered bill.

See Sec. 11 of Chapter 718, Statutes of 2010.
§ 5019.5. Carrying Capacity Survey

Before any park or recreational area developmental plan is made, the department shall cause to be made a land carrying capacity survey of the proposed park or recreational area, including in such survey such factors as soil, moisture, and natural cover.

CHAPTER 1.2. Operation and Management of State Park System Properties

ARTICLE 1. Concessions

§ 5080.02. Concession Contracts; Board, Commission, Contract

As used in this article, the following terms shall have the following meanings:

(a) "Board" means the State Public Works Board.

(b) "Commission" means the State Park and Recreation Commission.

(c) "Contract" means a contract for the construction, maintenance, and operation of a concession.

§ 5080.03. Concession Contracts; Concessions

(a) The department may enter into contracts with natural persons, corporations, partnerships, and associations for the construction, maintenance, and operation of concessions within units of the state park system for the safety and convenience of the general public in the use and enjoyment of, and the enhancement of recreational and educational experiences at, units of the state park system.

(b) Concessions shall not be entered into solely for their revenue producing potential.

(c) With respect to any unit of the state park system for which a general development plan has been approved by the commission, any proposed concession at that unit shall be compatible with that plan.

§ 5080.05. Concession Contracts; Best Responsible Bidder

Except as provided in Section 5080.16, all contracts authorizing occupancy of any portion of the state park system for a period of more than two years shall be awarded to the best responsible bidder. “Best responsible bidder” means the bidder, as determined by specific standards established by the department, which, as determined by the department, will operate the concession (1) consistent with the contract, (2) in a manner fully compatible with, and complimentary to, the characteristics, features, and theme of
the unit in which the concession will be operated, and (3) in the best interests of the state and public.

§ 5080.06. Concession Contracts; Invitation to Bid

For any contract authorizing occupancy by the concessionaire for a period of more than two years of any portion of the state park system, the department shall prepare an invitation to bid, which shall include a summary of the terms and conditions of the concession sufficient to enable persons to bid solely on the basis of rates to be paid to the state. The invitation to bid shall specify the minimum acceptable rent, except in instances in which a minimum acceptable rent cannot be ascertained because of the novelty or uniqueness of the service or facility to be provided or in instances in which the department has determined that a better return to the state can be secured by not specifying a minimum acceptable rent. Bids shall be made only on the basis of the invitation to bid.

§ 5080.07. Concession Contracts; Public Notice to Bidders

(a) Notwithstanding the provisions of Sections 11080 and 11081 of the Government Code, public notice to bidders shall be given of all proposed contracts authorizing the occupancy of property in the state park system for a period of more than two years, as follows:

(1) The department shall advertise the notice through appropriate public media to the extent that the department determines is sufficient to provide adequate coverage.

(2) The department shall publish an advertisement for bid at least once a week for two consecutive weeks in a newspaper of general circulation in the county in which the concession is to operate and in a major daily newspaper in the closest metropolitan area.

(3) If the director determines that, in view of the type of concession involved, the public interest would be best served by the solicitation of bids from out-of-state bidders, he or she shall give such additional notice as he or she finds is best suited to attract bids from out-of-state bidders.

(b) The published notice shall state where bid forms may be obtained, the time and place for the receiving and opening of sealed bids, and shall describe, in general terms, the concession to be operated.
§ 5080.08. Concession Contracts; Questionnaires and Financial Statements

(a) The department shall require from prospective bidders answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the prospective bidder's financial ability and experience in maintaining and operating similar or related concessions or business activities. When completed, the questionnaire and financial statement shall be verified under oath by the bidder.

(b) The questionnaires and financial statements are confidential and are not open to public inspection. However, this subdivision shall not be construed to prevent reference thereto or use thereof in a civil action or a criminal prosecution by the state for a false statement contained therein.

§ 5080.09. Concession Contracts; Sealed Bids

All bids shall be presented under sealed cover.

§ 5080.10. Concession Contracts; Last Day to Submit Bids

Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received after that time.

§ 5080.11. Concession Contracts; Withdrawal of Bids

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the opening of bids, but only by written request of the withdrawal of the bid filed with the director. The request shall be signed by the bidder or by an authorized representative. The withdrawal of a bid does not prejudice the right of a bidder to file a new bid prior to the date and time set for the opening of bids.

This section does not authorize the withdrawal of any bid after the time fixed in the public notice for the opening of bids.

§ 5080.12. Concession Contracts; Opening Sealed Bids and Bid Award

On the day named in the public notice, the department shall publicly open the sealed bids. The department shall carefully study and analyze all bids and, on or after the 15th day after the bids are opened, may award the concession to the bidder then determined to be the best responsible bidder.
§ 5080.13. Concession Contracts; Execution of the Contract

If the successful bidder does not sign and deliver the contract within 30 days of receipt thereof and does not provide the state with a bond or other surety and evidence of insurance required thereunder, and on the time limit presented, the department may elect to treat that omission as a refusal to execute the contract. If the director deems it is for the best interests of the state, he or she may, on the refusal or failure of the successful bidder to execute the contract, award it to the second best responsible bidder. If the second best responsible bidder fails or refuses to execute the contract, the director may likewise award it to the third best responsible bidder.

§ 5080.14. Concession Contracts; Rejection of Bids

If the director deems that the acceptance of any bid is not for the best interests of the state, he or she may reject all bids.

§ 5080.15. Concession Contracts; No Changes to Bids Due to Mistakes

A bidder shall not be relieved of his or her bid and no change shall be made in his or her bid because of mistakes.

§ 5080.16. Concession Contracts; Negotiate or Renegotiate a Contract

If the director determines that it is for the best interests of the state, the director, upon giving notice to the State Park and Recreation Commission, may negotiate or renegotiate a contract, including terms and conditions, when one or more of the following conditions exist:

(a) The bid process as prescribed in this article has failed to produce a best responsible bidder.

(b) The negotiation or renegotiation would constitute an extension of an existing contract obtained through the process required by this article and the extended contract would provide for substantial and additional concession facilities, which would be constructed at the sole expense of the concessionaire and which are set forth in the general plan for the unit and are needed to accommodate existing or projected increased public usage.

(c) Lands in the state park system administered by the department and lands under the legal control of the prospective concessionaire are so situated that the concession is dependent upon the use of those public and private lands for the physical or economic success, or both, of the concession.
(d) Whenever a concession is desired for particular interpretive purposes in a unit of the state park system and the prospective concessionaire possesses special knowledge, experience, skills, or ability appropriate to the particular interpretive purposes.

(e) Whenever the concession has been severely and adversely impacted through no fault of the concessionaire by an unanticipated calamity, park closure, major construction, or other harmful event or action.

(f) Whenever the estimated administrative costs for the bid process exceed the projected annual net rental revenue to the state.

§ 5080.17. Concession Contracts; Contract Award

(a) Every contract awarded pursuant to the bidding requirements of this article, pursuant to the request for proposal process specified in Section 5080.23, or negotiated or renegotiated pursuant to Section 5080.16, shall be submitted to the Attorney General for approval for legal sufficiency and to the Director of General Services for approval pursuant to Section 11005.2 of the Government Code, the requirements of which are the only requirements applicable to the approval of contracts entered into pursuant to this article. The concession contract is not binding on the state until approved by the Attorney General and the Director of General Services.

(b) Notwithstanding Section 11005.2 of the Government Code and subdivision (a) of this section, the approval of a concession contract by the Director of General Services shall not be required unless the concession contract authorizes occupancy of a unit of the state park system for a period of more than one year.

§ 5080.18. Concession Contracts; Provisions

All concession contracts entered into pursuant to this article shall contain, but are not limited to, all of the following provisions:

(a) (1) The maximum term shall be 10 years, except that a term of more than 10 years may be provided if the director determines that the longer term is necessary to allow the concessionaire to amortize improvements made by the concessionaire, to facilitate the full utilization of a structure that is scheduled by the department for replacement or redevelopment, or to serve the best interests of the state. The term shall not exceed 20 years without specific authorization by statute.

