Mudstone Ranch at Hollister Hills SVRA

Hills SVRA is located in the eastern foothills of the Gabilan Mountains, seven miles south of Hollister. Mudstone Ranch features non-motorized multi-use trails. All trails at Mudstone Ranch are shared by equestrian, hikers and mountain bikers alike. Trails vary in difficulty to appeal to many experience levels and interests.

The Mudstone Ranch Story

Mudstone Ranch was set aside as a buffer area to address Off-highway vehicle impact concerns to neighbors. After listening to the local community the result was to utilize this buffer area for non-motorized multi-use trails. Furthermore, staff would continue to manage these lands through grazing.

Grazing

At certain times of the year there may be cattle grazing within Mudstone Ranch.

Grazing has been a historical use of this land for generations. Today, Hollister Hills staff utilizes grazing as a tool to sustainably manage the Oak Woodland and grassland habitats.

Future Plans

More trails are planned at Mudstone Ranch. A pump track near the parking lot is also slated to be built. Furthermore, interpretive panels at points of interest are planned as well as a physical web self-guided tour. Also, be on the look out for guided tours of Mudstone Ranch.

Physical Web

Access a digital map of Mudstone Ranch. Content is open and accessible to anyone.

To access Physical Web Beacons at Mudstone Ranch on Android or iOS:

- Ensure Bluetooth is turned on
- Use a Physical Web enabled browser such as Chrome or Physical Web
- Adjust notification settings to receive alerts of the nearby beacons
- Open it and have access to a whole new level of information about the world around you
