OHMVR COMMISSION MEETING

September 24, 2020

STAFF REPORT: Oceano Dunes SVRA and Pismo State Beach

STAFF: Katie Metraux, Planner

SUBJECT: Public Works Plan Update—Plan Schedule and Milestones for Project Completion

Summary

California State Parks is developing a Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (SVRA) and Pismo State Beach. This staff report is an update on the plan schedule and milestones for project completion.

Discussion

State Parks has met with the California Coastal Commission (Coastal Commission), local jurisdictions, and the Resources Agency on this project. State Parks presented an update at a Coastal Commission hearing in February and July 2020; the next update is scheduled for October 8th.

The draft PWP and draft Environmental Impact Report will be presented at a future Coastal Commission hearing and we are currently working with the Coastal Commission to schedule a future hearing in early 2021. The public will have an opportunity to review and comment on these draft documents.

Background

A PWP is a long-range land use and development plan. It analyzes existing conditions for park operations, recreation opportunities, coastal access, and environmental compliance, makes recommendations for improvement, and includes future development projects and programs. The Coastal Commission reviews and certifies PWPs in the same manner as Local Coastal Plans, as defined in Chapter 6 of the Coastal Act (starting with Public Resources Code Section 3050).

The PWP has had several opportunities for public input and review throughout plan development, document review, and the environmental document review. A contractor is preparing the PWP. There is a project website where the public can view documents,

provide comments, learn about public input opportunities, and sign up for updates. The project website and email address are www.oceanodunespwp.com/ and info@oceanodunespwp.com.