(2) The maximum term shall be 50 years if the concession contract is for the construction, development, and operation of multiple-unit lodging facilities equipped with full amenities, including plumbing and electrical, that is anticipated to exceed an initial cost of one million five hundred thousand dollars ($1,500,000) in capital improvements in order to begin operation. The term for
a concession contract described in this paragraph shall not exceed 50 years without specific authorization by statute.

(3) Notwithstanding paragraph (1), a concession agreement at Will Rogers State Beach executed prior to December 31, 1997, including, but not limited to, an agreement signed pursuant to Section 25907 of the Government Code, may be extended to exceed 20 years in total length without specific authorization by statute, upon approval by the director and pursuant to a determination by the director that the longer term is necessary to allow the concessionaire to amortize improvements made by the concessionaire that are anticipated to exceed one million five hundred thousand dollars ($1,500,000) in capital improvements. Any extensions granted pursuant to this paragraph shall not be for more than 15 years.

(b) Every concessionaire shall submit to the department all sales and use tax returns.

c) Every concession shall be subject to audit by the department.

d) A performance bond shall be obtained and maintained by the concessionaire. In lieu of a bond, the concessionaire may substitute a deposit of funds acceptable to the department. Interest on the deposit shall accrue to the concessionaire.

e) The concessionaire shall obtain and maintain in force at all times a policy of liability insurance in an amount adequate for the nature and extent of public usage of the concession and naming the state as an additional insured.

(f) Any discrimination by the concessionaire or his or her agents or employees against any person because of the marital status or ancestry of that person or any characteristic listed or defined in Section 11135 of the Government Code is prohibited.

(g) To be effective, any modification of the concession contract shall be evidenced in writing.

(h) Whenever a concession contract is terminated for substantial breach, there shall be no obligation on the part of the state to purchase any improvements made by the concessionaire.

§ 5080.19. Concession Contracts; Rental Rates and Rental Terms

(a) In order to assure the best possible return from concessions, the department shall periodically survey, and obtain advice and information from professional property managers regarding, the commercial rental market for public and private properties in areas where concessions exist or are expected to be authorized and compile information therefrom, and shall use that information for the purposes of Sections 5080.06 and subdivision (b) of this section.
(b) Rent and other returns received from concessions shall reflect current commercial rental market conditions, except in instances when the director has determined that a particular service or facility needs to be furnished to the public and that service or facility cannot be furnished except at less than a fair market value rate of return to the state.

(c) Rental terms of concessions that operate seasonally shall reflect the seasonal characteristics of those concessions.

(d) Rent shall be paid on the basis of the higher of a flat monthly amount or a percentage of gross sales, except in those instances in which part of the compensation paid by a concessionaire consists of the value assigned to services performed by the concessionaire on behalf of the department and those services are of a type normally performed by departmental personnel.

§ 5080.20. Concession Contracts; Approval of Contracts

A contract, including a contract entered into on lands operated pursuant to an agreement entered into under Article 2 (commencing with Section 5080.30), that is expected to involve a total investment or estimated annual gross sales in excess of five hundred thousand dollars ($500,000), shall not be advertised for bid, negotiated, renegotiated, or amended in any material respect unless and until all of the following requirements have been complied with:

(a) The commission has reviewed the proposed services, facilities, and location of the concession and determined that they meet the requirements of Sections 5001.9 and 5080.03 and are compatible with the classification of the unit in which the concession will be operated.

(b) The Legislature has reviewed and approved the proposed concession as part of the annual budget process or the requirements of subdivision (c) have been complied with. A proposed concession shall not be submitted for review by the Legislature until the commission has made its determination pursuant to subdivision (a), unless deferring review by the Legislature would be adverse to the interests of the public, in which case the Legislature’s review may precede the commission's determination.

(c) Following enactment of the Budget Bill, the board has determined that the proposed concession could not have been presented to the Legislature for review and approval in the course of its consideration of the Budget Bill, or the proposed concession was reviewed and approved but it is necessary to revise the terms of the invitation to bid or the contract in a material respect, and that it would be adverse to the interests of the public to defer that review and approval to a time when the Legislature next considers a Budget Bill. Upon making that determination, the board may review and approve the proposed concession, or any revision thereof, after giving at least 20 days’ written notice to the Chair of the Joint Legislative Budget Committee and to the
chair of the fiscal and appropriate policy committees of its intended action. All actions taken by the board pursuant to this subdivision shall be reported to the Legislature in the next Governor's Budget.

(d) The proposed concession is accompanied with documentation sufficient to enable the Legislature, the commission, and the board, as the case may be, to ascertain whether the concession will conform to the requirements of this article and, as to the Legislature and the board, to evaluate fully all terms on which the concession is proposed to be let, including the rent and other returns anticipated to be received.

§ 5080.21. Concession Contracts; List New Concessions in Annual Statement

The department shall include in its annual statement on the concessions program a section setting forth all new concessions entered into during the preceding fiscal year, the terms of each contract, and the terms on which each concession was advertised for bid.

§ 5080.23. Concession Contracts; Best Responsible Person or Entity Submitting a Proposal

(a) Notwithstanding any other provision of this article, with respect to concession contracts entered into on and after October 1, 1994, if the director determines that it is in the best interests of the state, the director may, upon giving notice to the State Parks and Recreation Commission, in lieu of the process for awarding contracts otherwise prescribed in this article, award contracts authorizing occupancy of any portion of the state park system for a period of more than two years to the best responsible person or entity submitting a proposal for a concession contract.

(b) For any concession contract authorizing occupancy by the concessionaire for a period of more than two years of any portion of the state park system that is entered into pursuant to this section, the department shall prepare a request for proposal, which shall include the terms and conditions of the concession sufficient to enable a person or entity to submit a proposal for the operation of the concession on the basis of the best benefit to the state. Proposals shall be completed only on the basis of the request for proposal.

(c) Any concession contract entered into pursuant to this section that is expected to involve a total investment or gross sales in excess of five hundred thousand dollars ($500,000) shall comply with the requirements for entry into contract that are set forth in Section 5080.20.

(d) For purposes of this section, "best responsible person or entity submitting a proposal" means the person or entity submitting a proposal, as determined by specific standards established by the department, that will operate the concession in the best interests of the state and the public.
§ 5080.24. Concession Contracts: Pacific Grove-Asilomar Operating Corporation

(a) The department may enter into an interim agreement with the Pacific Grove-Asilomar Operating Corporation on the same basis as the cancelled contract, except that it shall be modified as specified by subdivisions (b) to (e), inclusive, until the department awards a contract pursuant to Section 5080.25.

(b) Any interim agreement pursuant to subdivision (a) shall provide that the amount of compensation received by the general manager of the Pacific Grove-Asilomar Operating Corporation shall be subject to determination by the Legislature in the annual Budget Act.

(c) Any interim agreement pursuant to subdivision (a) shall require the Pacific Grove-Asilomar Operating Corporation to continue to set rates and to take reservations for dates beyond the date for which the interim agreement is operative.

CHAPTER 1.25. Off-Highway Motor Vehicle Recreation

ARTICLE 1. General Provisions

[OHV Program Provisions]

§ 5090.01. Citation of Act

   (1) Off-highway motor vehicles are enjoying an ever-increasing popularity in California.

   (2) Off-highway recreation includes both motorized recreation and motorized off-highway access to nonmotorized recreation activities.

   (3) The indiscriminate and uncontrolled use of those vehicles may have a deleterious impact on the environment, wildlife habitats, native wildlife, and native flora.

(b) The Legislature hereby declares that effectively managed areas and adequate facilities for the use of off-highway vehicles and conservation and enforcement are essential for ecologically balanced recreation.

(c) Accordingly, it is the intent of the Legislature that:

   (1) Existing off-highway motor vehicle recreational areas, facilities, and opportunities should be expanded and managed in a manner consistent with this chapter, in particular to maintain sustained long-term use.

   (2) New off-highway motor vehicle recreational areas, facilities, and opportunities should be provided and managed pursuant to this chapter in a manner that will sustain long-term use.

   (3) The department should support both motorized recreation and motorized off-highway access to nonmotorized recreation.

   (4) When areas or trails or portions thereof cannot be maintained to appropriate established standards for sustained long-term use, they should be closed to use and repaired, to prevent accelerated erosion. Those areas should remain closed
until they can be managed within the soil conservation standard or should be
closed and restored.

(5) Prompt and effective implementation of the Off-Highway Motor Vehicle
Recreation Program by the department and the Division of Off-Highway Motor
Vehicle Recreation should have an equal priority among other programs in the
department.

(6) Off-highway motor vehicle recreation should be managed in accordance with
this chapter through financial assistance to local governments and joint
undertakings with agencies of the United States and with federally recognized
Native American tribes.

(C) Funds identified in this paragraph shall be available for grants and cooperative agreements for projects that provide ecological restoration or repair to habitat damaged by both legal and illegal off-highway motor vehicle use.

(D) Eligible projects include:

(ii) Removal of roads or trails and the restoration of damaged habitats in any area that is not designated for motorized vehicle use.

Any unencumbered funds under this paragraph shall be used only in future grant cycles for purposes consistent with this paragraph.

Law enforcement.

Twenty percent of the funds appropriated by the Legislature pursuant to subdivision (a) of Section 5090.61 shall be available for law enforcement grants and cooperative agreements and shall be allocated to local and federal law enforcement entities for personnel and related equipment. The amount of the grant or cooperative agreement shall be proportionate to the off-highway motor vehicle enforcement needs under each entity’s jurisdiction.

(vi) Specify how personnel is trained and educated regarding off-highway motor vehicle safety and resource and cultural protection.

(D) Notwithstanding subdivision (h), law enforcement entities that receive funds allocated pursuant to this paragraph shall be subject to a financial and performance audit at least once every five years. The audits may be conducted in a random order. As part of the audit, the department shall consider whether the law enforcement entity has spent the grant money in accordance with its application.

(4) Education and safety. Five percent of the funds appropriated by the Legislature pursuant to subdivision (a) of Section 5090.61 shall be available for grants and cooperative agreements that either provide comprehensive education that teaches off-highway motor vehicle safety, environmental responsibility, and respect for private property, or provide safety programs associated with off-highway motor vehicle recreation.

(c) Eligible grant and cooperative agreement applicants include:

(1) Cities, counties, and districts that have approval to apply for grant funds, in the form of a resolution from their governing body.

(2) State agencies for projects under paragraph (2) of subdivision (b).

(3) Agencies of the United States.

(4) Federally recognized Native American tribes.

(5) Education and nonprofit organizations for eligible projects described in subdivision (f).

3. Require applications to be in accordance with local or federal plans and the strategic plan for off-highway motor vehicle recreation prepared by the division.

4. Require grant applicants to comply with the California Environmental Quality Act (Division 13 (commencing with Section 21000)). Applicants for cooperative agreements shall complete environmental review procedures that are at least comparable to those of the California Environmental Quality Act (Division 13 (commencing with Section 21000)).

5. Require the applicant to agree to provide matching funds or the equivalent value of services or material used, in an amount not less than 25 percent of the total project cost.

6. Require the applicant, if it is a city or county, to disclose how fees collected pursuant to Section 38230 of the Vehicle Code are being used and whether the use of these fees complements the applicant’s project.

7. Fund all eligible applications to the extent feasible.

(e) All grants and cooperative agreements involving ground disturbing activities shall be subject to the uniform application of soil and wildlife habitat protection standards specified in Section 5090.53.

(f) Grants may be awarded to educational institutions and nonprofit organizations. Eligible projects shall be limited to scientific research, natural resource conservation activities, trail and facility maintenance, restoration, and programs involving off-highway motor vehicle safety or education. If the application for grant funds involves activities on any public lands, all of the following shall apply:

1. The applicant shall include a work plan for the project.

2. The applicant shall provide written permission from the appropriate land manager to conduct a project, including a description of how the project fits with the land management goals of the area.

   (B) The division lacked sufficient factual evidence to support or deny the award of a grant or cooperative agreement.

2. Require the applicant to first appeal to the deputy director of the division. If that appeal is denied, the applicant may then appeal to the director of the division, or the director’s appointee.

3. Require applicants to file their first appeal within 30 calendar days following the notice of award or denial of a grant or cooperative agreement. Notice of the decision or the rejection of the appeal shall be issued within 60 days following the filing of an appeal.

4. Require applicants to exhaust these appeal rights prior to seeking other legal remedies through the courts.

(j) A grant shall not be made, nor a cooperative agreement entered into, pursuant to this section without the approval of the director.

§ 5090.53. Conditions for Grants or Encumbrance of Funds

No funds may be granted or expended pursuant to Section 5090.50, unless all of the following conditions are met:

(a) If the project involves a ground disturbing activity, the recipient has completed wildlife habitat and soil surveys and has prepared a wildlife habitat protection program to sustain a viable species composition for the project area.
(b) If the project involves a ground disturbing activity, the recipient agrees to monitor the condition of soils and wildlife in the project area each year in order to determine whether the soil conservation standards adopted pursuant to Section 5090.35 and the wildlife habitat protection program prepared pursuant to subdivision (a) are being met.

(c) If the project involves a ground disturbing activity, the recipient agrees that, whenever the soil conservation standards adopted pursuant to Section 5090.35 are not being met in any portion of a project area, the recipient shall close temporarily that noncompliant portion, to repair and prevent accelerated erosion, until the same soil conservation standards adopted pursuant to Section 5090.35 are met.

(d) If the project involves a ground disturbing activity, the recipient agrees that, whenever the wildlife habitat protection program prepared pursuant to subdivision (a) is not being met in any portion of a project area, the recipient shall close temporarily that noncompliant portion until the same wildlife habitat protection program prepared pursuant to subdivision (a) is met.

(e) The recipient agrees to enforce the registration of off-highway motor vehicles and the other provisions of Division 16.5 (commencing with Section 38000) of the Vehicle Code and to enforce the other applicable laws regarding the operation of off-highway motor vehicles.

(f) The recipient agrees to cooperate with appropriate law enforcement entities to provide proper law enforcement at and around the facility.

(g) The recipient has identified the potential for the facility to reduce illegal and unauthorized off-highway motor vehicle recreation activities in the surrounding areas.

(h) The recipient has included in its application a description of how it is meeting the operations and maintenance needs of any existing off-highway motor vehicle recreation facility under its jurisdiction.

ARTICLE 6. Fiscal Management

§ 5090.60. Sources of Moneys in the OHV Trust Fund

The fund consists of deposits from the following sources:

(a) Revenues transferred from the Motor Vehicle Fuel Account in the Transportation Tax Fund.

(b) Fees paid pursuant to subdivision (b) of Section 38225 of the Vehicle Code.

(c) Unexpended service fees.
(d) Fees and other proceeds collected at state vehicular recreation areas, as provided in subdivision (c) of Section 5010.

(e) Reimbursements.

(f) Revenues and income from any other source required by law to be deposited in the fund.

§ 5090.61. Appropriation and Allocation of Moneys in Fund

Moneys in the fund shall be available, upon appropriation by the Legislature, as follows:

(a) An amount, not to exceed 50 percent of the annual revenues to the fund, shall be available for grants and cooperative agreements pursuant to Article 5 (commencing with Section 5090.50).

(b) (1) The remainder of the annual revenues to the fund shall be available for the support of the division in implementing the off-highway motor vehicle recreation program and for the planning, acquisition, development, construction, maintenance, administration, operation, restoration, and conservation of lands in the system.

(2) As used in this subdivision, “support of the division” includes functions performed outside of the division by others on behalf of the division, including costs incurred on behalf of the division for personnel management and training, accounting, and fiscal analysis, records, purchasing, public information activities, consultation of professional scientists and reclamation experts for the purposes of Section 5090.35, and legal services. “Support of the division” does not include costs incurred by, or attributable to, the director or the director’s immediate staff, or their salaries.

§ 5090.65. Use of Money in Fund for Repair of Boundary Fences

Money in the fund shall be used to pay for the repair of any boundary fence that segregates off-highway vehicle use from adjoining landowners and is adjacent to an off-highway vehicle site that is funded by the fund, when the fence has become broken or damaged by off-highway vehicle users.
ARTICLE 7. Termination

§ 5090.70. Repeal of Chapter

This chapter shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date.

CHAPTER 1.27. California SNO-PARK Permit Program

ARTICLE 1. General Provisions

§ 5091.01. Legislative Findings

(a) The Legislature finds that as the popularity of winter recreation has steadily grown, so too has the problem of insufficient parking areas for participants.

(b) The Legislature hereby declares that adequate parking facilities for winter recreation are essential to ensure safety and well-being of the states’ winter recreationists.

(c) Accordingly, in furtherance of the California Outdoor Recreation Plan, it is the intent of the Legislature to establish the California SNO-PARK Permit Program, whereby winter recreationists may purchase a windshield sticker that will allow them to park in any of the roadside parking areas to be established and plowed for this purpose.

§ 5091.02. Definitions

Unless the context otherwise requires, the definitions in this section govern the construction of this chapter.

(a) “Authorized vendor” means a retail commercial enterprise, authorized by the department to sell SNO-PARK permits established by this chapter.

(b) “Department” means the Department of Parks and Recreation.

(c) “Fund” means the Winter Recreation Fund.

(d) “Designated parking area” means an area located, constructed, maintained, and signed pursuant to this chapter.

(e) “Winter recreation” means any recreational activity principally dependent upon snow-covered ground, including, but not limited to, cross-country skiing, snowshoeing, sledding, ice fishing, snow camping, dog-sledding, and snowmobiling.
ARTICLE 2. Designation of Parking Areas

§ 5091.10. Public Hearings; Designation; Snow Removal

(a) The State Park and Recreation Commission shall hold at least two public hearings, one in the northern portion of the state and one in the southern portion of the state, to seek proposals from individuals, winter recreation user groups, the department, and other public agencies for parking areas to be designated under this chapter.

(b) The director shall appoint a committee, which shall be known as the “Winter Recreation Committee,” to advise the director on the location of designated parking areas.

(c) The department shall, after consultation with the State Park and Recreation Commission, the Department of Transportation, the Department of the California Highway Patrol, the appropriate boards of supervisors, and any local public or private persons owning lands adjacent to each site, designate winter recreation parking locations throughout the state and include the sites as an element of the California outdoor recreation plan. The department may enter into long-range agreements for the utilization of private and public lands for the programs. The location and design of any proposed site adjacent to, or directly impacting on, a state highway shall be reviewed and approved by the Department of Transportation. The location and design of any proposed site adjacent to, or directly impacting on, a county road shall be reviewed and approved by the appropriate board of supervisors.

(d) Using funds appropriated from the Winter Recreation Fund and allocated pursuant to paragraph (1) of subdivision (b) of Section 5091.25, the Department of Transportation shall provide for the removal of snow accumulating on designated parking areas according to priorities established by the Department of Transportation in consultation with the department. The removal of snow from the roadway of state highways shall always take precedence over the removal of snow from designated parking areas.

(e) Using funds appropriated from the Winter Recreation Fund and allocated pursuant to paragraph (3) of subdivision (b) of Section 5091.25, the department may make grants to counties for the removal of snow accumulating on designated parking areas. The department may contract with the appropriate public and private entities for snow removal, provision of sanitary facilities, signage, trash removal, parking lot repairs, and other services. In no event shall the removal of snow on designated parking areas become a county responsibility, except by agreement with the appropriate board of supervisors.
§ 5091.15. Permit Requirement; Exemption; Fee; Violations

(a) Except as provided in this section, no person shall, from November 1 of any year to May 30 of the next year or for a shorter time as determined by the department, park a vehicle in a designated parking area unless the vehicle displays a parking permit issued by the department. Overnight camping in a vehicle parked in a designated parking area may be authorized by the department when it determines that the use is for a recreational activity, is safe and prudent, and is of limited duration.

(b) No parking permit shall be required under this section for a vehicle owned and operated by the United States, another state or political subdivision thereof, or by this state or by a city, county, district, or political subdivision thereof.

(c) The fee for the issuance of a parking permit under this chapter shall be determined by the department. The department shall hold at least one public hearing and notify the Legislature at least 30 days prior to any proposal to change the fees.

(d) A person who violates this section is guilty of an infraction punishable by a fine of seventy-five dollars ($75). Unless the peace officer issuing the citation witnesses the parking of the vehicle, a rebuttable presumption exists that a vehicle parked in violation of this section was parked by the registered owner of the vehicle. If the parking of the vehicle is witnessed by the peace officer, the operator of the vehicle is in violation of this section.

(e) The department may negotiate reciprocity agreements with other states having similar programs if the agreements are in the best interests of the California SNO-PARK program.

(f) The department may contract with appropriate agencies for law enforcement, including, but not limited to, the Department of the California Highway Patrol, the county sheriffs, and the United States Department of Agriculture Forest Service. Enforcement activities may be funded with moneys appropriated from the Winter Recreation Fund.

ARTICLE 4. Permits

§ 5091.20. Sale and Distribution; Vendors

(a) The department shall print the permits required by this chapter and shall supervise the sale of the permits throughout the state.
(b) The department shall either distribute and sell the permits directly or contract with vendors according to rules and regulations adopted by the department. The authorized vendors shall be bonded in accordance with the rules and regulations and shall receive a stipulated commission for each permit sold.

(c) In situations where the department elects to contract with a vendor pursuant to subdivision (b), the department shall provide the permits to the vendor at no cost. The vendor may deduct his or her commission from the proceeds acquired from permit sales prior to remitting those proceeds to the department.

ARTICLE 5. Revenues

§ 5091.25. Winter Recreation Fund; Deposit of Permit Proceeds; Allocations

(a) Proceeds from the sale of SNO-PARK parking permits shall be paid to the State Treasury to the credit of the Winter Recreation Fund, which is hereby created.

(b) The moneys in the Winter Recreation Fund shall be allocated, when appropriated, as follows:

(1) An amount equal to the actual and necessary costs incurred in the removal of snow from designated parking areas shall be paid to the Department of Transportation.

(2) The balance of the funds shall be expended for the acquisition, lease, development, and maintenance of additional designated parking areas, for sanitation facilities, trailhead markings, and other facilities designed to promote the safety and well-being of persons engaged in winter recreation, and for grants to counties for the actual and necessary costs incurred in the removal of snow from designated parking areas, and to inform and educate the public about the program.

§ 5091.26. Exercise of Eminent Domain Prohibited

Eminent domain shall not be exercised to acquire any interest in property for a designated parking area.

§ 5091.27. Rules and Regulations

The department may adopt rules and regulations necessary to implement and enforce this chapter.
§ 7326. Motor Vehicle Fuel Defined

“Motor vehicle fuel” means gasoline and aviation gasoline. It does not include jet fuel, diesel fuel, kerosene, liquefied petroleum gas, natural gas in liquid or gaseous form, alcohol, or racing fuel.

§ 8101. Refund of Fuel Taxes Attributable to Recreational Use Off-Highway

The following persons who have paid a tax for motor vehicle fuel, either directly or to the vendor from whom it was purchased, or indirectly by the adding of the amount of the tax to the price of the fuel, shall, except as otherwise provided in this part, be reimbursed and repaid the amount of the tax:

(a) Any person who buys and uses the motor vehicle fuel for purposes other than operating motor vehicles upon the public highways of the state, except vehicles subject to identification under Division 16.5 (commencing with Section 38000) of the Vehicle Code, which are used for recreational purposes or are rented or leased for recreational purposes, and, on and after July 1, 1974, except motor vehicles subject to registration under Division 3 (commencing with Section 4000) of the Vehicle Code while engaged in off-highway recreational use.

(b) Any person who exports the motor vehicle fuel for use outside of this state. Motor vehicle fuel carried from this state in the fuel tank of a motor vehicle or aircraft is not deemed to be exported from this state unless the motor vehicle fuel becomes subject to tax as an “import” under the laws of the destination state.

[Subsections (c) through (g) were omitted as irrelevant to OHVs]
§ 8351. Deposit in Motor Vehicle Fuel Fund: Continuation as Motor Vehicle Fuel Account in Transportation Tax Fund

The Controller shall transmit all money received by him or her in payment of taxes, interest, and penalties due under this part, and restitution orders or any other amounts otherwise authorized by law to be collected by the Controller, or any other amounts imposed by a court of competent jurisdiction to be paid to the Controller, to the State Treasurer who shall deposit it in the State Treasury and credit it to the Motor Vehicle Fuel Fund, which is continued in existence as the Motor Vehicle Fuel Account in the Transportation Tax Fund, which fund is hereby created. All fees paid and accepted for issuance or reinstatement of licenses under this part shall be deposited by the board in the State Treasury to the credit of the same account.

Any reference in any law or regulation to the Motor Vehicle Fuel Fund shall be deemed to refer to the Motor Vehicle Fuel Account in the Transportation Tax Fund.

Notwithstanding any other provision of law, the Controller may use the funds in the Motor Vehicle Fuel Account in the Transportation Tax Fund for cashflow loans to the General Fund as provided in Sections 16310 and 16381 of the Government Code. Any such loan shall be exempt from paragraph (2) of subdivision (b) of Section 16310 of the Government Code. Interest shall be paid on all moneys loaned to the General Fund and shall be computed at a rate determined by the Pooled Money Investment Board to be the current earning rate of the fund from which the money is loaned. This subdivision does not authorize any transfer that would interfere with the carrying out of the object for which these funds were created.

§ 8352. Appropriations from Fund

Subject to the provisions of any budget bill heretofore or hereafter enacted, the money deposited to the credit of the Motor Vehicle Fuel Account is hereby appropriated for expenditure, allocation, or transfer as provided in this chapter.

§ 8352.1. Authorized Expenditures

The money deposited to the credit of the Motor Vehicle Fuel Account may be expended for the following purposes:

(a) To pay the refunds authorized in this part, including refunds due on account of judgments for the return of taxes illegally collected.

(b) To the Controller, to carry out any duties imposed upon him or her by this part.

(c) To the board, to carry out any duties imposed upon it by this part.
(d) To pay the pro rata share of the overhead and general administrative expense of the Controller and the board attributable to duties imposed by this part. The pro rata share is payable upon presentation of a claim against any appropriation from the Motor Vehicle Fuel Account for the support of the Controller or the board, as the case may be.

§ 8352.2. Transfers to the State Transportation Fund

Subject to the provisions of this chapter, the money deposited to the credit of the Motor Vehicle Fuel Account shall be transferred to the State Transportation Fund, which is hereby created, as provided in this chapter.

§ 8352.6. Fuel Tax Transfers to the OHV Trust Fund

(a) (1) Subject to Section 8352.1, and except as otherwise provided in paragraphs (2) and (3), on the first day of every month, there shall be transferred from moneys deposited to the credit of the Motor Vehicle Fuel Account to the Off-Highway Vehicle Trust Fund created by Section 38225 of the Vehicle Code an amount attributable to taxes imposed upon distributions of motor vehicle fuel used in the operation of motor vehicles off highway and for which a refund has not been claimed. Transfers made pursuant to this section shall be made prior to transfers pursuant to Section 8352.2.

(2) Commencing July 1, 2012, the revenues attributable to the taxes imposed pursuant to subdivision (b) of Section 7360 and Section 7361.1 and otherwise to be deposited in the Off-Highway Vehicle Trust Fund pursuant to paragraph (1) shall instead be transferred to the General Fund. The revenues attributable to the taxes imposed pursuant to subdivision (b) of Section 7360 and Section 7361.1 that were deposited in the Off-Highway Vehicle Trust Fund in the 2010-11 and 2011-12 fiscal years shall be transferred to the General Fund.

(3) The Controller shall withhold eight hundred thirty-three thousand dollars ($833,000) from the monthly transfer to the Off-Highway Vehicle Trust Fund pursuant to paragraph (1), and transfer that amount to the General Fund.

(b) The amount transferred to the Off-Highway Vehicle Trust Fund pursuant to paragraph (1) of subdivision (a), as a percentage of the Motor Vehicle Fuel Account, shall be equal to the percentage transferred in the 2006-07 fiscal year. Every five years, starting in the 2013-14 fiscal year, the percentage transferred may be adjusted by the Department of Transportation in cooperation with the Department of Parks and Recreation and the Department of Motor Vehicles. Adjustments shall be based on, but not limited to, the changes in the following factors since the 2006-07 fiscal year or the last adjustment, whichever is more recent:
(1) The number of vehicles registered as offhighway motor vehicles as required by Division 16.5 (commencing with Section 38000) of the Vehicle Code.

(2) The number of registered street-legal vehicles that are anticipated to be used off highway, including four-wheel drive vehicles, all-wheel drive vehicles, and dual-sport motorcycles.

(3) Attendance at the state vehicular recreation areas.

(4) Off-highway recreation use on federal lands as indicated by the United States Forest Service’s National Visitor Use Monitoring and the United States Bureau of Land Management’s Recreation Management Information System.

(c) It is the intent of the Legislature that transfers from the Motor Vehicle Fuel Account to the Off-Highway Vehicle Trust Fund should reflect the full range of motorized vehicle use off highway for both motorized recreation and motorized off-road access to other recreation opportunities. Therefore, the Legislature finds that the fuel tax baseline established in subdivision (b), attributable to off-highway estimates of use as of the 2006-07 fiscal year, accounts for the three categories of vehicles that have been found over the years to be users of fuel for off-highway motorized recreation or motorized access to nonmotorized recreational pursuits. These three categories are registered off-highway motorized vehicles, registered street legal motorized vehicles used off highway, and unregistered off-highway motorized vehicles.

(d) It is the intent of the Legislature that the off-highway motor vehicle recreational use to be determined by the Department of Transportation pursuant to paragraph (2) of subdivision (b), be that usage by vehicles subject to registration under Division 3 (commencing with Section 4000) of the Vehicle Code, for recreation or the pursuit of recreation on surfaces where the use of vehicles registered under Division 16.5 (commencing with Section 38000) of the Vehicle Code may occur.

(e) In the 2014-15 fiscal year, the Department of Transportation, in consultation with the Department of Parks and Recreation and the Department of Motor Vehicles, shall undertake a study to determine the appropriate adjustment to the amount transferred pursuant to subdivision (b) and to update the estimate of the amount attributable to taxes imposed upon distributions of motor vehicle fuel used in the operation of motor vehicles off highway and for which a refund has not been claimed. The department shall provide a copy of this study to the Legislature no later than January 1, 2016.

§ 8352.8. Conservation and Enforcement Services Account

(a) The Conservation and Enforcement Services Account is hereby established as an account in the Off-Highway Vehicle Trust Fund created by Section 38225 of the Vehicle Code.
(b) Funds in the Conservation and Enforcement Services Account shall be allocated to the Division of Off-Highway Motor Vehicle Recreation of the Department of Parks and Recreation for expenditure, upon appropriation by the Legislature, for the following purposes:

(1) Up to the 40 percent of the funds, for cooperative agreements or challenge cost-sharing agreements with the United States Forest Service and the United States Bureau of Land Management, to complete necessary route designation planning work and to implement route planning decisions.

(2) Up to one million one hundred thousand dollars ($1,100,000) for each grant cycle, to increase the amount of funds available for restoration grants in the program pursuant to paragraph (2) of subdivision (b) of Section 5090.50 of the Public Resources Code.

ARTICLE 1. Vehicles Subject to Registration

§ 4000. Registration Required

(a) (1) A person shall not drive, move, or leave standing upon a highway, or in an offstreet public parking facility, any motor vehicle, trailer, semitrailer, pole or pipe dolly, or logging dolly, unless it is registered and the appropriate fees have been paid under this code or registered under the permanent trailer identification program, except that an off-highway motor vehicle which displays an identification plate or device issued by the department pursuant to Section 38010 may be driven, moved, or left standing in an offstreet public parking facility without being registered or paying registration fees.

(2) For purposes of this subdivision, “offstreet public parking facility” means either of the following:

(A) Any publicly owned parking facility.

(B) Any privately owned parking facility for which no fee for the privilege to park is charged and which is held open for the common public use of retail customers.

(3) This subdivision does not apply to any motor vehicle stored in a privately owned offstreet parking facility by, or with the express permission of, the owner of the privately owned offstreet parking facility.

(4) Beginning July 1, 2011, the enforcement of paragraph (1) shall commence on the first day of the second month following the month of expiration of the vehicle’s registration. This paragraph shall become inoperative on January 1, 2012.

(b) No person shall drive, move, or leave standing upon a highway any motor vehicle, as defined in Chapter 2 (commencing with Section 39010) of Part 1 of Division 26 of the Health and Safety Code, that has been registered in violation of Part 5 (commencing with Section 43000) of that Division 26 of the Health and Safety Code.

(2) The legal owner of collateral shall, by operation of law and without requiring further action, indemnify and hold harmless a law enforcement agency, city, county, city and county, the state, a tow yard, storage facility, or an impounding yard from a claim arising out of the release of the collateral to a licensee, and from any damage to the collateral after its release, including reasonable attorney’s fees and costs associated with defending a claim, if the collateral was released in compliance with this subdivision.

(h) For purposes of this section, possession of a California driver’s license by the registered owner of a vehicle shall give rise to a rebuttable presumption that the owner is a resident of California.

(e) When the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of this section in satisfaction of, or as a substitute for, an original charge of a violation of Section 14601.2, and the court accepts that plea, except, in the interest of justice, when the court finds it would be inappropriate, the court shall, pursuant to Section 23575, require the person convicted, in addition to any other requirements, to install a certified ignition interlock device on any vehicle that the person owns or operates for a period not to exceed three years.

(f) This section also applies to the operation of an off-highway motor vehicle on those lands to which the Chappie-Z’berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

(a) No person shall drive a motor vehicle when his or her driving privilege is suspended or revoked for any reason other than those listed in Section 14601, 14601.2, or 14601.5, if the person so driving has knowledge of the suspension or revocation. Knowledge shall be conclusively presumed if mailed notice has been given by the department to the person pursuant to Section 13106. The presumption established by this subdivision is a presumption affecting the burden of proof.

(b) Any person convicted under this section shall be punished as follows:

(d) When the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of this section in satisfaction of, or as a substitute for, an original charge of a violation of Section 14601.2, and the court accepts that plea, except, in the interest of justice, when the court finds it would be inappropriate, the court shall, pursuant to Section 23575, require the person convicted, in addition to any other requirements, to install a certified ignition interlock device on any vehicle that the person owns or operates for a period not to exceed three years.

(e) This section also applies to the operation of an off-highway motor vehicle on those lands to which the Chappie-Z'berg Off-Highway Motor Vehicle Law of 1971 (Division 16.5 (commencing with Section 38000)) applies as to off-highway motor vehicles, as described in Section 38001.

§ 14601.2. Driving When Privilege Suspended or Revoked for Driving Under the Influence, With Excessive Blood Alcohol, or When Addicted

(a) A person shall not drive a motor vehicle at any time when that person’s driving privilege is suspended or revoked for a conviction of a violation of Section 23152 or 23153 if the person so driving has knowledge of the suspension or revocation.

(b) Except in full compliance with the restriction, a person shall not drive a motor vehicle at any time when that person’s driving privilege is restricted if the person so driving has knowledge of the restriction.

(c) Knowledge of suspension or revocation of the driving privilege shall be conclusively presumed if mailed notice has been given by the department to the person pursuant to Section 13106. Knowledge of the restriction of the driving privilege shall be presumed if notice has been given by the court to the person. The presumption established by this subdivision is a presumption affecting the burden of proof.

(d) A person convicted of a violation of this section shall be punished as follows:

1. Upon a first conviction, by imprisonment in the county jail for not less than 10 days or more than six months and by a fine of not less than three hundred dollars ($300) or more than one thousand dollars ($1,000), unless the person has been designated an habitual traffic offender under subdivision (b) of Section 23546, subdivision (b) of Section 23550, or subdivision (d) of Section 23550.5,

(e) If a person is convicted of a first offense under this section and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 10 days.

(f) If the offense occurred within five years of a prior offense that resulted in a conviction of a violation of this section or Section 14601, 14601.1, or 14601.5 and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 30 days.

(g) If a person is convicted of a second or subsequent offense that results in a conviction of this section within seven years, but over five years, of a prior offense that resulted in a conviction of a violation of this section or Section 14601, 14601.1, or 14601.5 and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 10 days.

(h) Pursuant to Section 23575, the court shall require a person convicted of a violation of this section to install a certified ignition interlock device on a vehicle the person owns or operates. In proving the person neglected a duty imposed by law in the driving of the vehicle, it is not necessary to prove that a specific section of this code was violated.

(b) A person convicted under this section shall be imprisoned in the county jail and shall not be released upon work release, community service, or other release program before the minimum period of imprisonment, prescribed in Section 14601.2, is served. If a person is convicted of that offense and is granted probation, the court shall require that the person convicted serve at least the minimum time of imprisonment, as specified in those sections, as a term or condition of probation.

(c) When the prosecution agrees to a plea of guilty or nolo contendere to a charge of a violation of this section in satisfaction of, or as a substitute for, an original charge of a violation of Section 14601.2, and the court accepts that plea, except, in the interest of justice, when the court finds it should be inappropriate, the court shall, pursuant to Section 23575, require the person convicted, in addition to other requirements, to install a certified ignition interlock device on a vehicle that the person owns or operates for a period not to exceed three years.

facilities, or between lodging facilities and an off-highway motor vehicle recreational facility and if it is found that the highway is designed and constructed so as to safely permit the use of regular vehicular traffic and also the driving of off-highway motor vehicles on that highway, the local authority, by resolution or ordinance, agency of the federal government, or the Director of Parks and Recreation, as the case may be, may designate that highway, or a portion of a highway, for combined use and shall prescribe rules and regulations therefor. (a) Except as provided in subdivision (e), the County of Inyo may establish a pilot project to designate combined-use highways on unincorporated county roads in the county for no more than 10 miles so that the combined-use highways can be used to link existing off-highway motor vehicle trails and trailheads on federal Bureau of Land Management or United States Forest Service lands, and to link off-highway motor vehicle recreational-use areas with necessary service and lodging facilities, in order to provide a unified system of trails for off-highway motor vehicles, preserve traffic safety, improve natural resource protection, reduce off-highway vehicle trespass on private land, and minimize impacts on county residents.
(b) The pilot project shall do all of the following:

1. Prescribe a procedure for highway, road, or route selection and designation. The procedure shall be approved by a vote of a majority of the Inyo County Board of Supervisors.

2. Prescribe a procedure for the county to remove a combined-use designation, including a designation that is removed as a result of the conclusion of the pilot program.

5. Prohibit off-highway motor vehicles from traveling faster than 35 miles per hour on highways designated under this section.

6. Include an opportunity for public comment at a public hearing held by the county in order to evaluate the pilot project.

(c) The pilot project may include use of a state highway, subject to the approval of the Department of Transportation, or any crossing of a highway designated pursuant to Section 38025.

(d) (1) By selecting and designating a highway for combined use pursuant to this section, the County of Inyo agrees to defend and indemnify the state against any and all claims, including legal defense and liability arising from a claim, for any safety-related losses or injuries arising or resulting from use by off-highway motor vehicles of a highway designated as a combined-use highway by the Inyo County Board of Supervisors pursuant to this section.

(2) This subdivision does not alter the requirements of subdivision (e).
(e) The County of Inyo shall not designate a highway for combined use pursuant to this section unless the Commissioner of the Department of the California Highway Patrol finds that designating the highway for combined use would not create a potential traffic safety hazard.

(f) Not later than January 1, 2016, the County of Inyo, in consultation with the Department of the California Highway Patrol, the Department of Transportation, and the Department of Parks and Recreation, shall prepare and submit to the Legislature a report evaluating the pilot project, and containing both of the following:

need not give the notice when selling or transferring a new unidentified off-highway motor vehicle subject to identification to another dealer.

A “sale” shall be deemed completed and consummated when the purchaser of that vehicle has paid the purchase price, or, in lieu thereof, has signed a purchase contract or security agreement, and taken physical possession or delivery of that vehicle.

(b) Every dealer of off-highway motor vehicles subject to identification who is not licensed with the department, and who engages only in the sale of vehicles of a type not properly equipped for operation upon the highway and that are restricted to off-highway operation or use, shall comply with the provisions of Section 5900, or such regulations as the director determines are necessary to carry out the provisions of this division.

If the applicant so desires, he may pay the use tax and penalty, if any, to the department so as to secure immediate action upon his application for identification or transfer of ownership, and thereafter he may apply through the Department of Motor Vehicles to the State Board of Equalization
under the provisions of the Sales and Use Tax Law for a refund of the amount so
paid.

CHAPTER 2. Disposition of Fees, Fines, and Forfeitures

ARTICLE 1. Fines and Forfeitures

§ 42200. Disposition by Cities and Other Local Entities

(a) Of the total amount of fines and forfeitures received by a city under Section 1463 of the Penal Code that proportion which is represented by fines and forfeitures collected from any person charged with a misdemeanor under this code following arrest by an officer employed by a city, shall be paid into the treasury of the city and deposited in a special fund to be known as the “Traffic Safety Fund,” and shall be used exclusively for official traffic control devices, the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement, or construction of public streets, bridges, and culverts within the city, but the fund shall not be used to pay the compensation of traffic or other police officers. The fund may be used to pay the compensation of school crossing guards who are not regular full-time members of the police department of the city.

(b) For purposes of this section, “city” includes any city, city and county, district, including any enterprise special district, community service district, or county service area engaged in police protection activities as reported to the Controller for inclusion in the 1989-90 edition of the Financial Transactions Report Concerning Special Districts under the heading of Police Protection and Public Safety, authority, or other local agency (other than a county) which employs persons authorized to make arrests or to issue notices to appear or notices of violation which may be filed in court.

(b) The board of supervisors of a county may enter into a contract with the Department of the California Highway Patrol for the purpose of providing adequate protection for school pupils who are required to cross heavily traveled streets, highways, and roadways in the unincorporated areas of the county. When requested, the Department of the California Highway Patrol may provide such service and the county shall reimburse the state for salaries and wages of crossing guards furnished by the Department of the California Highway Patrol pursuant to such contract, including any necessary retirement and general administrative costs and expenses in connection therewith, and may pay the costs thereof from amounts deposited in the road fund pursuant to this section.

(c) Fines and forfeitures received by a county under Section 1463.001 of the Penal Code may be used to pay the compensation of school crossing guards and necessary equipment costs and administrative costs.

(d) When requested by any county which had in effect on June 30, 1979, a contract with the Department of the California Highway Patrol, to provide protection for school pupils at school crossings, the department upon request of a county shall continue to administer such school crossing program until June 30, 1980. The county shall reimburse the Department of the California Highway Patrol for general administrative costs and expenses in connection therewith, except that, effective January 1, 1980, the crossing guards shall be furnished to the California Highway Patrol and such crossing guards shall be employees of the county, the county superintendent of schools, the affected school districts, or both the superintendent and the affected school districts, at the option of the board of supervisors of the county. Any salaries and wages of crossing guards, including necessary retirement and equipment costs and any administrative costs shall be paid or reimbursed by the county from amounts deposited in the road fund pursuant to this section.

(e) The board of supervisors may adopt standards for the provision of school crossing guards. The board has final authority over the total cost of the school crossing guard program of any agency to be paid or reimbursed from amounts deposited in the road fund pursuant to this section. The board of supervisors may specify that a designated county officer, employee, or commissioner is to hire school crossing guards, or, in the alternative, the board may specify that any school district crossing guard program in unincorporated areas shall be maintained by the school districts desiring the program.

Fines, forfeitures, and deposits of bail collected as a result of a charge or conviction of an infraction shall be deposited and distributed in the same manner as fines, forfeitures, and deposits of bail collected from a person charged with or convicted of a misdemeanor.

§ 42201.6. Refunds: Bail Deposits

(a) A deposit of bail received with respect to an infraction violation of this code, or any local ordinance adopted pursuant to this code, including, but not limited to, a violation involving the standing or parking of a vehicle, shall be refunded by the agency which issued the notice of violation or the court within 30 days of a cancellation, dismissal, or finding of not guilty of the offense charged.

(b) Multiple or duplicate deposits of bail or parking penalty shall be identified by the court or agency and refunded within 30 days of identification.

(c) Any amount to be refunded in accordance with subdivision (a) or (b) shall accrue interest, at the rate specified in Section 3289 of the Civil Code, on and after the 60th day of a cancellation, dismissal, or finding of not guilty or identification of multiple or duplicate deposits, and shall be refunded as soon as possible thereafter along with accrued interest.

§ 42203. Disposition of Fines and Forfeitures for Violations on Certain County-Owned Premises

Notwithstanding Section 42201 or 42201.5, 50 percent of all fines and forfeitures collected in a superior court upon conviction or upon the forfeiture of bail for violations of any provisions of the Vehicle Code, or of any local ordinance or resolution, relating to stopping, standing, or parking a vehicle, that have occurred upon the premises of facilities physically located in such county, but which are owned by another county, which other county furnishes law enforcement personnel for the premises, shall be transmitted pursuant to this section to the county which owns the facilities upon which the violations occurred. The court receiving such moneys shall, once each month, transmit such moneys received in the preceding month to the county treasurer of the county in which the court is located. Once each month in which the county treasurer receives such moneys, the county treasurer shall transmit to the county which owns such facilities an amount equal to 50 percent thereof. The county owning such facilities shall, upon receipt
of such moneys from the superior court of the county in which the facilities are
physically located, deposit such moneys in its county treasury for use solely in meeting
traffic control and law enforcement expenses on the premises upon which the violations
occurred.

This section shall not apply when the county in which such facilities are located performs
all law enforcement functions with respect to such facilities.

§ 42204. Disposition of Off-Highway Vehicle Fines and Forfeitures

Notwithstanding any other provisions of law, all fines and forfeitures collected for
violations of Division 16.5 (commencing with Section 38000) shall be deposited in the
appropriate fund in the county where the violation occurred and distributed in the same
manner as specified in Section 42201.5, and shall be used for enforcing laws related to
the operation of off-highway motor vehicles.

§ 42205. Report, Remission, Deposit, and Transfer of Funds

(a) Notwithstanding Chapter 3 (commencing with Section 42270), the department shall
file, at least monthly with the Controller, a report of money received by the
department pursuant to Section 9400 for the previous month and shall, at the same
time, remit all money so reported to the Treasurer. On order of the Controller, the
Treasurer shall deposit all money so remitted into the State Highway Account in the
State Transportation Fund, or directly into the Transportation Debt Service Fund as
provided in paragraph (2) of subdivision (c) of Section 9400.4, as applicable.

(b) The Legislature shall appropriate from the State Highway Account in the State
Transportation Fund to the department and the Franchise Tax Board amounts equal to
the costs incurred by each in performing their duties pursuant to Article 3
(commencing with Section 9400) of Chapter 6 of Division 3. The applicable amounts
shall be determined so that the appropriate costs for registration and weight fee
collection activities are appropriated between the recipients of revenues in proportion
to the revenues that would have been received individually by those recipients if the
total fee imposed under the Vehicle License Fee Law (Part 5 (commencing with
Section 10701) of Division 2 of the Revenue and Taxation Code) was 2 percent of the
market value of a vehicle. The remainder of the funds collected under Section 9400
and deposited in the account, other than the direct deposits to the Transportation Debt
Service Fund referenced in subdivision (a), may be appropriated to the Department
of Transportation, the Department of the California Highway Patrol, and the
Department of Motor Vehicles for the purposes authorized under Section 3 of Article
XIX of the California Constitution.
§ 1774. Commission Appointments.

(b) With respect to the appointment or reappointment by the Governor of a person to an office subject to confirmation by the Senate, the Governor shall submit the name of the person appointed, or the name of the incumbent reappointed, and the effective date of the appointment or reappointment to the Senate or, if the Senate is in recess or has adjourned, to the Secretary of the Senate, within 60 days after the person first began performing the duties of the office, or, as to the reappointment of an incumbent, within 90 days after the expiration date of the term. If the Governor does not provide the required notification within 60 days after the person first began performing the duties of the office, or, as to the reappointment of an incumbent, within 90 days after the expiration date of the term, the office shall be deemed to be vacant as of the first day immediately following the end of the applicable period.

(c) If the Senate either refuses to confirm, or fails to confirm within 365 days after the day the person first began performing the duties of the office, or, with respect to an incumbent whose appointment to that office previously had been confirmed by the Senate and who is reappointed to that office, within 365 days after the expiration date of the term, the following shall apply:

1. If the Senate refuses to confirm, the person may continue to serve in that office until 60 days have elapsed since the refusal to confirm or until 365 days have elapsed since the person first began performing the duties of the office, whichever occurs first, or with respect to an incumbent whose appointment to that office previously had been confirmed by the Senate and who is reappointed
to that office, until 60 days have elapsed since refusal or until 365 days after the expiration date of the prior term, and the office for which the appointment was made shall be deemed to be vacant as of the first day immediately following the end of the applicable period.

(2) If the Senate fails to confirm within the applicable 365-day period, the person may not continue to serve in that office, and the office for which the appointment was made shall be deemed to be vacant as of the first day immediately following the end of the 365-day period.

(b) A title, where used, does not limit the language of a section.

(c) These sections are severally adopted. If one or more of these sections is deemed invalid, the remaining sections are intended to remain in effect. Where a section herein or rule is amended or repealed, acts and omissions prior thereto may be prosecuted as though such section or rule had not been so amended or repealed.

(d) Special regulations for an area or a subject do not preclude the application of general regulations unless expressly so indicated.

(e) The privilege of any person to be present in any unit under control of the Department of Parks and Recreation is hereby expressly conditioned upon compliance by that person with all applicable laws and regulations. In addition to other penalties prescribed by law, violation of any law or regulation shall subject the violator to ejection from the unit in which the violation occurs.

(f) This provision shall be enforced by peace officers having concurrent jurisdiction in any unit in which a violation of regulations may take place.

The Judge confirmed that the State had never registered the loans on the books in order to track and repay them. The Department of Finance acknowledged this in a Budget Briefing dated 11/5/1998 and “recommended that a process be documented for requesting and tracking the $21,500,000.” The initial decision of Counts v. Wilson that ordered the $21.5M to be repaid to the OHVTF was appealed and reversed in 1999. The appeal decision reiterates that up to $21.5M will be transferred to the OHVTF when the Director of the Department of Finance determines that the fund is or is about to be encumbered in excess of the moneys available in the OHVTF.</td>

Section 127. I am reducing the amount for transfer from the Motor Vehicle Fuel Account to the State Parks and Recreation Fund from $21,000,000 to $7,000,000. The remaining $14,000,000 will be transferred to the Off-Highway Vehicle Trust Fund. I am sustaining $7,000,000 of the one-time transfer and, in conjunction with the other amounts I am sustaining for the Department of Parks and Recreation (Department), these amounts will provide the funding needed to allow the Department to address its most critical operating needs.

EDMUND G. BROWN JR.

Original language from SB1018:

SEC. 127. (a) The Controller shall transfer the sum of twenty-one million dollars ($21,000,000) on July 1, 2012, to the Department of Parks and Recreation Fund from moneys in the Motor Vehicle Fuel Account in the State Transportation fund that would otherwise be transferred into the Off-Highway Vehicle Trust Fund pursuant to Section 8352.6 of the Revenue and Taxation Code. Moneys received from off-highway vehicle registration fees shall not be impacted by this section.

(b) It is the intent of the Legislature that the Off-Highway Vehicle Trust Fund appropriations are not affected by the transfer in subdivision (a).

| 2012/13         | Fuel Tax Swap 2010 | This has no fiscal impact on the OHMVR Division. This action reverses unintended revenue previously distributed to the OHV Trust Fund. | "An act to amend Section 10140 of the Public Contract Code, to amend Sections 8352.3, 8352.4, 8352.5, and 8352.6 of the Revenue and Taxation Code, to amend Section 2103 of the Streets and Highways Code, and to amend Section 9400.4 of, and to add Section 42272 to, the Vehicle Code, relating to transportation, and making an appropriation therefor, to take effect immediately."

SEC. 5. Section 8352.6 of the Revenue and Taxation Code is amended to read:

8352.6. (a) (1) Subject to Section 8352.1, and except as otherwise provided in paragraphs (2) and (3), on the first day of every month, there shall be transferred from moneys deposited to the credit of the Motor Vehicle Fuel Account to the Off-Highway Vehicle Trust Fund created by Section 38225 of the Vehicle Code an amount attributable to taxes imposed upon distributions of motor vehicle fuel used in the operation of motor vehicles off highway and for which a refund has not been claimed. Transfers made pursuant to this section shall be made prior to transfers pursuant to Section 8352.2.

(2) From July 1, 2012, until June 30, 2015, inclusive, the revenues attributable to the taxes imposed pursuant to subdivision (b) of Section 7360 and Section 7361.1 and otherwise to be deposited in the Off-Highway Vehicle Trust Fund pursuant to paragraph (1) shall instead be transferred to the General Fund. The revenues attributable to the taxes imposed pursuant to subdivision (b) of Section 7360 and Section 7361.1 that were deposited in the Off-Highway Vehicle Trust Fund in the 2010-11 and 2011-12 fiscal years shall be transferred to the General Fund. Commencing July 1, 2015, the revenues attributable to the taxes imposed pursuant to subdivision (b) of Section 7360 and Section 7361.1 and otherwise to be deposited in the Off-Highway Vehicle Trust Fund pursuant to paragraph (1) shall instead be transferred to the Highway Users Tax Account in the State Transportation Fund, for distribution pursuant to subdivision (a) of Section 2103 of the Streets and Highways Code.
(3) The Controller shall withhold eight hundred thirty-three thousand dollars ($833,000) from the monthly transfer to the Off-Highway Vehicle Trust Fund pursuant to paragraph (1), and transfer that amount to the General Fund.

(b) The amount transferred to the Off-Highway Vehicle Trust Fund pursuant to paragraph (1) of subdivision (a), as a percentage of the Motor Vehicle Fuel Account, shall be equal to the percentage transferred in the 2006-07 fiscal year. Every five years, starting in the 2013-14 fiscal year, the percentage transferred may be adjusted by the Department of Transportation in cooperation with the Department of Parks and Recreation and the Department of Motor Vehicles. Adjustments shall be based on, but not limited to, the changes in the following factors since the 2006-07 fiscal year or the last adjustment, whichever is more recent:

1. The number of vehicles registered as off-highway motor vehicles as required by Division 16.5 (commencing with Section 38000) of the Vehicle Code.

2. The number of registered street-legal vehicles that are anticipated to be used off highway, including four-wheel drive vehicles, all-wheel drive vehicles, and dual-sport motorcycles.

3. Attendance at the state vehicular recreation areas.

4. Off-highway recreation use on federal lands as indicated by the United States Forest Service’s National Visitor Use Monitoring and the United States Bureau of Land Management’s Recreation Management Information System.

(c) It is the intent of the Legislature that transfers from the Motor Vehicle Fuel Account to the Off-Highway Vehicle Trust Fund should reflect the full range of motorized vehicle use off highway for both motorized recreation and motorized off-road access to other recreation opportunities. Therefore, the Legislature finds that the fuel tax baseline established in subdivision (b), attributable to off-highway estimates of use as of the 2006-07 fiscal year, accounts for the three categories of vehicles that have been found over the years to be users of fuel for off-highway motorized recreation or motorized access to non-motorized recreational
